THE BEST FOUR ROSES.

MAMAN COCHET, Everblooming; charming, rosy Pink.
MAMAN COCHET, Everblooming; charming, soft White.
HELEN GOULD, Everblooming; the rich Crimson Cochet.
ETOILE DeLYON, Everblooming; the rich Golden Cochet.

EVERYBODY SHOULD HAVE THESE FOUR ROSES.

All are perfectly hardy, healthy, vigorous, free-blooming and everblooming. All bear charming, pointed buds, which develop into enormous, faultless flowers, double, deep, and full, colored in rich and lovely coloring; surpassingly beautiful in form and fragrance. They are the cream of the cream of all hardy everblooming roses. If you grow but four plants, they should be these Roses.

THESE FOUR ROSES FREE.

Order $1.00's worth of Seeds or Bulbs, selected from this Guide, during February, or $3.00's worth during March or April, and these four, well-rooted Rose plants will be mailed you Free. If you do not want so many seeds yourself get neighbors to club with you. Or, send 25 cents for the four Roses alone. You will make no mistake in getting these Roses. They should be at every home.

GEO. W. PARK, SEEDSMAN & FLORIST.
LA PARK, LANCASTER COUNTY, PA.
## INDEX AND GERMINATION TABLE

It is important to know the approximate time required by seeds for germination in order to sow them with satisfaction and success. Many seeds are condemned and neglected before they have had sufficient time to start. Always divide the packages and sow at different times. You can then give them a second or third chance if they fail to come up in the first sowing time together. In the green box or bed moist, but not wet, and do not let the soil dry out until the seeds have ample time to germinate. These conditions are more important for biennials and the plants may appear 25 per cent, earlier or 20 per cent, later than the table indicates, according to circumstances. The figures in this list indicate the page in the Guide where the seeds are offered and priced. Following is a key to the seed list to show 5 days, 8 days, 10 days, 15 days, 20 days, 25 days, 30 days, and 60 days. Perennial seeds may take much longer time than stated, some lying dormant for weeks or months, or a year before starting.

As a rule, give and ch and sound of s. G is generally hard, as in get. Such words as Zinnia and Gilia, ending in \(\ldots\) are pronounced Zin'-\(\ldots\)a, Gil \(\ldots\)'e-a, not Zin'-\(\ldots\)a or Gil '-\(\ldots\)a. Accent is indicated by apostrophes.
Introductory Remarks.

My DEAR PATRONS:—Again I have the pleasure of greeting you with my ANNUAL FLORAL GUIDE. I feel as though I were addressing old friends, as you have been looking forward to the arrival of this Guide for 27 years. Many of you, too, are children of my earlier patrons, and this constitutes a bond of friendship between us. I need hardly say that my best efforts have always been given to your service. I have ever tried to give you full value and a square deal. I would rather lose in a trade than to have a patron feel that I had been unjust. If there is dissatisfaction at any time write to me. Do not complain to neighbors. It will be time enough for that when my efforts to adjust matters have proved to be satisfactory. I hope every one of my patrons are not grumblers. My business has been largely built up by the kind words they have spoken for me to others. Their valued influence has ever been in my favor. And just here let me thank you, one and all, for your favors, and assure you that they have been gratefully received and fully prized.

My friends, you can buy of me just as though my establishment were at your door. Make out your order and mail it with the required remittance, and in due time the goods will be put on their way. My wholesale prices will not fail to give you value, and there is no trouble in the way of holding the goods to the last moment or paying a cent for the privilege of covering a few with dust. I send duplicates when asked. It is to be remembered that your order when confirmed is a contract, and the seller is under the same obligation as the buyer. I have had money refunded when goods have been unsatisfactory, and I have stood by my goods as long as you have wanted to have them. In all cases it has been my privilege to receive a fair return on the money you have disbursed.

I ask you to be particular in matters of this sort, and if I fail to live up to your expectations, I wish to assure you I will do my utmost to please you. I will claim full time and attention for my business. Some persons find it a pleasure to buy in this way, others not. In any event, I wish you to understand that I have made it the rule to serve you at short notice, and that I will do my utmost to please you.

So long as I am on this subject I wish to say that if I am not able to fill an order at the time it is made, I will not let you down. I have many orders for my goods, and when they cannot be filled at once, I will do my best to fill them as soon as possible. I have never failed to fill an order, and I shall continue to do so as long as you continue to patronize me.

Finally, I wish to say that I appreciate your patronage in every way. I am happy to think that I have been able to serve you in the past, and I shall do my utmost to serve you in the future. I hope you will continue to support me, and I shall be glad to serve you in any way I can.

Yours truly,

GEO. W. PARK, La Park, Pa.

Remit by Money Order, Express Order, Draft or Registered Letter. Sums of 10c or 25c send in stamps or coin.

Park’s Floral Magazine.—This monthly publication was established in 1871, and has been continuously published by me ever since. It is now the oldest and most popular floral journal in the world, having a circulation of over 50,000 copies monthly. It is original, practical, and fully illustrated, and is the favorite Magazine among amateur florists. Only 10c a year, or for the edition upon fine paper, 25c. Sample copies free upon request.

SPECIAL! Park’s Floral Magazine, one year, for 25c. Your selection from Guide, value 35c, trial price, — 15c. 25c.

This offer is to encourage new subscriptions. The full subscription price (10c) must always be sent to get the seeds (25c worth) at the trial price of 15c. In other words, 25c (either in stamps or coin) must be sent with your order. Tell your friends of this offer.

To Insure Success.—Many failures with seeds are due to lack of knowledge of the time required by the seeds to germinate. Study table on preceding page to avoid failures from this cause. Follow instructions to insure success, and always divide the packets to make several sowings.

Selecting and Sowing.—If you wish seeds to sow in a garden bed or to present to children, or if you have had but little experience in raising flowers from seeds, select such flowers as Alyssum, Asters, Balsams, Calendula, Candytuft, Indian Pink, Gaillarda, Helianthus, Marigold, Mignonette, Bedding Petunia, Pansy, Phlox, Ricinus, Scabiosa, Tropaeolum, Valerian, Verbena and Zinnia; for vines and Climbers, Ceanothus, Cercis, Cleome, Enchanter’s Nightshade, Lathyrus, Morning Glory, Man-

randya, Tropaeolum peregrinum and Thunbergia. Even in sowing these it is well to prepare the bed carefully in a sunny exposure; place a low board frame around it, and, after sowing, water and cover with a newspaper until plants appear. If you sow seeds in the open with full exposure to wind, rain and sun, you should not complain if few of the seeds become established. In a protected place they can be done earlier than in an open one, as extra covering of paper or boards can be applied on cold nights.

GET UP A CLUB.—Park’s Floral Magazine one year with a premium of ten packets of Choice Flower Seeds (my choice; see Magazine) will be sent for 15c. At this price subscriptions are easily obtained. For a club of 25 names ($3.75) I will mail a boy’s or girl’s nickel-plated watch: for 50 names ($5.25) I will mail a gold-plated watch: for 75 names ($11.35) I will mail a gold-filled watch, such as is usually retailed by jewelers at $10.00. Send for blank lists and particulars.
Some Valuable Floral Hints.

Flowers for a Showy Bed.  

Seeds of any of these, 3 cents per packet.

Ageratum, 1 foot.  
Aster, double, tall, 18 inches.  
Bellis, 6 inches.  
Calceolaria, Hybrid, 1 foot.  
Calendula, 3 feet.  
Cannas, 3 feet.  
Carnation, 1 foot.  
Celosia, 1 foot.  
Dianthus, 1 foot.  
Eschscholtzia, 1 foot.  
Galudiantes, 3 weeks.  
Gaultheria, 1 foot.  
Helianthus, 1 foot.  
Lavatera, 1 foot.  
Lobelia, 6 inches.  
Lychnis, 1 foot.  
Petunia, 1 foot.  
Park's Star Flower, 1 foot.  

Flowers for an Edging.  

Seeds of any of these, 3 cents per packet.

Ageratum, dwarf, 6 inches.  
Alyssum, White Carpet, 6 inches.  
Bells, Double Daisy, 6 inches.  
Bellis, 6 inches.  
Cerastium, 9 inches.  
Chenille, 4 inches.  
Dianthus, 6 inches.  
Echinaea, 1 foot.  
Eryngium, 1 foot.  
Petunia, 1 foot.  
Tom's Dwarf, 1 foot.  
Verbena, 1 foot.  

Flowering Plants for Hanging Baskets.  

Seeds of any of these, 3 cents per packet.

Alyssum, White Carpet or Trail's, sun.  
Bellis, 6 inches.  
Bellis, Barnard's Perpetual, 6 inches.  
Bells, Double Daisy, 6 inches.  
Carnation, winter-blooming, 1 foot.  
Cineraria, large-flowered, 1 foot.  
Cyclamen, giant-flowered, 6 inches.  
Helichrysum, 1 foot.  
Lobelia, Royal Purple, 6 inches.  
Petunia, compact, 9 inches.  
Privet, Chinese, fringed, 6 inches.  
Primrose, for Baby, 6 inches.  
Primrose, 3 inches.  
Primrose, Floribunda, 9 inches.  
Scabiosa, 3 inches.  
Tagetes S transparent, 9 inches.  

Insects and Diseases.

The most troublesome insect upon plants is the Aphid or Green Fly. It rarely attacks seedling plants until well started, and some kinds of plants are more troubled with it than others. Chopped tobacco stems, placed between the rows around the plants will keep the pest from gaining a foothold. Quassia-chips tea applied as hot as the hand will bear will be found an effectual remedy. Tobacco smoke confining about the foliage will also destroy the Aphid. Cineraria plants are especially attractive to this pest, and care should be taken to keep the plants clear of it. Coleus, Ageratum, and some other plants are troubled by the Mealy Bug, an insect which forms web-like, floury nests, mostly in the forks of the branches. The best remedy is hot Quassia-chips tea. Scale insects infest Abutilon, Oranges and other shrubby house plants. They appear as brown scabs upon the bark of the trunk and branches. Scrub them loose with a brittle brush and wash thoroughly with hot Quassia-chips tea. Slugs, which eat and destroy the foliage of our Roses, as well as Thrips, Leaf Hoppers and Red Spiders, are quickly and effectually eradicated by using hot Quassia-chips tea. It is a sovereign remedy. The destruction by Cut Worms can be avoided by putting a tube of paper around the stem, letting it extend an inch into the soil. The "worms" which enter the stalks of Dahlia, Zinnia and some other plants can be found by sitting the stalks. They can then be destroyed. Plant young plants of Sweet Alyssum and Borecole which eat young plants of Sweet Alyssum and Borecole can be overcome by dusting the plants with wood soot in the early morning, while the dew is on. The Slug which sometimes eats the foliage of Pansies and Nasturtiums can be destroyed by hand-picking. Night Slugs can be trapped under pieces of turnip or potato. Mildew and rust are natural enemies of Night Slugs, also of Sow-thistles and Anti. They are friends of the gardener. The Lady Bug and its larve thrive upon plant lice. Do not kill them. The native song birds are insect scavengers, and their presence in the garden should be encouraged. The long-necked gourds make excellent nesting-places for some of these. Cuts are enemies of birds as well as a nuisance in the garden. Destroy by placing in a bag with a stone and drowning in a pond of water. "Damping off" is caused by a fungus which attacks young seedlings. It forms an invisible web upon the soil, and when it envelops the stem the plant falls over and dies. Dust of bituminous coal applied to the surface is a remedy. It is well, however, to avoid crowding, and to give the plants air and sunlight, to keep the soil heated as the soil heats the plant. Mildew is also a fungus. In the conservatory and greenhouse it is kept down effectually by painting the hot-water pipes with a mixture of sulphur mixed with water. Certain roses are sometimes troubled with it in the garden. A dressing of flowers of sulphur worked into the soil, and a mixture of lime and sulphur applied to the foliage, are recommended as good remedies. It is better, however, to discard such roses as are much troubled by mildew, and replace with healthier kinds.  

A Sovereign Insect Remedy. —  

Quassia-Chips Tea applied hot to insect-infested plants is an effectual remedy. It may be applied as a wash, or sprayed upon the plants with a syringe, or sprinkled upon them with a brush or watering-can. In every case it will eradicate Aphids or Green Lice, Mealy Bugs, Thrips, Slugs, Hoppers, Scale and other pests. Before applying for Scale rub loose with a coarse brush. Price, 34 lb. 10c, 4 lb. 25c, 1 lb. 35c, mailed. Full directions for use accompany every package. Address GEO. W. PARK, La Park, Lancaster Co., Pa.

To Awaken an Interest. — I know of no better way to awaken an interest in flowers than by introducing Park's Floral Magazine with the seed or bulb premium which accompanies it. The monthly view of the Magazine, teeming with practical floral hints and handsome illustrations, together with the choice flowers which it introduces as a premium, tend to work up a zealous interest in flowers in their own culture, and very soon the subscriber becomes a flower enthusiast. I would like to have a club of subscribers from every village in this home and foreign cities and brightened by flowers is made not only prettier, but happier and more enjoyable to its inmates, and where love and interest abound wickedness and poverty depart. (See page 34.)

Send for terms and get up a big club order. Blank lists, sample copies, Catalogue, booklets and special conferential terms free. Write today. Address GEO. W. PARK, La Park, Pa.
NOVELTIES IN FLOWERS.

The following flowers are offered to the public for the first time this season. My seeds are mostly from the originators. The descriptions are theirs.

Phaseolus multiflorus Papilio, the new Butterfly Runner Bean. This variety far surpasses the old Scarlet Runner in the beauty of the flowers, while the beans are equally as good and productive. The flowers are of large size, with prettily waved, snowy-white wings and salmon rose standard, these two colors making a most agreeable and striking contrast. The vine is also exceedingly floriferous, its leaves, of a somewhat lighter green than other runners, almost disappearing beneath the clusters of charming flowers which gracefully rise and fall like butterflies in the passing breeze.

Seed is distinct, mottled brown on white ground. In the Butterfly Bean we have a beautiful new plant, both for the kitchen and pleasure garden, which will certainly soon come into general cultivation and enjoy universal favor. Original pkts. 20c, small pkts. (3 beans) 5c, 4 pkts. 15c.

Dianthus lacinianus Mirabilis.—A new double-flowered Japan Pink; grows a foot high, erect, with flowers three to four inches across, the petals deeply cut and purplish red, some showing pink zones, some striped, etc. Bloom for a long time. 1 pkt. 25c, 1 pkt. (about 15 seeds) 10c.

Papaver Orientale Colesseum.—A giant Perennial Poppy, growing two feet high, the big flower stalks rising from an inch or less rosette of elegant fringed foliage, and surmounted by huge, rich, scarlet flowers eight inches or more in diameter. The seeds offered were from flowers not less than 20 inches in circumference. 4 pkts. 15c, 1 pkt. (20 seeds) 5c.

The Admiral Poppy.—A single Peony-flowered Poppy of surpassing beauty. Large, smooth-edged flowers of glistening pure white, with a broad band of brilliant scarlet around the top, occupying a full quarter of the corolla. These two colors form a most telling contrast. 4 pkts. 15 cts, 1 pkt. 5 cts.

Schizanthus Wisetonensis.—As a pot-blooming plant this has hardly a superior. It forms neat bushes of elegant habit, literally covered with brilliantly-colored, frilled flowers, mostly rose or white grounds, with red, yellow or brown dots and markings. 4 pkts. 15 cts, 1 pkt. (15 to 20 seeds), 5 cents.

Rehmannia.—A pink-colored variety of this perennial from Central China. The flowers are not unlike a Penstemon in form but are of a rich pink color, with a distinct pale throat with variable markings. This is a half-hardy perennial, and must be grown in pots at the North, or well protected during the winter. The Rehmannia has been grown in England for several years, and is highly praised by the English florists. It deserves a trial. 3 pkts 25 cts, 1 pkt. 10 cts.

Chrysanthemum Inodorum.—Bridal Robe. — A most useful annual, as distinct as it is beautiful: compact and upright in habit, not over 10 inches high, sturdy, with finely feathered foliage, and covered with a mantle of extra double white flowers, not unlike a good Double Daisy. A bed of it may be compared to a drift of snow, while it is also useful for pot culture. 4 pkts. 15c, 1 pkt. 6c.

Winter-blooming Wall Flower. (Chiranthus Kwensia).—A new English Wall Flower blooming uninteruptedly in winter, when sown before midsummer; flowers brown in buds, a delicate sulphur shade when first open, and passing into orange-yellow or purple violet. In a cool room plants will bloom all winter, and if then cut back and bedded out will keep up the display throughout summer. The flowers are delicious fragrant. 4 pkts. 25 cts, 1 pkt. (10 seeds), 10 cts.

New Nicotianas.—See p. 23, for new colors of Nicotiana Sanderson.

Impatiens Holsti Hybrida.—The rich scarlet Impatiens Holsti, known for several years, easily grown, everblooming, and fine for either pots or beds, has been much improved, and the following splendid varieties are offered: Albino—white with red centre 8
Albo-rosea—rose white 8
Atroviridis, deep purplish violet 8
Carminea, bright carmine 8
Cinnabarina multicolora, orange vermilion 8
Isabellina-rosea, chamois or yellowish rose 8
Special mixture, all colors, 4 pkts. 15 cts, 1 pkt. 5 cts Each packet contains from 12 to 15 seeds.

Cotterbury Bell, Carmine.—A fine new variety, the flowers brilliant rosy carmine, exceedingly effective, and very beautiful. A new color in Canterbury Bells, and a great acquisition. 4 pkts. 15 cts, 1 pkt. (30 seeds), 5 cents.
Park's Superior Flower Seeds.

Unmatched in Thrift—Unrivaled in Quality.

**Park's Primroses.**
Mr. Park: My Primroses started in May, began to bloom November 15, and such beauties, all large, thrifty plants, and the individual blossoms as large as a 60-cent piece. Colors white, pink, and the darkest crimson I ever saw. Margaret Armstrong, Dubuque Co., la., Oct. 11, 1905. By Park—The largest, brightest and best. See page 23, 57, 68.

**Park's Gloxinias.**
Mr. Park: April 26, 1904, I sowed half of a 3-cent packet of your mixed Gloxinias. September 6, 1904, my first blossom opened. It was over 3½ inches wide, beautiful cream white, with a deep purple edge. I raised 32 plants from that half, and this spring have 20 plants from the other half. Mrs. Jos. B. Goff, Worcester Co., Mass., Oct. 12, 1905. See 59.

**Park's Cinerarias.**
Mr. Park: My Cinerarias from your seed were grand. Among others, one was richest purple, one deep crimson with yellow centres; but the crowning beauty of all was a large crimson one with white edges. They bloomed continuously, over two months. E. J. Bailey, Quebec, Can., Oct. 13, 1904. Park's are the finest. See page 43.

**Park's Gaillardias.**
Mr. Park: Last year I got a package of your Gaillardia seeds, and nearly every seed came up. The plants have been in bloom all summer, and are still loaded with buds and blossoms. They are yellow and brownish-red and are beautiful made up with white flowers in bouquets. Mrs. R. E. Mower Co., Minn. 35—Park's Improved. See p. 19.

**Park's Asters.**
Mr. Park: The Asters from your seeds were a grand sight, the wonder and admiration of all. Some were tall and stately, others dwarf and low; some blossomed early, others late; and the flowers were of every color, shade and veining, pink, purple, lavender, yellow and white, some with incurved petals like a Chrysanthemum. Mrs. H. C. Callihan, Washenaw Co., Mich., Oct. 11, 1904. Park's Asters. See page 94.

**Park's Balsams.**
Mr. Park: My Balsams from seeds were marvels of beauty. The plants branched, and every branch became a wreath of bloom, every flower perfect. They just simply reigned queen of the garden, and everybody here is going to buy Balsam seeds of Park next year. Mrs. R. K. Woodrow, Johnson Co., Mo., Nov. 9, 1905. Buy of Park. See 14.

**Park's Carnations.**
Mr. Park: Your Carnations are beautifully colored, double, fragrant and as large as a dollar. I sowed the seeds in March, and the plants began to bloom in Pansies on October 30, 1905. Mrs. Clark, Wyoming Co., N. Y., Oct. 24, 1905. See page 40.

**Park's Sweet Peas.**
Mr. Park: The Sweet Pea I bought of you last spring grew nicely, and the blossoms were exquisite—so many varieties and colors, and such large rich-scented blossoms borne on long stems. They were by far the prettiest Sweet Peas I ever grew. Mrs. J. H. Owen, Wyoming Co., N. Y., Oct. 24, 1905. See page 39.

**Park's Verbenas.**
Mr. Park: From a 3-cent packet of your large-flowered Fragrant Verbenas I had many different colors, and the flowers were produced freely and continuously. I set some in an urn and they were a mass of fragrant bloom all summer. I have potted one for my window, decorate my window with a fragrance like trailing Arabus. Mrs. G. L. Clark, Bormie P. O., Me., Page 23.

**Park's Zinnias.**
Mr. Park: I got a packet of your Mammoth Zinnias in the spring, and they were immense—-as double and showy as any dahlia, and more free-blooming. They were the finniest in this part of the country. Some grew four feet high, and the flowers were of all colors. Every one who saw them admired them. May Preston, Douglas Co., Mo., Oct. 30, 1905. See p. 41.
NEW CROP OFFERING for 1907—WARRANTED

For 37 years I have supplied my patrons with the best seeds at the lowest prices. I do not deal in cheap seeds. Park Prices are the Lowest Prices, and Park Quality is the Best Quality. You cannot err in buying Park seeds. They are always reliable.

This Guide is in six divisions: Part I—BLOOMING FIRST SEASON, embracing Garden Flowers, Everlastings and Grasses, Ornamental Climbers; Part II—BLOOMING SECOND SEASON, Biennials and Perennials; Part III—BLOOMING THIRD SEASON, Half-Hardy Bulbs and Plants; Part IV—Flowering Shrubs, etc.; Part V—Summer-flowering Bulbs and Plants; Part VI—The Choicest Roses. The index locates each kind definitely.

PART I—BLOOMING FIRST SEASON.

GARDEN FLOWERS.

**Abronia umbellata**—A succulent plant, thriving in sandy soil and sunny plot; flowers in clusters, fragrant; pretty; called Sand Verbena. Husk seed before sowing. 4 pkts. 10c, 1 pkt. 3c.

**Acacia lophantha speciosa**—The elegant Fern-tree Acacia; makes charming and useful shrubs in a few months; and adds delightfully to the decoration of a nook in yard when bedded out; foliage superb; flowers numerous, in clusters, and fragrant. 4 pkts. 10c, 1 pkt. 3c. Mr. Park: Acacia lophantha from your seeds grew 1½ feet high, with elegant Fern-like foliage. The plants require no more care than a Geranium, and are beautiful. I prize them highly.—Ida McMorries, Hickman Co., Ky., December 6, 1906.

**Aconis**—Annual growing a foot high, clothed in finely cut foliage, showy, sweetet blossoms; Easiest blooms in summer, Autumnnalis in autumn. Separate or mixed, 4 pkts. 10c, 1 pkt. 3c.

**Ageratum**—Everblooming annuals; excellent for either beds or pots. See next page. All mixed, 4 pkts. 10c. 1 pkt. 3c.

**Ageratum acutiforme**—Hardy annuals, 1 foot high, showy in masses. Mixed, 4 pkts. 10c, 1 pkt. 3c.

**Alonsoa**—Half-hardy annuals of great beauty for either beds or pots; flowers rich shades of scarlet, profusely borne. A. gracilis, Warscewiczi, Mutsifii and myrtifolia are all good sorts. Separate, 5c each; mixed, 4 pkts. 10c, 1 pkt. 3c.

**Alyssum**—Sweet—Freely, continuously blooming dwarf annuals; flowers, white, in profuse clusters, very fragrant; fine for cutting. See next page. 1 oz. 25c, 4 pkts. 10c, 1 pkt. 3c.

**Amaranthus**—Hardy annuals, good for pots and beds in summer; like a poor soil, sunny place. A. tricolor is Joseph’s Coat; foliage being red, pink and golden; variegated; A. comosus, amabilis and salicifolius are all handsome, variegated-leaf plants; A. caudatus (Love-lies-bleeding) and cruentus (Prince’s feather) are showy, blooming sorts. I supply the varieties separate at 5c per pkt. or, in splendid mixture, 4 pkts. 10c, 1 pkt. 3c.

**Anagallis**—Pretty, showy, half-hardy annuals a foot high, called Pimpernel; like a dry, sunny place. Blue, crimson and scarlet, separate, 5c per pkt.; all sorts mixed, 4 pkts. 10c, 1 pkt. 3c. **Antirrhinum** (Snapdragon)—Superb garden plants, See next page. Special mixture, all sorts, 4 pkts. 10c, 1 pkt. 3c.

**Argemone**—Mexican Poppy—18 in. high, stately, prickly, glanous foliage; large, showy white and yellow flowers; good for a hedge. Separate, 5c per pkt.; mixed, 4 pkts. 10c, 1 pkt. 3c.

**Arctotis grandis**—The new sort; foot high, bearing large white flowers, lavender center; fine annual. 4 pkts. 10c, 1 pkt. 3c.

**Arnebia cornuta**—Bears many golden flowers, spotted brown; pretty annual, deserving popularity. 4 pkts. 10c, 1 pkt. 3c.

**Artemisia annua**—The Sweet Fern; lovely fern-like blooming sprays, delightfully fragrant; grows 4 ft. high, hardy, a favorite plant with many. 4 pkts. 10c, 1 pkt. 3c.

Mr. Park: Last summer I had great success with the beautiful cut-leaved Artemisia annua, it is delightfully fragrant. I have been using the leaves with Pansies and other small flowers for button-hole bouquets. —Mrs. M. H. Whitacre, Armstrong Co., Pa., Dec. 7, 1905.

**Asperula azurea setosa**—Grows 8 inches high, bearing lovely blue clusters; easily grown. 4 pkts. 10c. 1 pkt. 3c.

**Bidens atrosanguininea**—Black-purple Dahlia; flowers odd, rather showy; Cosmos-like; 3 feet high. 4 pkts. 10c, 1 pkt. 3c.
Ageratum, New, Large-flowered.—Beautiful, feathery clusters of blue and white flowers, continuously borne throughout the season. Plants grow and bloom well in a sunny exposure; fine for edging and beds, also for pots. The new, large-flowered sorts are of especial beauty.

Large-flowered Dwarf, pure white, 8 inches high... 5
Large-flowered Dwarf, pure white, 8 inches high... 5
Large-flowered Dwarf, deep blue, 8 inches high... 6
Large-flowered Dwarf, light blue, 8 inches high... 5

I can also supply tall Mexicanum, blue and white; Lasseauxi, pink, and Little Dorrit, blue and white, at 5c each per pkt. Special mixture, all varieties, 4 pkts. 10c, 1 pkt. 3c.

Mr. Park: I sowed a 3-cent packet of your Large-flowered Ageratum last spring. The plants came up by the dozen, and began to bloom in a few weeks. They were a mass of bloom, in all the colors—yellow, white, pale and dark blue—until December 1st. They are so easy to grow, and for free-blooming quality nothing appears to excel them.—Mrs. O. C. Jones, Sumner Co., Kan., December 12, 1906.

Mr. Park:—I got from you some Large-flowered Ageratum seeds, and they turned out splendidly. I had light blue, deep blue, cream and pure white. Nothing could do better.—E. H. Taylor, Muskingum Co., Ohio.

Alyssum, Sweet.—Lovely garden plants, beginning to bloom a few weeks after the seeds are sown and continuing to bloom freely till after hard frosts. The plants grow six inches high and become a carpet of fragrant white clusters. For personal use I supply the seeds at 2c per ounce. They make a fine edging for a bed, and the sweet clusters are excellent for cutting.

Little Gem is a dwarf erect habit; White Carpet spreads in a dense mass; Common is still a favorite.

I supply each variety at 5c per pkt., or all in special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

Mr. Park: My Sweet Alyssum from your seeds made a solid border of white; people came in from the street to see it. They make a grand edging; nice for the house.—Mrs. Alice Sells, Clarke Co., Iowa, Dec. 10, 1906.

Mr. Park:—The Alyssum proved hardy, and has been a mass of bloom. I picked a bouquet of it Thanksgiving day. It was a delight all summer and fall.—E. C. Pease, Hampden Co., Mass., Dec. 12, 1906.

Antirrhinum Giant Fragrant.—The new, large-flowered, fragrant Antirrhinums or Snapdragons are very desirable garden or pot plants. They are easily started from seeds, and the plants soon come into bloom, branching freely, and every branch becoming a charming spike of large, scented, rich-colored flowers, the colors ranging through the splendid shades of white, rose, crimson, scarlet, yellow, orange and dark purple, many varieties showing distinct variegations, as striped, spotted, blotched. These new varieties are a great improvement upon the old-fashioned Snapdragons, and are superb bedding plants, blooming freely the entire season. They grow about two feet high. My special mixture contains all of the choice colors.

White........... 5
Chamomile......... 5
Scarlet, gold and white........... 5

Carmine, with white throat........... 5
Scarlet, with white throat........... 5
Yellow and orange........... 5
Pure white (Queen Victoria)........... 5
Gold Queen, rich, g'n yellow........... 5

Special Mixture of all the above, 4 pkts. 10 cents, 1 pkt. 3 cents.

Semi-Dwarf Varieties, in special mixture, 4 pkts. 15c, 1 pkt. 6c.

Tom Thumb Varieties, very dwarf, for pots, edgings and beds; 4 pkts. 15c, 1 pkt. 6c.

Mr. Park: My Giant Fragrant Antirrhinums were great spikes of velvety blooms—white, yellow, striped, rose and garnet. They filled a space three feet by five, and all from one 3-cent packet of Park's mixed Antirrhinum. For those who want a beautiful plant and one that they don't see in every garden, this is the ideal.—Mrs. F. H. Gilbert, Danielson, Conn., December 4, 1906.

Mr. Park:—My Sweet Scented Giant Snapdragons were the surprise and envy of all who saw them. They were so handsome, and had such a rich fruity odor, I shall always have a bed of them.—Alice M. Beal, Androscoiggin Co., Me., Dec. 6, 1906.
Park's Fine Bedding Aster.

Special Mixture, 4 pkts. 15 cts., 1 pkt. 5 cts.

I offer a compact, dwarf Aster for beds, that cannot be surpassed. The plants are bushy, as represented in the small sketch, and when in bloom the bed is a glorious mass of exquisite flowers, exceedingly handsome whether grown in separate colors or in mixture. The plants are less than a foot high, and should be set six or eight inches apart each way. The engraving shows a bed of these Asters in mixed colors, with a border of Cerastium Biebersteinii. The packets of mixed Aster seeds, costing 15 cts., will make enough plants for a large bed, and two packets of

Cerastium, costing 5 cts., will yield plants for a thick border, the whole seed expense for the bed being 20 cents. Sow the seeds of both in boxes in April, and transplant in May. The plants do best in a sunny bed, mulched with fine stable litter, after the last hoeing.

Pure white ...................................... 5
Light blue ........................................ 5
Dark blue ........................................ 6

Crimson ........................................ 5—Rose ........................................ 5

Special mixture, 4 pkts. 15 cts., 1 pkt. 5 cts.

Mr. Park: I bought a packet of your Bedding Aster seeds last spring. It contained all the colors that belong to the Aster family. The plants produced the finest flowers I ever saw. I took a bouquet of them to a picnic and they were admired by every one present. I had to buy them where I got my seeds.—M. E. W., Chautauqua Co., N. Y., Nov. 10.

Aster, Park's Ostrich-feather.

Special Mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

The elegant plummy flowers of the Japanese Chrysanthemum are fairly represented in the splendid strain of Ostrich-feather Aster which I offer. The plants grow eighteen inches high, and in autumn produce enormous double flowers as shown in the engraving, and of all the rich colors from white to almost black, as follows:

- Pure white
- Light yellow
- Peach-blossom
- White oh'g to rose
- Lilac
- Rich crimson
- Azure
- Special mixture of all colors, 4 pkts. 10 cts., 1 pkt. 3 cts.

Mr. Park: The Ostrich-feather Asters from your seeds were of immense size, like Japanese Chrysanthemums, measuring fifteen inches across, with long petals, curiously curled, so as to give them a striking resemblance to the Chrysanthemum. Eva Shipley Frances, Wheeler Co., Neb., Nov. 24, 1904.

Mr. Park: My Ostrich Plume' Asters from your seeds are lovely, being the largest flowers and most delicate shades I have ever seen in Asters. I am much pleased with them. Mrs. Ed w in W. Mace, York Co., Maine, Oct. 26, 1905.

Mr. Park: My Asters almost rival the Chrysanthemums. I wish you could have seen them in bloom. Lizzie B. Deisher, Berks Co., Pa., Sept. 14, 1905.

Queen of the Earlies

Special Mixture 4 pkts. 10 cts. 1 pkt. 3 cts.

The earliest Aster. Flowers very double and of many colors. Fine for beds or pots. White, rose, crimson, light blue, dark red, red lilac, scarlet, scarlet and white, each, 1 oz. 50 cts., per pkt. 5 Special mixture, all colors, 4 pkts. 10 cts., 1 pkt. 3 cts.

Mr. Park: My Asters, Queen of the Earlies, were perfection of their kind—plants an even height, color finely mixed, flowers perfectly double and all in bloom at one time. Mrs. John Henderson, Ont. Can.

Park's Marvel Aster.

Price 4 pkts. 10 cts. 1 pkt. 3 cts.

Grows two feet high, bearing large globular flowers, pure white with a blood-red centre. The color contrast is odd and grand.

Mr. Park: Your Marvel Asters were the handsomest flowers I ever raised. I think every seed grew, I had a fine bed. Alcina Martin, Erie Co., Pa., Nov. 2, 1903.

Park's seeds are the best and cheapest. I thank you many times for letting us have the seeds at a small price. Lizzie B. Deisher, Berks Co., Pa., Sept. 19, 1905.
### Giant Perfection Aster
A Grand, Double, Incurved Variety. The Improved Perfection Aster is the most beautiful and showy of the incurved varieties. The plants are strong, of upright growth, two feet high, and bear magnificent, large, incurved flowers, as represented in the above engraving. The colors are very rich, and some flowers are charmingly variegated.

**Special Mixture of all colors, 4 pkts. 15 cents, 1 pt. 5 cents.**

Mr. Park:—Your Perfection Asters are lovely, and easily raised. My bed showed many colors, as white, pink, blue, purple, etc. I wonder how many floral sisters tried them.—Augusta Oldfield, McPherson Co., Kan.

### Giant Victoria Aster
A Grand, Double, Recurved Variety. This is one of the finest Asters, exceedingly showy and beautiful. Plants grow two feet high, branch freely, and each branch bears a several large, double, open flowers, as shown in the engraving. Set ten inches apart in a bed, they make a gorgeous display in autumn. Fine also for pots. I offer the choicest seeds in the leading colors, as follows: (See engraving above.)

Mr. Park:—I bought a packet of your New Giant Victoria Aster seeds, which deserve great praise. I had plenty of fine, large flowers, and carried nice bouquets to my friends.—Mrs. E. C. Slade, Delaware Co., N. Y.

### New Hohenzollern Aster
Perhaps the largest, most attractive and most beautiful of the Plume Asters is the New Hohenzollern race, which originated with the famous German Specialist, Mr. Frederick Remer. The plants are of luxuriant growth, and bear freely enormous, perfectly double flowers, from five to seven inches in diameter, of the most charming colors, every flower twisted and curled as indicated in the engraving, thus forming a large, fluffly ball not unlike a Japanese Chrysanthemum. This is one of the glorious varieties, either for pots or beds, that everyone should have. I offer the choicest seeds, direct from the originator, Mr. Remer, and they will be found far superior to the seeds of this variety mostly sold. My special mixture contains all the fine colors, and the packets are as liberal as such choice seeds can be offered. I hope all my friends will try this grand feathery Aster. (See engraving above.)

### Cocardeau or Crown Aster
This Aster grows 18 inches high, bearing large, full double flowers of rich colors, the centre pure white. Rose, Carmine, Crimson, Violet, Blue and Lilac, each 5 cents. Special mixture, all varieties, 4 pkts. 10 cents, 1 pt. 3 cents.
Comet Aster, Giant, a superb Aster two feet high, bearing very large, double flowers, the petals long and frilled, like a Japanese Chrysanthemum. One of the finest. All colors mixed, 4 pkts. 15 cts, 1 pkt. 5 cts. Comet Yellow, same price.

Hedehog, a handsome dwarf variety with erect quilled petals; the plants branch and appear well in a group. Mixed colors, 4 pkts. 15 cts, 1 pkt. 5 cts.

Non Plus Ultra, an Aster of great beauty, double to the centre, and of many fine shades; excellent for beds. Mixed, 4 pkts. 15 cts, 1 pkt. 5 cts.

Triumph, a Paeony-flowered Aster, the petals incurved, rich in color, beautiful; plants dwarf, and useful for pots and borders. Mixed colors, 4 pkts. 15 cts, 1 pkt. 5 cts.

Crown or Cocardeau, a very attractive Aster, double, of many rich shades with pure white centre; showy in beds, and fine for cutting; plants a foot high. Mixed, 4 pkts. 10c, 1 pkt. 3c.

German Globe, grows 18 inches high, bearing large, showy flowers, in a great variety of colors; fine for cutting. Mixed, 4 pkts. 15 cts, 1 pkt. 5 cts.

Lilliput, a foot high, branching, and bearing an abundance of small, double flowers of many shades; very useful for cutting. Mixed colors, 4 pkts. 15 cts, 1 pkt. 5 cts.

German Dwarf, a fine variety for beds, branching and blooming freely; the flowers are double, in a great variety of rich colors. Mixed, 4 pkts. 15 cts, 1 pkt. 5 cts.

Japanese, grows 15 inches high, branching, and producing large, showy flowers of various colors, the petals charmingly twisted. Mixed, 4 pkts. 15 cts, 1 pkt. 5 cts.

Diamond, one of the handsomest dwarf Asters; flowers large, very double, and of rich colors. Mixed, 4 pkts. 15c, 1 pkt. 5c.

Pyramidal Dwarf, a fine dwarf Aster, becoming a pyramid of lovely, rich-colored flowers; a fine edging plant. Mixed, 4 pkts. 15 cts, 1 pkt. 5 cts.

Prince of Wales, a very fine dwarf Aster, the flowers large, very double, showy, beautiful. Mixed, 4 pkts. 15c, 1 pkt. 5c.

Jewel, two feet high; flowers large, incurved, full double, globular, freely produced; superb for garden or pot culture. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

New Rose, fifteen inches high, tree form, bearing flowers as double as a rose; many colors. Mixed, 4 pkts 15cts, 1 pkt. 5cts.

Chrysanthemum Dwarf, a foot high, with Chrysanthemum-like flowers of great beauty; excellent for beds or pots. Set 8 inches apart. Pure white, light blue, dark blue, fiery scarlet, rose, in fourth ounce packets, each 50 cts; small pkt. 5 cts. Mixed, 4 pkts. 10 cts, 1 pkt. 5 cts.

Princess, a dwarf Aster prized for beds and pots; flowers very double, fine for cutting. Mixed, 4 pkts. 15 cts, 1 pkt. 5 cts.

Reid’s Quilled, two feet high, flowers large, finely quilled, many colors, good for beds. Mixed, 4 pkts 10c, 1 pkt. 5c.

New Victoria, the well-known variety prized for pots and beds; very double, imbicated flowers of exquisite colors. One of the best for either beds or pots; fine for cutting. Mixed, 4 pkts. 15 cts, 1 pkt. 5 cts.

Boltz’s Dwarf Bouquet, very dwarf, the double flowers appearing as a little mound of rich color. Red, Bine, White, scarlet, variegated. Each 5c. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

Park’s Silver Cloud, a lovely white Aster, showy in beds and fine for cutting. 4 pkts. 10 cts, 1 pkt. 3 cts.

Harlequin, the many colors checkered white, odd and beautiful. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

I also supply Dwarf Queen, German Emperor, Goliath, Lady, Mignon, Dwarf Victoria, Dwarf Paeony-deword, Schiller, Blue Berries, Victoria Needle, Tick’s Reindeer and Washington Aster. Mixed colors of any variety, 4 pkts. 10 cts, 1 pkt. 3 cts. Also Double Asters, mixed, 4 pkts. 10c, 1 pkt. 5c.
The Improved Double Balsam ranks among our best annuals. Anyone can grow the plants from seeds, and they thrive in any garden soil. The plants are bushy, and become a dense mass of rich foliage and exquisite, waxy double flowers in the most charming and attractive colors. The plants are everblooming, and the flowers are showy on the plant, and when removed make lovely plate bouquets. Started in early September and potted they bloom well in the window in winter. The finest of all Double Balsams is Park's Prize Camellia-flowered. Plants of this splendid variety grow from two to three feet high, and show great wreaths of immense flowers as double as a Hermosa rose, and in all the most pleasing colors as follows:

- Pure White........................ 5
- Pure Scarlet........................ 5
- Crimson............................. 5
- White reflecting Rose................ 5
- Light Yellow........................ 5
- Salmon Rose......................... 5
- Lilac................................. 5
- Violet.............................. 5
- Rose Spotted........................ 5
- Scarlet Spotted....................... 5
- Violet Spotted......................... 5
- White reflecting Lilac................ 5

Mr. Park—Last spring I planted seeds of Park's Camellia-flowered Balsam. The flowers were of all colors, and most beautiful, some of them being double as roses, and almost as large.—Mrs. F. W. Frisbee, Woodward Co., Okla., Dec. 10, 1905.

**Other Varieties of Balsam.**

- Double Dwarf Balsam, effective little plants. Twelve varieties of plain and six of spotted, each...... 5
- Dwarfs in special mixture, 4 pkts. 10 cts., 1 pkt............. 3
- Double Rose-flowered, 12 colors, separate, each........... 5
- The varieties mixed, 4 pkts. 10 cts., 1 pkt.................. 3
- Double Spotted Balsam, 12 colors, separate.................... 5
- The sorts mixed, 4 pkts. 10 cts., 1 pkt........................ 3
- Victoria, very double, satiny white, dotted scarlet .... 5
- Carnation Striped, double, mixed, 4 pkts. 10 cts., 1 pkt.. 5
- Blood Red, very double and showy......................... 5
- Salserino, double, white, spotted and striped .......... 5
- Prince Bismarck, very double, bright salmon rose.. 5
- Royal Balsam, The King, intense scarlet................... 5
- Royal Balsam, The Queen, bright satin rose .......... 5
- Balsams, all sorts, mixed, 4 pkts. 10 cts., 1 pkt........... 3

Mr. Park—I wish you could have seen my Double Balsams from your seeds last year. They were as double as roses. The children would pin them with rose-leaves, and wear as baby roses.—Mrs. Z. M. Roselle, Delaware Co., Ind., Dec. 7, 1906.

**Browallia, Large-Flowered.**

Splendid summer and winter-blooming pot plants of the easiest culture; showy and reliable. The kinds I offer are all large-flowered, but the new so-called Giant Browallia has larger and more attractive flowers than the others.

- Large-flowered white ........... 5 | New Compact blue ........... 5
- Large-flowered purple ....... 5 | Giant species, blue........... 5

**Special Mixture, all sorts, 4 pkts. 10 cts., 1 pkt. 3 cts.**

Mr. Park—I had a fine bed of Browallia, the seeds purchased of you last fall. They were three feet tall and a sheet of bloom until the frost killed them.—Mrs. H. T. Bolen, Douglas Co., Neb., Dec. 10, 1906.

**Daisy (Bells).** The English Double Daisy is a dwarf edging plant, hardy, easily grown and continuous-blooming. Open as early in spring as Pansies; fine for a bed. I offer the best large-flowered strain; my mixture contains all the sorts.

- Giant Double white ............. 5 | Giant Double rose ............. 5
- Giant Double red ............... 5 | Giant Delica, new ............ 5

**Special Mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.**

Mr. Park—Among my flowers, grown from your seeds last year, were English Double Daisies, which were the largest and finest I have ever seen.—Mrs. B. Helmer, Pitts Co., Col., Dec. 10, 1906.
Bartonía aurea, golden-flowered, branching annual, 2 feet high; beautiful. 4 pkts. 10 cts. 1 pkt. 3 cts.

Beech, Ornamental, scarlet and gold ribbed, robust foliage plant. 4 pkts. 15 cts. 1 pkt. 5 cts.

Bidens atrosanguinea, the black Dahlia, Cosmopolitan handsome annual. 4 pkts. 10 cts. 1 pkt. 3 cts.

Borecole, ornamental leaved, plume-like foliage of various colors, very showy. 4 pkts. 10 cts. 1 pkt. 3 cts.

Brachycome (Swan River Daisy), nine inches high, bright colors, showy in masses. Mixed, 4 pkts. 10 cts. 1 pkt. 3 cts.

Calceolaria (Flora’s Paint Brush), small, brush-like flowers in clusters, hardy, garden annual; yellow, scarlet, each 5 cts.; mixed, 4 pkts. 10 cts. 1 pkt. 3 cts.

Calceolaria pinnata, plants 2 feet tall, annual, with pretty, sulphur-colored flowers. 4 pkts. 10 cts. 1 pkt. 3 cts.

Colicirhoa platycome, an easily grown, hardy annual, 1 ft. high; bright golden flowers. 4 pkts. 10c, 1 pkt. 3c.

Callirhoe, Trailing Hollyhock, plants of trailing habit, with bright, cup-shaped flowers throughout the season. C. Verticillata is a hardy perennial, but flowers the first season; fine for beds. C. Pedata, Compacta and Lineariloba are good sorts. Pkt. 4 pkts. 10 cts. 1 pkt. 3 cts.

Campanula, annual, very pretty little plants; flowers blue, white and lilac, in profusion; make a charming summer bedding. Colors separate, pkt. 5 cts.; mixed, 4 pkts. 10 cts. 1 pkt. 3 cts.

Cannabis, grows six feet high, of stately form, dense foliage. 4 pkts. 10 cts. 1 pkt. 3 cts.

Canna (Indian Shot), improved, large-flowering sort. Finest mixed, 4 pkts. 10 cts. 1 pkt. 3 cts. (See next page.)

Capsicum (Pepper), beautiful in fruit. I have 25 named sorts, all shapes, sizes and colors. Separate, 5 cts. per packet; mixed, 4 pkts. 10 cts. 1 pkt. 3 cts.

Carduus Marianus, beautiful white-marked foliage, Thistle-like bloom; hardy annual. 4 pkts. 10 cts. 1 pkt. 3 cts.

Carnarius tinctorius, the garden Saffron; grows 5 feet high, bearing large, golden flowers. 4 pkts. 10c, 1 pkt. 3c.

Cocoxcomb, Dwarf, a beautiful pot or bedding plant; 1 ft. high, combs of various colors. I offer a superior strain, red, scarlet, gold, white, each 5 cts.; mixed, 4 pkts. 10 cts. 1 pkt. 3 cts.

Celosia Plumosa, the Feathered Plumes, 2 feet tall, feathery bloom; various colors, each 5c; 4 pkts. 10c, 1 pkt. 3c.

Celosia Argentea (See next page.) 4 pkts. 10c, 1 pk. 3c.

Catchfly (Silene Armeria), a foot high, with summit-clusters of rose and white flowers. Mixed. 4 pkts. 10c, 1 pkt. 3c.

Centaura Cyanus (Bachelor’s Button), 2 feet high, bear beautiful, double flowers. Fine for buttonhole, various colors, each 5 cts.; mixed, 4 pkts. 10 cts. 1 pkt. 3 cts.

Centaura Americana, large, showy flowers; 18 inches high; splendid garden flower. 4 pkts. 10 cts. 1 pkt. 3 cts.

Centaurium Drummondii, a foot high, yellow composite flowers on long stems. 4 pkts. 10 cts. 1 pkt. 3 cts.

Centranthus macrocephalon, free-bloomer; blooms till after frost; white, red, rose, 5c each; mixed, 4 pkts. 10c, 1 pkt. 3c.

Cerastium Biebersteinii, a hoary-leaved evergreen 6 inches high; flowers daisy-like. 4 pkts. 10 cts. 1 pkt. 3 cts.

Chrysanthemum, annual, double and single, a foot high; white, red, rimmed, each 5c; mixed, 4 pkts. 10c, 1 pkt. 3c.

Chrysanthemum inodorum, biennial with green foliage, and fine double white flowers; 4 pkts. 10 cts. 1 pkt. 3 cts.

Caudytuft, an old, beautiful annual; flowers in big clusters, showy in beds and fine for cutting. White, Lilac, Crimson, Carmine, Flesh, Hyacinth-dowered, each 5 cts.; mixed, 4 pkts. 10 cts. 1 pkt. 3 cts. New Dwarf same price.

Cheiranthus. Mixed, 4 pkts. 10 cts. 1 pkt. 3 cts. (See Ten Weeks’ Stock.) Flowers double, delightfully scented.
The New Crozy Gladiolus-flowered Cannas embrace a wide range of colors and variegations from white through the shades of red to deep crimson, and from cream to golden yellow or orange, many varieties showing handsomely spotted and blotted flowers. The foliage is beautiful, being rich green or bronze or variegated, broad and massive, and forming an admirable ground-work for the stately spikes of flaming, Gladiolus-like blooms. The seeds are large, and though somewhat tardy in starting, may be successfully planted by anyone. The plants begin to bloom in three or four months after they appear above ground. The roots are fleshy, and may be kept over winter in a rather dry, frostproof room. The seeds I offer were saved from the best varieties of the originator, Mr. Crozy, and will yield the finest flowers. The named sorts will mostly come true from seeds.

Mr. Park—From a mixed package of Cannas seeds sown the last of March, I had nine fine, thrifty plants, no two alike. They were scarlet, cardinal red, yellow-edged, yellow, etc., and all with lovely foliage. They commenced blooming in June, and were a delight until cut down by frost October 10.—Mrs. R. R. Dexter, Alexander Co., Ill., Dec. 8, 1906.

Carnation, The Vanguard.—It takes great pleasure in offering my patrons a greatly improved Early-Flowering Carnation, the plants of which bloom almost as early as those of the earliest Margaret race. The plants of the Vanguard Carnation are dwarf and bushy, staking out into compact, very floriferous bushes, and are thus especially suited for pots in the window, as well as beds in a sunny place in the garden. The flowers are mostly full double, as shown in the engraving, are of very large size, exhibit a very wide range of colors, and many are exquisitely marked and variegated. All are deliciously clove-scented. I feel that too much praise cannot be given this splendid race of CARNATIONS. It certainly represents the most advanced type of beauty yet attained in this popular, highly-prized garden and window flower.

White Shades, Red Shades, Yellow Shades, Variegated, each 5 cts. per pkt.; mixed, 4 pkts. 10 cts. 1 pkt. 3 cts.

Other Carnations—Malmaison mixed, Guillaud mixed, Comtesse de Paris yellow, White French Dwarf, Earliest French Giant, Snowflake, Margaret mixed; each sort 5 cts. pkt.; mixture, 4 pkts. 10 cts. 1 pkt. 3 cts.

Complete Special Mixture of all varieties, 4 pkts. 10 cts. 1 pkt. 3 cts.

Mr. Park—My Vanguard Carnations raised from a packet of your seeds beautified my garden all summer and fall. I started them early in the house.—Mrs. A. H. Doane, Barrington, Nova Scotia, Dec. 10, 1906.

Centaura, New Giant.—The New Giant Imperial Centaurea, Corn Flower, or Sweet Suean, is a rare, showy and beautiful annual, the result of a cross of G. Moschata (Sweet Susan) with C. Marguerite. The plants start readily from seeds, soon begin to bloom, and attain the height of four feet, bearing very large, handsome, fragrant flowers, as shown in the engraving. This is one of the new annuals deserving general cultivation, and I am glad that I can supply my friends with the seeds in all the fine named varieties. My mixture is well proportioned.

Alba, white.—Armida, lilac.—Favorite, rose.—Graziosa, purple, each 5 cts. per pkt.; mixed, 4 pkts. 10c. 1 pkt. 3 cts.

Other Centaureas—C. Cyanus, Bachelors’ Button, single and double, blue, pink, white, variegated, 5c. each; mixed, 4 pkts. 10c. 1 pkt. 3c. Also C. Depressa, C. Americana, C. Moschata and C. Suaveolens, each 5c. per pkt. Complete mixture of all varieties, 4 pkts. 10c. 1 pkt. 3c.

Complete Special Mixture of all varieties, 4 pkts. 10 cts. 1 pkt. 3 cts.

Mr. Park—My Centaureas are lovely. I have all colors—white, purple, and white-tipped, and pink with white centre. They are a mass of bloom.—Mrs. Theo. Gilmore, Arcostook Co., Me., Dec. 10, 1906.
**Celosia Argentea.** A handsome, erect species bearing long, stiff spikes of rosy flowers. The plants grow eighteen inches high, branch as shown in the engraving, and each branch terminates in a spike of bloom, which lengthens with age, and the older flowers retain their form and showy color till autumn. The spikes are, for this reason, useful for cutting and drying for winter bouquets. The plants are easily grown from seeds, and thrive in any good soil, and when grouped together make a showy clump on the lawn or in the garden. 4 pkts. 10 cts. 1 pkt. 3 cts.

**Chrysanthemum.** Annual, thrifty, hardy plants covered with showy single or double flowers from early in the season until after severe frosts. Fine for beds in the garden, or for pots in the house. They mostly grow two feet high, and should stand eight or ten inches apart. Give a sunny situation. Started from seeds in summer they make fine winter-blooming pot plants. C. Nanus is showy and fine for bedding. C. Flaminium has double flowers, beautifully fringed.

**Coronarium,** double yellow 5
Pompon, double mixed 5
Album, double white 5

**The above in Special Mixture, 4 pkts. 10 cts. 1 pkt. 3 cts.**

**Carn. at n scarlet** 5
Scarlet, yellow foliage 5
Variegated 5
Dwarf, mixed colors 5

**The above in Special Mixture, 4 pkts. 10 cts. 1 pkt. 3 cts.**

**Inodorum,** fl. pl., double white,
| Morning Star, new, single-flowered |

Primrose yellow, fine, 5 cts.

**Complete Special Mixture of all varieties, 4 pkts. 10 cts. 1 pkt. 3 cts.**

Mr. Park—I am highly pleased with my annual Chrysantheums from your seeds. The plants are now blooming, and are beautiful. Some are new to me, one being dark red with golden centre, and another bright yellow.—Esther Kintner, Barton Co., Kan., Dec. 7, 1906.

**Clarkia.** Large-flowered double, free-blooming annuals of great beauty. The plants grow from one to two feet high, and become a mass of elegant large double flowers, white, salmon, purple, striped, etc., and are very beautiful in a garden bed. They come into bloom early, and last for several weeks. Sow in the spring at the North, and in the fall South. They deserve to be better known. Double White, Double Purple, Double Salmon, Double Variegated, each per pkt. 5 cts. Double Dwarf, 5 cts, Single Mixed, 5 cts.

**Special mixture of all varieties, 4 pkts. 10 cts. 1 pkt. 3 cts.**

Mr. Park—I sowed a packet of your Clarkia seeds in the spring and raised a number of plants. They grew nearly three feet high, and every branch was covered with bloom—perfect double roses—white, pink and purple in great profusion.—Mrs. H. V., Harrison Co., Iowa.

**"Time Proves All Things."**—Mr. Park—I have taken your Floral Magazine for over 20 years, and think that I could not get along without it. I also order seeds and plants, and never received anything from you that did not please. Mrs. A. Diehl, Stark Co., O. Mr. Park—I have used your seeds for the last 15 years, and find them as good as the best.—Mrs. N. M. Knox, Garfield Co., Okla.
**Cerinthe**, a boragewort considered valuable as a bee plant. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Cleome** speciosissima, a Mexican hardy annual, with beautiful rose-colored flowers; ½ ft high. 4 pkts. 15 cts, 1 pkt. 5 cts.

**Collinsia virgata**, a lovely Lobelia-like plant for edgings or hanging baskets; flowers blue, white, ash-gray and variegated. Each 5 cts per pkt. Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Convolvulus tricolor** (Dwarf Morning Glory), showy annuals a foot high; flowers Petunia-like, very bright, freely produced. Blue, white, azure, crimson, dark blue, rose, violet, striped and double, each 5 cts. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Collinsia**, very pretty hardy annuals a foot high, showy in masses; flowers brightly colored, borne in profusion. White, white and crimson, rose, purple, and white, each 5 cts. Special mixture, 4 pkts. 15 cts, 1 pkt 5 cts.

**Cosmos** Burridgeanum, a composite annual, with bright yellow flowers; 1 foot. 4 pkts. 15 cts, 1 pkt. 5 cts.

**Crepis**, hardy annuals of easy culture, making a rich display when in bloom; white, pink, yellow, each 5 cts. Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Clarkia**, splendid, easily-grown annuals, double and single. Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Collomia coccinea**, Verbena-like clusters, lovely scarlet. 4 pkts. 10 cts, 1 pkt. 3 cts.

**Cosmos**, see page 17. Mixture 4 pkts. 10 cts, 1 pkt. 3 cts.

**Cuphea**, beautiful Mexican plants, mostly evergreen, free-blooming and showy. Miniata, Zinapani, Platycentra, etc., each 6 cts. Special mixture, 4 pkts. 15 cts, 1 pkt. 5 cts.

**Cynoglossum**, Borage-like, 2 feet high, and branching, and covered with pretty bloom; excellent as bee pasture; blue and white, each 5 cts. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts. Ounce, 25 cts.

**Dahlia**, see page 17. Mixed, 4 pkts. 15 cts, 1 pkt. 5 cts.

**Datura**, large plants with elegant Trumpet-like flowers, often finely scented. Double Humilis, Wrightii, Pastoreus, Con-uncopic, each 5 cts. Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Delphinium** (Larkspur), branching, a beautiful hardy annual, big spikes of lovely flowers. Finest mixed, 4 pkts. 10 cts, 1 pkt. 3 cts. For other Larkspurs see page 17.

**Dianthus deltoides**, the superb edging and bedding pink, makes a carpet of rich pink bloom. 4 pkts. 10 cts, 1 pkt. 3 cts. For other Dianthuses see page 18.

**Didiscus coriaceus**, umbels of blue flowers; a pretty annual. 4 pkts. 15 cts, 1 pkt. 5 cts.

**Dracocephalum Molonica**, Bee Balm, showy and handsome, 2 feet tall; fine spikes of bloom. Blue and white, separate, each 5 cts. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Diascia Barberee**, a new African annual of great beauty; makes a fine bed of bloom. 4 pkts. 15 cts, 1 pkt. 5 cts.

**Echinum vulgare**, a Boragewort, known as Viper's Bugloss; violet buds, blue flower. 4 pkts. 10 cts, 1 pkt. 3 cts.

**Eritrichium barbigerum**, a low alpine annual boragewort; flowers brilliant sky-blue. 4 pkts. 15 cts, 1 pkt. 5 cts.

**Erysimum**, fragrant, golden flowered, of easy culture, gorgeous in beds; sow fall or spring. 4 pkts. 10 cts, 1 pkt. 3 cts.

**Eschscholtzia**, the California Poppy, a lovely, showy annual. White, golden, sulphur, striped, rose, carmine, Queen of the West, each 5 cts. Special mixtures, single, double and double and single, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Eucharidium**, beautiful annuals of easy culture; make a showy bed; pink, dark rose, white and new rose, each 5 cts; mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Euonymus**, a variegated, Snow on the Mountain, a showy foliage plant in autumn; also Heterophylla, the Mexican Fire Plant, with scarlet fruits; each 5 cts; mixed 4 pkts. 10 cts, 1 pkt. 3 cts.
Dahlias, Double and Single.

Mixed, 4 pkts. 10cts, 1 pkt. 3 cts.

The Dahlia is one of our most beautiful summer flowers, and is easily and quickly grown from seeds, the plants beginning to bloom early in summer, and continuing till frost. To have free-blooming Dahlias plant in a sunny bed of gravelly soil, and mulch with stable litter as hot weather approaches. I offer choice imported seeds of the finest quality, and believe they will delight all.

**Choice Double Varieties.**
- Cactus sorts, extra fine, mixed colors...... 10
- Dwarf superb strain, finest mixture...... 6
- Large-flowered, finest quality, mixture...... 10
- Lilliput, small-flow’d extra mixed sorts...... 6
- Tom Thumb, very dwarf all colors mixed...... 5
- Double Dahlias, mixed, 4 pkts 15c, 1 pkt...... 5

**Choice Single Varieties.**
- Brilliant, scarlet...... 5 Spotted, Striped...... 5
- Cactus, sorts mixed...... 5
- Margined, fine...... 5
- White Queen, fine...... 5
- Giant Perfection, large flowers, mixed...... 5
- Paragon, scarlet, with white tips...... 5
- Single Dahlias in mixture, 4 pkts. 10c, 1 pkt...... 3
- Complete mixture, of the above double and single sorts, 4 pkts. 10cts, 1 pkt...... 10
- Mrs. Park,—My Dahlias from your seeds did fine. The plants began to bloom in July, and flourished well, as well as variegated.—Mrs. E. S. Coombs, Hancock Co., Me., December 3, 1906.

Cosmos, Large-Flowering.

*Mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.*

Few annuals are more graceful and showy than Cosmos. The foliage is feathery and of a rich green color, while the flowers are bright, of various colors and produced in abundance. Plants are easily transplanted, but transplanting always retards the bloom of the plants. Plants should stand a foot apart.

Dawn, dwarf white...... 5
- Klondyke, yellow-flowering...... 5
- Mammoth, tall, late, mixed...... 5
- Rose, White Dark Red, each...... 5
- Semi-Dwarf, early-flowering, mixed...... 5
- Finest mixture, all varieties, 4 pkts. 10c, 1 pkt...... 3

Mr. Park,—I had lovely Cosmos from your seeds. The colors were white, red and pink. I don’t think they could be nicer.—Mrs. J. H. Garner, Preston Co., W. Va.

Mr. Park,—I planted the packet of Cosmos early, and had beautiful pink, white and red flowers throughout the autumn. The flowers decorated the table and parlors of a friend on her wedding day, making it a place of beauty, indeed.—Mrs. Alice Sells, Clarke Co., Iowa, Dec. 10, 1906.

Delphiniums>Larkspur.

*Special Mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.*

The annual Delphinium or Larkspurs are beautiful garden flowers. They are rich in color, and very showy. Fine for beds or groups. Sow seeds where the plants are to bloom, either in fall or early spring. Park’s Early-flowering Delphinium is a perennial, but blooms the first season.

- Dwarf Candelabra-<formed, 5
- Giant Dwarf Rocket, Hyacinth flow’d, double, 8 colors...... 5
- Lustrous Carmine, bright...... 5
- Pure White, & Rosy Scarlet...... 5

**PERENNIAL LARKSPUR. BLOOMING FIRST SEASON.**

- Cashmerianum, blue...... 5
- Chinese, large-flowered, blue...... 5
- Large-flowered, white in all colors...... 5
- Complete mixture of all the above sorts, 4 pkts. 10 cts, 1 pkt...... 3

Mr. Park,—My Annual Larkspurs, sown in the fall, bloomed from June until killed by frost. But I have planted in spring with good results from your seeds.—Mrs. A. M. Dobson, Platte Co., Utah, Dec. 7, 1906.

Mr. Park,—I was greatly pleased with your Hyacinth-flowered Larkspur. Each blossom was a lovely little rosette, and the colors so varied and beautiful.—Mrs. H. F. Bolen, Douglas Co., Neb., Dec. 3, 1906.
Dianthus Chinensis.

*Mixed, single and double, 4 p. 10c 1 p. 3c*

Under this head are many varieties known as Indian, Japanese and Imperial Pinks. They are often called Annual Pinks, because they bloom throughout the first season. The plants are hardy, however, and will bloom for several years, if not allowed to exhaust themselves in seed-bearing. They grow from eight to twelve inches high, are of stalky, erect habit, and start readily from seeds. Seedlings begin to bloom in a few weeks, and bear an abundance of flowers until after severe frosts. The flowers are large, double and single in form, and exceedingly rich in colors and variegations. In silky texture they surpass any others of the Pink family. Set eight inches apart they make a splendid bed admired by all observers. The new Diadem Pinks are especially attractive. Single and double Japanese Pinks are shown in engravings. I offer seeds of the finest strains; the mixture contains all the choice sorts.

**Indian Pinks,** double white, white and rose, and dwarf rose, each

- Double mixed and single mixed, or double and single mixed, 4 pkts. 10 cts. 1 pkt
- Imperial Pinks, double white, white striped, crimson, spotted, red striped, each
- Double, dwarf, white, crimson, copper, rose, each
- All varieties mixed, 4 pkts. 10 cts. 1 pkt

**Japanese Pinks,** Hedewigi, single, white, crimson, blood-red, rose, and white with purple eye, each

- Hedewigi, double, white, bordered white, rich crimson each
- Laciniatus, single, fringed, white, salmon, blood-red, each
- Double, fringed, white, purple, striped, blood-red
- Hedewigi and Laciniatus, single mixed (see engraving), 4 pkts. 10 cts. 1 pkt

**Diadem Pinks,** dark colors, double flowers

- Light colors, like preceding, but of lighter hues
- New dwarf, double, rich flowers
- Splendid mixture, 4 pkts. 10 cts. 1 pkt

**Striped Pinks,** mixed, double striped varieties, 4 pkts. 10 cts. 1 pkt

**Firebell,** glowing scarlet, splendid

**Snowdrift,** white, very double

**Zonalis,** salmon-red with zone

**Nobilis,** large, showy Royal Pink

Mr. Park—I greatly enjoyed the Pinks raised from your seeds. Some were red, some pure white, and some of other colors. Many were scented and all beautiful. I buy seeds from you every year, and always find them good.—Lilac P. Worth, Rutland Co., VT, Dec. 13, 1896.

Mr. Park—Your Imperial and Japanese Pinks began blooming early the first season; are hardy and ever-blooming. I am much pleased with them.—Walter Roudebush, Tippecanoe Co., Ind., Dec. 8, 1906.

Mr. Park—Last spring I purchased a 3-cent packet of Large-flowered Double Dianthus. They bloomed from July 1 till heavy frosts. Colors—crimson, pink, white, variegated.—Leila Frederick, Noble Co., Ind., Dec. 10, 1906.

**Eutoca Viscida.**

**Special Mixture both colors, 4 pkts. 10 cts. 1 pkt. 3 cts.**

A beautiful garden annual; plants low and branching, and when massed together make a rich carpet of blue and white flowers during the summer. It is a flower but little known, but deserving of popularity. Blue and white, each 5 cents.

Special mixture of both colors, 4 packets 10 cents, 1 packet 3 cents. Valuable also as a honey plant.

**Note:**—Eutoca Viscida is a lovely little plant, 1 foot high, with intense blue flowers; free-flowering, effective in beds; good bee plant.—Book of Gardening.

**You Never Err in Buying of Park.**

**HIS SEEDS ARE ALWAYS GOOD,** whether the moon is full or fair, and can be successfully and confidently planted in any sign. They sparkle with vitality and yield **Strong, Healthy Plants.** And what is more every plant will freely bloom and produce the finest flowers. A trial will convince you of this truth, and insure to Park your future patronage. As you read this Guide note on the Order Sheet with pencil what you want. You will find the Order Sheet at the rear of this Guide.
**Fenzlia**

(Feeza) (see preceding page). Mixed, 4 pkts. 10c, 1 pkt. 8c.

**Fedia** cornucopia, 6 inches high, bearing corymb of pretty red flowers with purple stems. 4 pkts. 10c, 1 pkt. 5c.

**Gerardia** hybrids, spikes of tubular flowers, very pretty. 4 pkts. 10c, 1 pkt. 5c.

**Gilia** tricolor, charming border plant; flowers yellow, white and purple variegated. Mixed, 5 cts. Also Achilleaefolia, densiflora, laciniata, capitata and limiflora, 5 cts. Special mixture, all sorts, 4 pkts. 10 cts, pkt. 3 cts.

**Glaucium** tricolor, very handsome new flower, showy foliage and flowers. 4 pkts. 15 cts, 1 pkt. 5 cts.

**Fenzlia** dianthiflora, a profuse-blooming little annual; flowers rose, white and pink. 4 pkts. 15 cts, 1 pkt. 5 cts.

**Feverfew**, 14 feet high, with double white flowers in profusion. 4 pkts. 10 cts, 1 pkt. 3 cts.

**Gaura Lindheimeri**, a tall annual with spikes of pretty white flowers. 4 pkts 15 cts, 1 pkt. 5 cts.

**Gaillarda**, showy single and double flowers on long stems; fine for clumps or beds; fine for cutting; colors yellow, salmon and quilled, each 5 cts. Single mixed, 5 cts. Double mixed 5 cts. Special mixture of all, double and single, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Grammnanthes** gentianoides, very dwarf, Crassula-like foliage; flowers yellow marked red. 4 pkts. 15c, 1 pkt. 5c.

**Helenium**, showy yellow. 4 pkts. 15c, 1 pkt. 5c.

**Helianthus** (sunflower), well-known hardy annual, useful for growing among shrubbery, and for screens or groups in the back-ground. Single and double; mostly large, golden yellow. H. Globosus fistulosis, d. pl. Californicus d. pl., Gmelina viridis d. pl.; Nanus fl. pl., all fine double-flowered sorts, each 5 cts. Gold-leaf, Bio- markantius, Uniformus and Primrose-colored, are fine single-flowered kinds, each 5 cts. Complete special mixture of all, 4 pkts. 10c, 1 pkt. 5c. H. Cucumerifolius Stella, Orion and Diadem are fine small-flowered annuals. Separate, each 5 cts. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Hibiscus**, new giant, yellow. 4 pkts. 10 cts, 1 pkt. 3 cts.

**Hunmanina**, Mexican Poppy. 4 pkts. 10c, 1 pkt. 3c.

**Godetia**, splendid annuals of easy culture; flowers cup-like, white, rose, red, each color, 5c; mixed. 4 pkts. 10c, 1 pkt. 5c.

**Iberis** (Candytuft), see p. 13. Mxd. 4 pkts. 10c, 1 pkt. 3c.

**Ice Plant** basket and vase plant. 4 pkts. 15 cts, 1 pkt. 5 cts. In mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Impatiens** gandulifera, 6 feet tall, covered with red and rosy flowers. Mixed, 4 pkts. 10c, 1 pkt. 3 cts.

**Salpiglossis**, the newly Zanatar Balsam; everlasting pot and bedding plant; blooms well in winter. Salmon, rose, carmine, each 5 cents. Mixed, 4 pkts. 10c, 1 pkt. 3 cts.

**Holsti**, thoroughbred; excellent window and bedding plant; 4 pkts. 10c, 1 pkt. 3 cts. The new colors each 10 cts, or special mixture, 3 pkts. 5c, 1 pkt. 10c.

**Jonasidium** acule, 2 inches high, covered with small violet flowers; neat pot plant. 4 pkts. 15c, 1 pkt. 5 cts.

**Kauflfussia** amelloides, annual 6 inches high; flowers daisy-like, many colors. Mixed, 4 pkts. 15c, 1 pkt. 5 cts.

**Kochia** trichophylla (Summer Cypress), dense foliage, green, turning red in autumn. 4 pkts. 10c, 1 pkt. 3 cts.

**Keulworth Ivy**, fine for baskets. 4 pkts. 10c, 1 pkt. 3c.

**Lathyrus**, Azurea and Napoleonis, 4 pkts. 10c, 1 pkt. 5c.

**Lavatera** (see p. 20). Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Layia elegans**, a fine annual. 4 pkts. 10 cts, 1 pkt. 3 cts.

**Leucanthemum** maximum. 4 pkts. 10 cts, 1 pkt. 3 cts.

**Leptosyne**, pretty annual. 4 pkts. 15 cts, 1 pkt. 5 cts.

**Leptosiphon**, very free-blooming and beautiful annuals; low; make a carpet of bloom. Densiflora, Roses, French Hybrids, each 5 cts. Mixed, 4 pkts. 10c, 1 pkt. 3 cts.
Lavatera trimestris.—Beautiful annuals, three feet high, bearing lovely, showy Hollyhock-like flowers throughout the season. Colors rosy carmine and white. In a moderately rich soil and sunny position they thrive and bloom freely, and are fine for a hedge or screen or border. Of easy culture, and always satisfactory. (See engraving.) The colors separate, 5 cts. Special Mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

Note.—The most useful of the Tree Malows is Lavatera trimestris, a beautiful South European annual, bearing in summer a profusion of large, pale rose or white blossoms. It may be sown in autumn or early spring in the open border.—Eng. Flower Garden.

Note.—Lavatera trimestris is one of the most striking hardy annuals grown in our gardens. The flowers are magnificent, white and beautiful rosy pink, and extremely useful for cutting, the blooms remaining in beauty for a long period. Effective in large beds or borders, as the plants are covered with flowers.—English Florist.

Leucanthemum Triumph.—A very beautiful large-flowered daisy, pure white with yellow disc. The plants grow two feet high, are entirely hardy, forming thick clumps, and during summer are a mass of bloom. For a border or low hedge this elegant hardy perennial flower is hardly surpassed. It will bloom the first season from early seedlings, and the plants will last for years, improving with age. Everybody who cultivates flowers should have this gorgeous and beautiful plant. Often known as Chrysanthemum. (See engraving.) 4 pkts. 15 cts, 1 pkt. 5 cts.

Note.—Chrysanthemum maximum (Leucanthemum) is undoubtedly the finest species among the hardy border Chrysanthemums. The habit is fairly dwarf and not straggling, and the pure white flowers, borne upon straight, dark stems, are large and handsome. We recommend it and its varieties very highly for borders and for cut flowers. The plants bloom from June till September.—Manual of Horticulture.

Lobelia.—Among the most distinct and beautiful of flowers for either the garden or window are the numerous varieties of Lobelia. The plants are mostly dwarf and dense, and bear a mass of small but very attractive flowers. As an edging it is charming, and when massed together in a bed it makes a carpet of rich bloom. For baskets or pots in the window, winter or summer, the plants make a fine display. (See engraving.)

Special Mixture of all sorts, 4 pkts. 10 cts, 1 pkt. 3 cts.

Mr. Park.—Last summer I had a lovely border of Lobelia which bloomed till frost. Many persons inquired about it, as they had never seen such lovely little blue flowers before—so numerous that the foliage was almost hidden from view. —Mrs. Dora Hewett, Miami Co., Ind., Dec. 10, 1886.

Mr. Park.—From a packet of your Lobelia seeds I have myriads of delicate little flowers of heaven's own blue. A spray hanging over the window box on the porch calls forth many exclamations of praise and delight. —Miss Belle Fenque, Avoyelles Parish, La.

Mr. Park.—Tell your patrons if they want a pretty edging to try Lobelia. Of your mixed 3-cent packet I think each seed brought two plants. And such a mass of tiny blooms as they were. From a distance they looked like a blue ribbon.—Mrs. J. W. A., Cass Co., Neb.

Note.—Lobelia Tenuior is a charming species of Lobelia, 1 foot high, light and graceful in habit, bearing flowers an inch across. Its profusion of bloom all summer cannot fail to make it popular.—Veitch.
**Mignonette, Sweet, in Variety.**

**Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.**

The Sweet Mignonette is a favorite on account of the delicious fragrance of its flowers, which are produced in large spikes, all the season. The seeds start quickly and the plants soon come into bloom. The new varieties I offer bear various colored flowers, the spikes are very large, and the plants compact. They will be found much finer than the old-fashioned sorts. In some places acres of Mignonette are sown for bee pastureage, for which purpose the flowers are hardly excellent. For field culture I can supply seeds at $1.00 per pound, or 8 cents an ounce, postpaid.

- Grandiflora improved, large flowered
- Golden Queen, yellow flowers, compact habit
- Fairest, new, improved Machtet
- Gabrielle, robust, large spikes of flowers
- Gigantea pyramidalis, splendid large-flowered
- Goliath, new, very large trusses of red flowers
- Miles Spiral, splendid sort
- Machet, thick spikes of reddish flowers; excellent for pots
- New Golden Machtet, large yellow
- Ruby Machtet, coppery scarlet flowers
- Pumila erecta, dwarf compact, fine for pots
- Spiral Dendracea, new, strongly developed
- Victoria red, dark red, fine

**Common Sweet $1.00 per pound, 8 cents an ounce.**

**Special mixture of all the above sorts, 4 pkts. 10 cts., 1 pkt.**

Mr. Park: The plants that I raised from your seeds are exceptionally pretty with its dark green foliage topped with clusters of bright red blossoms, and its delicious fragrance pervades the whole garden. It is in full bloom now, and I appreciate it so much—Mrs. Ethel Kirby, Jasper Co., Mo., Oct. 1, 1904.

**Matricaria---Golden Feather.**

**Special mixture, 4 pkts., 10 cts., 1 pkt. 3 cts.**

I offer two beautiful varieties of Matricaria or Golden Feather, one bearing white flowers and the other golden ones. The plants have lovely foliage, which shows nicely early in the season, but later the double flowers are borne in such profusion that a plant appears as a globe of bloom, the foliage being hidden almost entirely by the flowers. Fine for borders, edgings or beds. Give the plants a rich soil and sunny situation.

- Golden Ball, double golden
- Snow Ball, double white

**Special mixture of white, 4 pkts. 10 cts., 1 pkt.**

Mr. Park: My Mignonette from your seeds is exceptionally pretty with its dark green foliage topped with clusters of bright red blossoms, and its delicious fragrance pervades the whole garden. It is in full bloom now, and I appreciate it so much—Mrs. E. A. Perry, Iowa Co., Wis.

**Mimusol---Monkey Flower.**

**Special mixture, all sorts, 4 packets 10 cts., 1 packet 3 cts.**

Pretty plants for pots or baskets; plants grow six to eight inches high, and are covered with showy flowers, many spotted and blotched. They like sandy, moist soil and partial shade.

**CHOICE GLOXINIA-FLOWERED MIMUSOL.**

- Pardus, tigred and spotted
- Duplex finest hose-in-hose
- Albus, white-ground
- Albus duplex, hose-in-hose
- Nanna rosesa, superb, new sort
- Grandiflorus duplex (see engraving)

**OTHER FINE KINDS OF MIMUSOL.**

- Cardinals, orange
- Albinus, white
--grandiflorus, very large, richly spotted flowers, best quality
- Grandiflorus, Fire King, very bright
- Grandiflorus in fine mixture
- Complete special mixture, of all Gloxinia-flowered Mimusol. 4 pkt 10 cts., 1 pkt 3

Mr. Park: Mimusol is so easily raised from your seeds and the plants will be covered with their lovely varied bloom that it is strange they are not more generally grown—Mr. H. J. Tabor, Niagara Co., N. Y.

**Marigolds.---Favorite, easily-grown, showy flowers. The improved varieties I offer are beautiful.**

- African Marigolds, double orange, sulphur, quilled yellow and quilled sulphur, tall or dwarf, each 5 cts. Tall mixed or Dwarf mixed, 4 pkts. 10 cts, 1 pkt. 3 cts. French Marigolds, double orange, gold-margin, dark brown, striped, sulphur, grandiflora, tall or dwarf, each 5c; mixed, tall or dwarf, 4 pkts. 10c, 1 pkt. 3c. Single French, prices same as double. Liliput, small-flowered brown, gold, sulphur, separate or mixed. 5c. Signata pumila, fern-leaved edging, beautiful, 5c.

**Complete Mixture of all sorts. 4 pkts. 10 cts, 1 pkt. 3 cts.**
**Limnanthes** a hardy annual; does well on poor, dry soil; plant low spreading, free-blooming; flowers showy, yellow and white; sow in fall or spring. 4 pkts. 15 cts, 1 pkt. 5 cts.

**Linaria**, pretty annuals or perennials known as Toad-flax; easily grown from seeds; showy in beds or pots. L. bipartita mixed, L. maroccana, L. reticulata, L. cymbalaria (Knitworth Ivy), each 5 cts. Mixed, all sorts, 4 pkts. 10c, 1 pkt. 3c.

**Lobelia**, (see page 20) Cardinals, the Cardinal Flower, scarlet, hardy. 4 pkts. 10c, 1 pkt. 5c. L. Syphilitica, same price.

**Lupinus**, showy and beautiful annuals and perennials; rich, pea-like bloom in spikes. Hartwiggii, hirsutus, mutabilis, nanus; Arboresus, polyphyllus, mixed, in sorts, 5 cts per pkt. All varieties mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Limon grandiflorum rubrum**, Scarlet Flax, a beautiful annual. 4 pkts. 10 cts, 1 pkt. 3 cts.

**Lycchis** chalcedonica, a foot high; large Verbenae-like clusters; white, scarlet, 5c each, mixed, 4 pkts. 10c, 1 pkt. 3c. L. H斯顿is, large-flowered, white, salmon, scarlet, each 5c, mixed, 4 pkts. 10c, 1 pkt. 3c. Lycchis, all sorts mixed, 4 pkts. 10c, 1 pkt. 3c.

**Malope** grandiflora, hardy annuals; 1 foot high; showy, cupped flowers, white, purple and rose, each 5 cts. Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Malva** crispa, 5 feet high, crisped leaves; retains its green foliage all autumn; pretty. 10 cts, 1 pkt. 3 cts. M. Maurifluma, rose, M. Minnatis, scarlet, M. Moschatum, rose and white, each 5 cts. Complete mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Mimosa pudica**, Sensitive Plant, 4 pkts. 10c, 1 pkt. 3c.

**Martyria** fragrans, red with yellow throat; Lutea, orange-yellow, Proboscidea, lilac, each 5 cts; Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Matricaria** (See page 21). Mixed, 4 pkts. 10c, 1 pkt. 3c. **Matthiola** bicornis, (Sweet Evening Stock, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Mesembrianthemum**, Ice Plant, Dew Plant, Tricolor, each 5 cts. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Mimulus**, (see p. 21). Large; mxd. 4 pkts. 10c, 1 pkt. 3c. **Marigolds**, (see p. 21). Sorts, mxd. 4 pkts. 10c, 1 pkt. 3c.

**Molucella** spinosa, curious and ornamental; M. Lactis, Shell-Flower, each 5 cts. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Mirabilis**, (Four-o’clock), showy, fragrant and beautiful evening flowers. Tall white, white and yellow, white and red, yellow, rose, red and yellow, crimson, violet, lilac, white, tricolor, each 5 cts; mixed, 4 pkts. 10c, 1 pkt. 3 cts. Dwarf, white, yellow and red, white and red, yellow, each 5 cts, mixed, 4 pkts. 10 cts, 1 pkt. 3 cts. Complete mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Myosotis**, (Forget-me-not), charming blue and white flowers with yellow eye. Alpestris, mixed; Elégante tissima, mixed; Sticta mixed, Palustris, mixed; Oblongata; Love-star; each 5 cts. Special mixture of all sorts, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Narcissus**, (see p. 20), mixture, 4 pkts. 10 cts, 1 pkt. 3 cts. **Nemophila**, hardy annuals, 1 foot high; flowers white, red, and blue, often spotted. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Nicotiana**, (see p. 23), Mixture, 4 pkts. 10c, 1 pkt. 3c. **Nierembergia** gracilis, beautiful lavender flowers in profusion; spring started plants bloom well in winter. 4 Pkts. 10 cts, 1 pkt. 3 cts. N. Frutescens, same price.

**Nigella** damascena, Love-in-a-Mist, pretty blue and white flowers; fragrant seeds; easily grown. Mixed 4 pkts. 10 cts, 1 pkt. 3 cts. N. Hispanica same price.

**Nolina**, a trailing succulent plant; rich blue and white flowers; use in pots and basket plant. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

**Oenothera** Evening Primrose; large, showy flowers; opens in evening; each 5 cts, 5 pkts. 10c, 1 pkt. 3c.

**Oxalis** floribunda, rosea, and tropaeoloides, sensitiva, each 5 cts. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.
Nicotiana Sanderse.—The new hybrids are beautiful either as pot plants or bedding plants. They grow two feet high, and bloom freely and continuously, the flowers being carmine, and various shades to white. They make a gorgeous bed in summer, and are exceedingly showy as pot plants in winter; easily grown and sure to bloom. Dark carmine, white, flesh, rose, lilac, crimson, each 5 cts. per pkt. Special mixture of all colors, carefully prepared, 4 pkts. 15 cts., 1 pkt. 5 cts. See engraving.

Nicotiana Adunls, the elegant Jasmine-scented Evening Star; very free-blooming and beautiful, and will deliciously perfume the entire garden. A clump should be grown near the piano for its fragrance. Splendid mixed colors, 4 pkts. 15 cts., 1 pkt. 5 cts. Pure white, 4 pkts. 10 cts., 1 pkt. 3 cts. I can also supply Althorp purpurea grandiflora, Colocasia, Macrophylla gigantea, Tobacco cam. variegata, Sylvesteris and Acutifolius, each 5 cts.

Special Mixture of all sorts, 4 pkts. 10 cts., 1 pkt. 5 cts.

Mr. Park,—One package of your mixed Nicotiana seeds will give as much pleasure as anything I know of in the flower line. For evening the flowers are fine, both outdoor and in the house.—A. P. Sanborn, Waldo Co., Maine, Dec. 8, 1906.

Mr. Park,—Two years ago I planted a package of Nicotiana Sanderse seeds. They bloomed nicely all summer and were admired by everyone. In the fall I potted a small plant and kept it in a north window. It was beautiful, being covered with pretty flowers. They stayed open all day and lasted a long time.—Mrs. Kate E. Rader, Van Wert Co., Ohio, Dec. 10, 1906.

Primula Stellata Pyramidalis.—New Hybrids. Grand winter-blooming pot plants, surpassing in free-blooming and attractiveness its relative, the Chinese Primrose, and as easily grown. The plants grow more than a foot high, assume a pyramidal form, and are covered with graceful and beautiful flowers the entire winter. Those who love Primroses should not fail to have a collection of these new Star varieties. I offer the finest seeds to name, as follows: (See eng.)

White Star, white, dark foliage. 10 White Star, white, dark foliage. 10
Alba floribunda, superb white... 10 Lady Emily Dyke, like preced's. 10
Salmon Pink, charming salmon 10 Blue Star, delicate porcelain blue 10
Purple Star, rosy purple.......... 10 Giant white, large dark foliage 10
Miss Irene, light rose............. 10 Miss Irene, light rose............. 10
Hybrid white, extra fine ...... 10 Duchess Star, white, carmine eye 10
White Queen Star, free-bloomer 10 King of Stars, carmine crimson. 10
10 Snow Queen, white............. 10

Special Mixture of all choice varieties, a superb combination, 4 pkts. 15c., 1 pkt. 5c.

Mr. Park.—I invested in a packet of Stellata Primrose seeds last spring, and if I had raised only one plant should have felt well paid. The foliage is fine, and the flowers lovely, making it truly a "thing of beauty."—Mrs. H. R. Jenney, Sullivan Co., N. H., Dec. 14, 1906.

Schizanthus Grandiflorus.—The new Large-flowered hybrids of Schizanthus are exceedingly handsome border and pot flowers, and very easily grown. The plants grow two feet high and become a mass of bloom, the flowers being graceful, Crocid-like, appearing like a host of bright-colored and variegated butterflies. Splendid mixture, 4 pkts. 15c., 1 pkt. 5c. See engraving.

Schizanthus Wisetonensis, the new Butterfly Flower; of compact habit, covered with bloom, rose and white grounds with yellow, red and brown spots, wonderfully attractive. Started in summer this elegant plant is free-blooming and beautiful in winter. 4 pkts. 15 cts, 1 pkt. 5 cts.

Special Mixture of all varieties, 4 pkts. 10 cts., 1 pkt. 3 cts.

Mr. Park.—My Large-flowered Schizanthus bloomed throughout the summer and fall, and were beautiful. They were so large that many flower-lovers did not recognize them. They were the admiration of all who saw them.—Ella Outhouse, Dorchester, N. B.
Pansy, Roemer's Giant Prize.

Complete Special Mixture, 4 pkts. 15 cts, 1 pkt. 5 cts.

The Pansy is the most popular of garden flowers, and justly deserves its popularity. No flower blooms earlier, or more freely and continuously, and none is more delicate in texture, rich and varied in color, or more pleasing and attractive. A bed of well-grown plants in bloom is gorgeous, and always enthusiastically admired. It roams a pulpit bed in the spring, and blooms freely till July, then continuously, though less freely till winter. The strain I offer is unsurpassed, the plants being robust, the flowers of enormous size, and the colors of wonderful variety and beauty. I offer mixtures carefully prepared as described below.

The 10 pkts. (1 pkt. of each mixture) for only 25 cts.

White, embracing pure white with eye, white slightly shaded and tinted, white with spots, etc., 4 pkts. 10 cts, 1 pkt. 3
Red, embracing bright red, rosy red, rich scarlet, and red with tints and shadings, etc. 3
Blue, embracing dark blue, dark violet, rich purple, and blue margined, shaded and blotched 3
Black, embracing coal black, black and dark violet blue, jet black, purplish black... 3
Yellow, embracing rich pure yellow, golden yellow, yellow with eye, yellow with spots, yellow shaded, 4 pkts. 10 cts, 1 pkt. 3
Striped, embracing a great variety of colors, all distinctly striped, flaked and splashed... 3
Blotched, embracing ground colors, with blotches and spots showing in peculiar and striking contrast; marvelous in size, form and odd markings...... 3
Shaded, embracing all the leading colors margined, shaded and rayed in superb and charming contrast; many light and beautiful tints as well as rich shades 3
Azure, embracing lovely new shades of light blue, azure, or trimming and lavender blue, strikingly marked and tinted... 3
Mixed, embracing a variety of superb shades and markings not included in above offerings, as plain and fancy faces of orange, bronze, peacock, lilac, violet, etc.; rare varieties mixed... 3

1 Emperor Joseph, 2 Giant Striped, 3 Masterpiece, 4 Canary Bird, 5 Quadricolor, 6 Adonis, 7 Indigo King, 8 Snow Queen, 9 Hortensia Red, 10 President Carnot, 11 Golden Queen, 12 Quadricolor, 13 Psyche, 14 Mime Pernet, 15 Mourning Bride, 16 Royal Purple, 17 Lavender Blue, 18 Giant Yellow. Each of these fine named illustrated varieties, 6 cts. per pkt.

Special Mixture of all the above sorts, 4 pkts. 15 cts, 1 pkt. 5 cts.

Mr. Park:—I surely owe it to you to send a word of testimony about my Pansies. They were such beauties. I sowed them early and they began blooming very early, and lasted until every other plant was cut down by frost.—Mrs. Sybil Montville, Pipestone Co., Minn., Dec. 12, 1906.

Mr. Park:—I sent for a three-cent packet of Pansy seeds, and mother planted them. Well she had the loveliest Pansy bed she ever had, and she has had a good many. They were all colors, from purest white to black.—Josephine V. Mathews, Grafton Co., N. H., Dec. 10, 1906.

Mr. Park:—My Pansy plants from your seeds, set out 10 inches apart early in May, spread, and became a perfect mass of bloom, showing all colors and markings from pure white to purplish black.—L. E. Shanholtzer, Hampshire Co., W. Va., Dec. 10, 1906.
Petunias, Single and Double.

Special Mixture, 4 pkts. 15 cts. 1 pkt. 5 cts.

No Flower out-rivals the Petunia for general use. The plants are of the easiest culture, bloom freely and continuously, and bear the autumn drought better than almost any other garden annual. They are unsurpassed for bedding, and have few equals for winter-blooming in pots. My strains of Giant, Bedding and Edging Petunias are unsurpassed. They will delight all who try them. I confidently recommend them.

Giant Plain and Ruffled Petunias.—These are not so free-blooming, but flowers are enormous in size, rich and varied in colors, and exceedingly attractive.

Gloriosa, very rich velvety red, some with white spots, some with white throats, many beautifully fringed; very fine... 5

Tipped, Margined and Veiled, fine display of markings, many ruffled, and all odd and exceedingly handsome, per packet... 5

Purity, enormous pure white flowers, some elegantly fringed and ruffled; per packet... 5

Oculata, varieties with white, yellow, and spotted throats, often finely ruffled, large and effective; per packet... 6

Emperor, velvety red, rose and carmine; rich and effective, the flowers of many superbly fringed and ruffled; per pkt... 6

Double Giant, finest, saved from the best hybridized flowers; first quality, per packet... 6

Single and Double in mixture, 4 pkts. 15c, 1 pkt. 5c.

Mr. Park—Your Giant Single Petunias were marvelous. I think every seed grew. The stronger plants were bedded out, and their flowers were larger and finer than any we ever had. The others were potted, and the flowers reminded us of Orchids—so large, ruffled, spotted, throated, fluted—of every known Petunia color, and the texture so delicate. None who came to our house could guess what those dainty beauties were.—M. M. McIntyre, Cass Co., Ind., Dec. 13, 1906.

Hybrid Bedding Petunias.—Exceedingly free-blooming varieties, the flowers of medium size, of a great diversity of colors, as well as variegated, and delightfully scented.

Pure white ........................................ 5

Carmine, white throat ......................... 5

Yellow throated .................................. 5

Tocca, veiled ..................................... 5

Blotted and Striped ............................ 5

Rose, white throat............................. 5

Dark velvet-red ................................. 5

Double mixed, 4 pkts. 10 cts. 1 pkt. 5 cts.

Finest Bedding, First Quality, mixed, 4 pkts. 10c. 1 pkt. 5c.

Mr. Park—Your Bedding Petunias were grand. White, pink, red, purple, crimson, variegated. They bloomed profusely and gave me more pleasure than any other flower.—Emira Tucker, Parker Co., Tex., Dec. 13, 1906.

Dwarf Edging Petunias.—Similar to the Bedding sorts, but more compact in growth; suitable for edges of beds, also pots; very rich and free-blooming. Finest Double, 4 pkts. 15c. 1 pkt. 5c.

Brilliant, rose carmine .......................... 5

Snowball, fine white .......................... 5

Stellars, rosy stripe, white .................. 5

Multiflora, striped, blue, red ................ 5

Finest Edging, First Quality, mixed, 4 pkts. 10c. 1 pkt. 5c.

Mr. Park—The Double Petunias raised from your seeds were large and sweetly scented, and of so many varieties in color.—Mrs. J. B. Costello, Hampden Co., Mass., Dec. 2, 1906.

Petunias Illustrated.—1 Edging Multiflora, 2 Double Fringed. 3 Edging Rose, white throat, 4 Bedding Striped, 6 D. Fringed White, 6 E. Stellars, 7 Ruffled Aurora, 8 Giant Intus Aurea, 9 Double Bedding, 10 E. Rose Carmine, 11 R. Kermesina, 12 R. Vagnon, 13 R. Carmine, white throat, 14 B. Pure White, 15 Giant Maculata, 16 R. Brilliant Rose, 17 R. Striped and Blotched, 18 R. Rose-veined, 19 Giant Margined, 20 R. Pimbriliata Alba. Each variety 5 cts.
Phlox Drummondii, Improved

Complete Special Mixture, 4 pkts. 10c, 1 pkt. 3c.

For Garden Beds or window pot plants in summer the Improved Drummond Phlox is hardly surpassed. Seeds start readily, and the plants begin to bloom when small, increasing in floriferousness and beauty until they show a mass of bloom, rich and varied in color, and emitting a delightful perfume. They bloom continuously throughout summer if kept from seeding. Set plants six or eight inches apart. I offer first-class seeds of the finest kinds, as follows:

New Large-Flowered or Grandiflora Phlox, has large flowers in big clusters, and in an almost endless diversity of colors. A most valuable bedding sort.

Alba, pure white...... 5 Chamaea rose.................................... 5 Isabellina, yellow...... 5
Oculata........................ 6 Carminea albo-oculata..................... 6
Atripurpurea, purple...... 5 Carminea, new splendid. ......... 5
Albo-oculata.................. 6 Quadricolor, rose................... 6
Scoula.................................. 5 Albo-oculata................... 5
Coccinea, red........................ 5 Striata, beautiful.................. 5
Carminea, scarlet.............. 5 Violacea fine..................... 5
Carminea, albo-oculata.................... 5 Striata, very fine............. 5
Carminea, alba.................... 5 Violacea fine..................... 5
Carminea, rosea.................. 5 Striata, very fine............. 5
Carminea, rosea.................. 5 Splendens, crimson........... 5

Special mixture of all colors, 4 pkts. 10c, 1 pkt. 3c.

Hortensiedora Phlox, smaller flowers, but more numerous, and fine clusters; fine for every pot or bed. These fine flowers are Rose, White, Scarlet, Purple, Chamaea Rose, Pink with Eye, Violet with Star, Scarlet with Eye, Rose with Eye, Brilliant Scarlet. Each color 6 cts.

Cupidate and Fringed Phlox.—The flowers of this class have cut and fringed petals. They are much admired by some persons. Alba, white; Carminea, scarlet; Blue, marbled; Purpurea, purple; Rosea; Salmonea, salmon, and Violacea, coab 5 cts.

Special mixture of all colors, 4 pkts. 10c, 1 pkt. 3c.

Semi-Doublw Phlox.—These bear semi-double flowers of the leading colors. They are fine for pots or garden beds. Dark Red, Pure White, Bright Scarlet, Pale Yellow, Brown, Red, Cinnabar, each 6 cts.

Special mixture of all colors, 4 pkts. 10c, 1 pkt. 3c.

Compact Dwarf Sorts, mixed, 4 pkts. 10 cts, 1 pkt. .... 3
Fireball, bright scarlet, globular, 4 pkts. 10 cts, 1 pkt. ..... 3
Snowball, pure white, globular, 4 pkts. 10 cts, 1 pkt. .... 3
Compact mixture of all varieties described above, 4 pkts. 10c, 1 pkt. 3c.

Phloxes Illustrated.—1 Atripurpurea alba ocultata, 2 Alba, 3 Carminea striata, 4 Fringed, 5 Coccinea striata. 6 Albo ocultata, 7 Violacea alba ocultata, 8 Cupidate, 9 Atripurpurea, 10 Violacea striata, 11 Lutea, 12 Carminea 13 Quadri- color rose, 14 Double White, 15 Rosea alba ocultata, 16 Carminea, 17 Stellata Atripurpurea, 18 Carminea alba ocultata. Each 5 cts per pkt.

Mr. Park.—A circular bed on my lawn filled with your Drummond Phlox attracted a great deal of attention. Every plant seemed to be of a different color.—Geo. D. Morey, Essex Co., Mass., Dec. 12, 1906.

Mr. Park.—My Phlox Drummondii from your seeds were the loveliest I ever had.—Mrs. Lottie Greenawald, Defiance Co., Ohio, Dec. 11, 1906.
Oxyura Chrysanthsoidem, showy composite from California; low, spreading; yellow bloom. 4 pkts. 15 cts, 1 pkt. 5 cts.

Portulaca, Large-flowered, Single and Double. Splendid low mounds with cup-like, showy flowers; make a gorgeous bed; also bloom well in pots and vases. One of our best annuals. White, yellow, gold-striped, rose-striped, salmon, crimson, sulphur, scarlet, rose, bronze, white-striped, single or double, each 2 cts. 4 pkts. of any color, 10 cts. See engravings above of flowers and plants. My seeds of Portulaca are of superior quality.

Special mixture, Portulaca, single and double, all colors, 4 pkts. 10 cts. 1 pkt. 3 cts.

Mr. Park:—Last spring I sowed two packets of your Portulaca, and the flowers were the prettiest I ever saw. They were of all colors and just like Fairy Roses.—Mrs. G. E. Wicker, Dutchess Co., N. Y., Dec. 10, '06.

Mr. Park:—For a dry, sunny place, your Portulaca is grand. The flowers are gorgeous, and come in a great variety of colors. They make a pretty border.—Mrs. C. E. Spies, Sullivan Co., Tenn., Dec. 11, '06.

Palloxia Hookeri, annual. 4 pkts. 15 cts, 1 pkt. 5 cts.

Palava flexuosae, rosy purple, fine. 4 pkts. 15 cts, 1 pkt. 5 cts.

Papaver-Poppy, old annuals greatly improved; make a showy and beautiful bed; fine for cutting. Everybody should grow them. I offer choice seeds, and my mixtures are carefully prepared. Some where plants are to bloom and thin out. Mr. Park's Giant, over two feet high, with enormous double flowers. White, white striped, scarlet, white and purple, light yellow, red striped white, rose, scarlet, ash rose, purple, etc., all double; all Mixed. 4 pkts. 10 cts, 1 pkt. 3 cts.

Cardinal Poppy, 18 inches high, elegant fringed double flowers, brilliant and effective. Cardinal red, Rose, copper, Chamois, Brick Red, White or May Campbell, each 5 cts. Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

Other Poppies, Arenarium, Laxiflorum, Tulip Poppy, Giganteum and Japanese Pompon, 5 cts. each. Also Shirley, best strain, very rich; mixture, 4 pkts. 10 cts, 1 pkt. 3 cts. Paeony-Flowered Dwarf, mixed; Carnation-flowered, mixed, Roseas, mixed, Muscari, mixed; Tall Paeony-flowered, mixed and Ranunculus-flowered mixed. All choice, each mixture 3 cts per pkt., 4 pkts 10 cts.

Complete Special Mixture, Poppies, 4 pkts. 10 cts, 1 pkt. 3 cts.

Mr. Park:—I never before saw such a display as I had the past summer from your Annual Seeds of Poppies. They were the admiration of all who saw them. The foliage of some was as delicate as a Fern. I had 60 different shades, from purest white to deepest red—all shades of pink, and some nearly lavender.—Some were small, some very large, some single, some double; some fringed, some plain. They bloomed during the dry season, when other flowers were few.—Eld. G. C. Denny, Tipton Co., Ind., Dec. 10, '06.

Pentstemon Gentianoides, Large-flowered, various colors. $1.00. First season. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

Perilla, red foliage plants, mixed 4 pkts. 10 cts, 1 pkt. 3 cts.

Phacelia, elegant blue flowers; good for bees; Tanacetifolia, Congesta, Grandiflora, each 5 cts. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts. Per oz. 10 cts, 1/2 lb. 23 cts.

Physalis, red-flowered ground cherry; Franchetti, the Japanese Lantern, also Alkekengi, each 5 cts. Mixed, 4 pkts. 15 cts, 1 pkt. 5 cts.

Podolepis, graceful low annuals. Colors yellow red and white. Special mixture, 4 pkts. 15 cts, 1 pkt. 5 cts.

Polygonum Orientalis, red and white, Tull and Dwarf, each 5 cts. Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

Prince's Feather, See Amaranthus. 4 pkts. 10 cts, 1 pkt. 3 cts.

Ranunculus, per pkt. 5c. Reseda (See Mignonette p.21.)

Ricinus, superb foliage plants. Arboresus, 14 feet high; Mirabilis, red foliage, 3 feet; Sanguineus, 6 feet, red; Zanibarcarinis, Enormis, Maculatus, Niger, Picturatus, each 5 cts. Special mixture of all sorts, 4 pkts. 15 cts, 1 pkt. 5 cts.

Rosa Polyanthus, Fairy Rose, 4 pkts. 15 cts, 1 pkt. 3 cts.

Rudbeckia Bicolor, Semi-plena, showy plants; bloom for many weeks. Each 5 cts. Mixed, 4 pkts. 15 cts, 1 pkt. 5 cts.

Salpiglossis, Salvia, see page 28.

Sanvitalia, fl. pl., fine gold trailer, 4 pkts. 15 cts, 1 pkt. 3 cts.

Saponaria Calabirica, edging, mixd, 4 pkts. 10 cts, 1 pkt. 3 cts.
**Nemesia, New Hybrids.**—The Nemesia Hybrids are beautiful annuals, excellent as pot plants, and showy in the garden. The plants grow a foot high, are of dense, compact habit, and bloom very freely throughout the season. The hybrids of N. Strumosa, a new species from South Africa, are especially handsome, and greatly admired in Europe. See engraving.

Floribunda compacta alba ........................................ 5  
Compacts, bicolor, blue and white ................................ 6  
Compacts, variegated, blue ......................................... 5  
Compacts, varieties .................................................. 5  

Strumosa nana compacta, hybrids, 4 pkts. 10c. 1 pkt. 3  
Versicolor, pretty and free-blooming .............................. 5  
Strumosa, new, large-flowered, mixed ................................ 6  

**Complete special mixture, all varieties, 4 pkts. 10 cts. 1 pkt. 3 cts.**

Mr. Park:—I must speak a good word for the packet of Nemesia Strumosa seeds I got from you. I sowed them in March and I believe every seed grew. I gave away a great many plants and still had a generous supply for myself. In April I transplanted them into the garden, and they commenced blooming in June and continued in blossom until late in October. They were as handsome as Phlox Drummondii, and were greatly admired by all who saw them.—Mrs. Wilson, Garfield Co., Okla.

**Salpiglossis, New Emperor.**—The New Emperor Salpiglossis is an exceedingly attractive annual. The plants grow three feet high and become swaying masses of very large Petunia-like flowers with a rich, velvety texture, and in the most gorgeous colors, as royal purple, crimson, rose and sulphur, many of the flowers showing distinct pencillings of gold, carmine and viollet. Indeed, only those who have seen these superb flowers can have any conception of their richness and beauty. The plants are of easy culture from seeds, and should be set ten to twelve inches apart in a sunny bed. The size of the flowers will be improved during hot weather by a mulching of stable litter. The plants bloom from July until frost, if not allowed to seed. This is a splendid annual and cannot be too highly praised. I freely recommend it. See engraving.

Brilliant crimson .......... 5  Purplish violet ............... 6  Royal Purple .............. 5  Rose, gold veined ........... 5  
Deep bright scarlet .......... 5  Rose ......................... 5  Black, very dark ............. 5  Purple with carmine .......... 5  
Purplish brown .......... 5  Sulphur .......................... 5  Black, veined gold .......... 5  White, with yellow .......... 5  

**Special mixture of Large-flowered and Dwarf varieties, each, 4 pkts. 10c. 1 pkt. 3c.**

Mr. Park:—If those who cultivate flowers would try a packet of your Salpiglossis seeds the coming spring they would be well repaid. Those I raised were of many colors, with petals like velvet, elegantly veined and penciled. They blossom freely for several months.—Mrs. C. E. Davis, Hampshire Co., Mass.

**Salvia in Variety.**—Salvia are beautiful and very showy flowers. Salvia Patens has exquisite blue flowers. Salvia sclarea makes a graceful and attractive display when the plants are massed. The most attractive kind, however, is Salvia splendens, commonly known as Scarlet Sage. I offer improved, large-flowering, robust varieties, which are a blaze of rich color throughout autumn. They like a sunny place and plenty of moisture while growing. Fine for beds.

**VARIETIES OF SALVIA SPLENDENS.** (See engraving.)

Grandiflora, large spikes of scarlet flowers .................. 5  
Alba, spikes of large white flowers ........................... 5  
Pendula, drooping spikes of scarlet flowers .................. 5  
Prostrata, new scarlet ........................................... 5

**Giant Scarlet, robust, excellent sort ....................... 5**  
**Silverspot, new scarlet bloom, yellow spotted foliage .......... 5**  
**Variteties of Salvia splendens mixed, 4 pkts. 10c. 1 pkt 3**

**OTHER VARIETIES OF SALVIA.**

Carduacea blue, vermilion anthers .............................. 3  
Corenea, scarlet, scarlet, ... .............................. 3  
Romeriana, scarlet, pretty ................................... 3  

**Complete special mixture, all varieties, 4 pkts. 10 cts. 1 pkt. 3 cts.**

Mr. Park:—From one packet of your Salvia seeds I raised over five dozen plants. They were planted in two oval beds, on either side of the front door, and were a glory until frosts came.—Mrs. J. S. Borden, Bristol Co., Mass., Dec. 12, 1906.
Scabiosa, New Large-flowered.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

The improved varieties of the old-fashioned Scabiosa, or Mourning Bride, should be found in every flower garden. They are beautiful. The plants are bushy, as indicated in the engraving, and the large, globe-like flowers are produced in abundance throughout the entire season, if freely cut. The improved varieties not only develop full-double flowers nine inches in circumference, but appear in a marvelous diversity of shades—from white to yellow, azure to black-purple, flesh-color to fiery-scarlet, etc. I know of no other annual that will give better satisfaction than this new race of Scabiosa. The plants grow from two to three feet in height, bear their huge flowers on long, sturdy stems, and thrive in any garden, while the flowers are showy in beds and excellent for bouquets. The dwarf compact kinds are fine for winter blooming in pots.

Senecio—New Pompon.

Special mixture, 4 pts. 10 cts., 1 pkt. 3 cts.

Plants of the new variety of Senecio I offer, grow a foot high, branch freely, and produce masses of lovely double flowers of many fine colors. They are splendid for beds, and the flowers are useful for bouquets. The plants are not difficult to start, and should stand six inches apart in the bed.

Cream, Flesh, Purple and Red, each, 5
All colors in special mixture, 4 pts. 10 cts., 1 pkt. 3

Tropæolum—Tom Thumb.

Dwarf Nasturtium, special mixture, 4 pts. 10 cts., 1 pkt. 3 cts.

These are bright, beautiful and very fragrant annual flowers, desirable either for beds or pots. Anyone can grow the plants from seeds, and they thrive in any soil or situation. They grow a foot high, and are a mass of splendid flowers throughout summer and autumn, especially when kept from seeding. White, scarlet, crimson, yellow and spotted are the best for bedding. I supply these separately at 15 cents an ounce.

Yellow and Scarlet, 5
Crystal Palace Gem, 5
Empress of India, 5
Yellow Marl. Scarlet, 5
White, 5
Scheuerianum, 5
Golden King, 5

Special mixture, oz. 15 cts., 4 pts. 10 cts., 1 pkt. 3

Mr. Park:—I am successful with Tom Thumb Tropæolum, and have taken prizes on my flowers at three County Fairs. The colors are so bright they can be seen at a long distance. I have great pleasure in raising these flowers; besides being lovely, they are of easy culture, and grow well in almost any situation.—J. N. Wilcox, Brome Co., N. Y., Dec. 13, 1905.
Complete Mixture, all varieties, 4 pkts. 10c., 1 pkt. 3c.

Ten Weeks' Stock in Variety.

FEW persons are aware of the great beauty and usefulness of the superb double varieties of 'Ten Weeks' Stock. Hardly one desirable requisite of a first-class flowering annual can be named that they do not possess.

Good habit, handsome foliage, free and continuous blooming, showy spikes of large, double flowers, rich and various colors, delicious fragrance, easy culture and freedom from insects are all attributes of this grand annual. The plants are beautiful either in garden beds or pots in the house. Do not let the plants crowd in the seed-box, and transplant with care, that they do not become stunted. Mulch the bed with stable litter as hot weather approaches. The seeds I offer were saved only from selected pot plants by German specialists, and will produce a large percentage of perfectly double flowers. The mixture contains the finest colors well proportioned.

Dresden Perpetual or Branching. These grow 1½ feet high, and have from June till September an abundance of large, rosette-like, double flowers on long spikes.

Apple Blossom.................. 5 Purpleish Carmine .... 5
Canary yellow .................. 5 Rose .................. 5
Crimson .......................... 5 Snow white ......... 5
Dark blue .................. 5 The colors, in special mixture, 4 packets
Flush color .................. 5 Light blue ........ 5 10 cts., 1 packet .... 3

Dwarf Early Large-flowering, a fine color. For garden beds.

Victoria Bouquet, each plant grows symmetrical in pyramidal form, and becomes a bouquet of lovely double flowers of many colors. Mixed, 4 pkts 10c., 1 pkt 3

Large-flowering Wallflower-leaved, an excellent class with deep-green foliage, and large, double flowers in brilliant colors. Fine mixture, 4 pkts 10c., 1 pkt 3

Large-flowering Dwarf Pyramidal, of pyramidal growth, bearing huge spikes of full-double flowers. Many rich colors mixed, 4 pkts 10 cts., 1 pkt ....... 3

Princess Alice, a splendid branching Ten Weeks' Stock; plants of good habit, have large spikes of snow-white, double flowers; fine for pots. 4 pkts 10c., 1 pkt. 3

Princess May, wallflower-leaved sort, bearing charming Primrose-colored double flowers in fine trusses; plants come into bloom early. 4 pkts 10 cts., 1 pkt. ....... 3

Triumph, very double, brilliant crimson flowers; plants grow a foot high and become a mass of rich color. 4 packets 10 cts., 1 packet ....... 3

Mr. Park: Among my annuals nothing has been finer than Park's Ten Weeks' Stock. The white, the yellow and the rose colors are my favorites, and they certainly are fine.—Mrs. Samuel Currie, Walsh Co., N. Dak.

Mr. Park: I had beautiful Ten Weeks' Stock I raised from your seeds this year. Some are in bloom now. They look like small roses, they are so double, and some are a beautiful violet color. I like those the best.—Mrs. Smith, Berne Co., Vt., Oct. 12, 1903.

Celestial, pyramidal in growth, every branch terminated with a fine truss of sky-blue flowers. 4 pkts 10c., 1 pkt 3

Giant Perpetual White, one enormous spike of flowers 1 ft. in length; early-blooming. 4 pkts. 10c., 1 pkt. 3

Complete Special Mixture of all the above fine sorts, 4 packets 10 cts., 1 packet 3c. ............. 3

Valerian, Fragrant.

Special mixture of all colors, 4 pkts. 10 cts., 1 pkt. 3 cts.

The Fragrant Valerian grows a foot high, is of branching habit and develops panicles of fragrant little flowers of various colors. Although hardy perennials, they bloom the first season. The clusters are fine for cutting for bouquets, as well as showy in the garden. Often called Garden Heliotrope.

White........... 5 | Scarlet........... 6 | Red........... 6 | Rose........... 5
Special mixture of all colors, 4 pkts 10 cts., 1 pkt .................. 3

Note.—This is a handsome, hardy, border plant producing stout, erect stems, terminated in bold clusters of numerous small flowers. It begins to bloom in June and continues throughout the summer. It requires only ordinary garden soil, and occasional lifting and cutting in. It grows well on the crumbling wall of an old ruin, and is useful for planting on dry rockwork.—Flower Garden.
Sedum coeruleum, very pretty plant for rock work or edgings; flowers blue. 4 pkts. 10 cts, 1 pkt. 3 cts.

Saxifrage, rather succulent little plants; flowers yellow, white or rosy; handsome. 4 pkts. 15 cts, 1 pkt. 5 cts.

Shortia, a pretty annual, six inches high, bearing Daisy-like yellow flowers. 4 pkts. 15 cts, 1 pkt. 5 cts.

Schizopetalum Walkeri, white, fragrant, very pretty. 4 pkts. 15 cts, 1 pkt. 5 cts.

Schizanthus (see p. 22), mixture, 4 pkts. 10c, 1 pkt. 3c.

Sensitive Plant (see Mimosa, p. 22) 4 pkts. 10c, 1 pkt. 3c.

Senecio (see p. 29). Spec. mixture, 4 pkts. 10c, 1 pkt. 3c.

Silene (see p. 29) Special mixture, 4 pkts. 10c, 1 pkt. 3c.

Solamnia, plants with ornamental foliage and showy fruits; fine for pots or beds; Robustum, Giganteum, Laciniatum, Ciliatum and Melongena (Red-fruit Egg Plant), each 5 cts. Special mixture, 4 pkts. 10 cts, 1 pkt. 5 cts.

Silene civilized grows a foot high; flowers Daisy-like, yellow and brown; pretty. 4 pkts. 15 cts, 1 pkt. 5 cts.

Tagetes Signata. (Fern-leaved edging Marigold, see page 20). 4 pkts. 15 cts, 1 pkt. 5 cts.

Tagetes patula French Marigold, see p. 21). Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

Tagetes erecta, (African Marigold, see p. 21) Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

Trachymene (Didiscus) coerulea, grows a foot high, branching, and covered with umbels of pleasing blue flowers in fall. 4 pkts. 15 cts, 1 pkt. 5 cts.

Tropaeolum (Canary-bird vine, see page 41). 4 pkts. 10 cts, 1 pkt. 3 cts.

Tropaeolum Tom Thumb (Dwarf Nasturtium, see page 20). Special mixture, oz. 15 cts, 4 pkts. 10 cts, 1 pkt. 3 cts.

Tunica saxifraga (see page 50). 4 pkts. 10c, 1 pkt. 5c.

Valeriana (see page 30). Mixed, 4 pkts. 10c, 1 pkt. 3c.

Venidium fugas, a beautiful half-hardy perennial of spreading habit, covered with Marigold-like yellow flowers during summer. 4 pkts. 15 cts, 1 pkt. 5 cts.

Vinca rosea (see page 32). Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

Viola Cornuta (Tufted Pansy, see page 32). Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

Viola M UNITY, the Algerian Violet, one of the prettiest of hardy plants; grows and blooms freely, and continues in bloom a long time; beautiful. 4 pkts. 15 cts, 1 pkt 3 cts.

Vittadenia triloba, splendid border plant nine inches high; becomes a dense mass of bloom; flowers pink, changing to white; Hardy perennial. 4 pkts. 15 cts, 1 pkt 3 cts.

Viscaria oculata, a beautiful hardy annual; grows eight inches high, bearing rather large, bright, attractive flowers of the most pleasing colors; the plants make a fine display massed together in a bed. Blue, scarlet, white, red, bordered, each 5 cts. Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

Verbena hybrida, (see p. 32). Mixed, 4 pkts. 10c, 1 pkt. 3c.

Verbena venosa, purple violet. 4 pkts. 15c, 1 pkt. 5c.

NOTE: Verbena venosa is beautiful, growing a foot high. It is much harder than the ordinary Verbenas. It looks all the brighter after drenching in cloudy weather; raise very late in the season. When the ordinary Verbena fail this one is sure to give satisfaction. It should be planted rather thickly and pegged down until the ground is covered, where it will continue to flower until the last of summer; flowers are destroyed by frost. It is easily raised from seeds, which should be sown four months before the plants are wanted, as the seeds frequently take a long time to germinate.

Whitlavia Grandiflora, eight inches high, bell-shaped blue and white flowers, 5 cts. each. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

Virginia Stock, beautiful annuals appearing well in masses; grow nine inches high; and bloom profusely in autumn. Carnine, rose, white. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.
Verbana. Large-flowered Fragrant.—Verbena are readily raised from seeds, and seedling plants are healthy and vigorous, begin to bloom in a few weeks, and keep up the display until late in the autumn. For beds they are very desirable, as the flowers are produced abundantly and are of rich and varied colors, while the varieties I offer have a fragrance that is, perhaps, unequalled by that of any other garden flower. Indeed, a few blooming plants will perfume the whole garden during a summer evening. In a sunny window in winter pot-grown Verbena bloom freely and make a fine display. See engraving.

above, 4 pkts. 10 cts. 1 pkt. 3 cts.

Compact Verbena.—These form dwarf, compact, erect bushes, and are fine for pots, beds and edgings. Scarlet striped, scarlet eyed, pure white, rich scarlet, violet, carmine, purple with eye, striped, each 5 cts. Mixed, 4 pkts. 10 cts. 1 pkt. 3 cts.

Mammoth Verbena.—Vigorous plants with very large clusters of large flowers. My strain of these fine Verbena is unsurpassed. Dark scarlet shades, rose and carmine shades, purple shades, white and Fire-fly, each 5 cts. Mammoth Verbena in special mixture, 4 pkts. 10 cts. 1 pkt. 3 cts.

Mr. Park:—Our Fragrant Verbena were sown in a box in the house last spring, and the plants were set out in May. They were in bloom until hard frosts. I had 6 shades of purple, 4 of red, also pure white and variegated. They are among my "must-haves."—S. Wilson, Dakota Co., Neb., Dec. 11, 1906.

**Vinca rosea**, one of the most beautiful and easily grown of pot and bedding plants. The plants grow a foot high, are branching and densely clothed with green foliage, which acts as a setting for the large, rich-colored, Philox-like flowers, which are continuously produced throughout the season in beds, and throughout the winter in pots. Vinca rosea was largely used for bedding at the St. Louis World's Fair, with good effect. Unexcelled for window culture. See engraving.

Rose, with dark eye ................ 5
White, with red eye ................ 5

**Special mixture of all varieties, 4 pkts. 10 cts. 1 pkt. 3 cts.**

Mr. Park:—Last spring I sowed seeds of your Vinca rosea. They germinated readily, and I had various colors. After blooming all summer I potted them and they continued to bloom in the house. With their glossy dark green foliage and star-like flowers they are attractive window plants, while as bedding plants they rival the Geranium.—Miss L. Grosheider, St. Louis, Mo., Dec. 12, 1906.

**Viola Hybrids—Tufted Pansies.**—The Tufted Pansies are beautiful, Pansy-like flowers which succeed well wherever a Pansy can be grown. The seedlings start in from ten to fifteen days, begin to bloom in a few weeks, and if cut freely will bloom till the snows of winter appear. The colors are varied, and a mixed bed is very attractive. The flowers have a delicious violet fragrance which everybody admires. See engraving.

**Special mixture, all varieties, 4 pkts. 10 cts. 1 pkt. 3 cts.**

Mr. Park:—I sowed a packet of your Viola seeds last year. They bloomed well, and in the fall I covered them with old flower stalks. In the spring I had all the young plants I needed, and gave to friends. My Violas were beauties, and delightfully scented.—Mrs. L. Eastman, Fayette Co., W. Va., Dec. 13, 1906.
Zinnia, Improved Double.
Complete special mixtures, 4 pkts. 10 cts., 1 pkt. 3 cts.

The Double Zinnia is one of the easiest grown and most showy of garden annuals. The plants come quickly from seeds, are easily transplanted, and make a fine display in a bed or border or among shrubbery. Each flower lasts for several weeks, and the plants bloom abundantly until destroyed by frost. The new, improved double varieties I offer are as showy as Dahlias, as varied in color, and bloom more profusely. New semi-dwarf Zinnias, superb bedding sort, growing fifteen inches high and blooming very freely; perfectly double. Colors white, scarlet, golden yellow, crimson, striped, violet, purple, salmon, each ......... 5

The colors mixed, 4 pkts 10c., 1 pkt. ...... 3
New Mammoth Zinnias, grow three feet high, bearing huge, double flowers. Queen Victoria white, gold striped, scarlet, sulphur, striped, purple, each .... 5
Special mixture, 4 pkts 10c., 1 pkt. ...... 3
New Lilliput, scarlet, gold, lilac a n d White, each ...... 3
Mixed colors, 4 pkts 10c., 1 pkt. ...... 3
New Crispa, with wavy petals ...... 5
New Plants, with double flowered, deep red, mixed ... 5
Zinnia, all varieties, mixed, 4 pkts 10c., 1 pkt 3

Mr. Park:—I have a fine assortment of Zinnias from your seeds—striped, variegated, and all colors. One mammoth red one looked like velvet. The seeds came up in three days, and the plants bloomed freely and continuously all summer.—Mrs. F. A. McIntosh, Alleghany Co., Pa., Dec. 3, 1906.

Mr. Park:—Your Double Zinnias gave me good returns, and some I gave away took the first prize at the Fair in September. I buy new seeds from you every year, and always have fine flowerers.—Mrs. J. S. Borden, Bristol Co., Mass., Dec. 12, 1906.

Early Parisian Wallflower.
Price. 4 pkts. 10 cts., 1 pkt. 3 cts.

A beautiful, fragrant perennial, blooming the first season from seeds. When potted the plants bloom well in winter in a cool room. A valuable acquisition. 4 packets 10 cts., 1 pkt. 3 cts.

Mr. Park:—The Early Parisian Wallflower I got from you last spring grew finely, and began to bloom the last of August. The plants are still in bloom and I think they are ever so much nicer than the old-fashioned Wallflower, as they bloom in autumn, and are so fragrant. I intend to lift two plants for winter-blooming in the house. I like them so much that I want to start a large bed of them next spring.—Mrs. E. E. Marr, Whatcom Co., Wash., Dec. 8.

Mr. Park:—I have several plants of your Early Parisian Wallflower now in bloom. The older kinds do not bloom till the second year, but these plants are in bloom seven months after sowing. They make a lovely house plant, being very fragrant, and lasting a long time in bloom. The color is a beautiful shade of yellow and dark red.—Mrs. C. A. Graham, Sedgwick Co. Kansas.

Some Omissions.—Calandrinia, special mixture; Calendula, large-flowered, special mixture; Calliopsis, Compact Dwarf, finest for beds, yellow, brown, bicolor and marbled, special mixture; Chamaepicnum, mixed; Gensertia, mixed; Catananche, mixed; Chenoanoma; Nicandra, the Shoo-fly plant; Pentstemon, mixed; Polemonium (Jacob's Ladder), mixed; Veratrump nigrum; Wigandia caracassina; Zauschneria. Seeds of any of these, 4 pkts. 10c., 1 pkt. 3c.

Large-flowered Eremallitia.—Mr. Park:—In the spring of 1903 I sent for a packet of your "Large-flowered Eremallitia." I planted in a box, and had a large number of plants for myself and neighbors. They are lovely for winter; and the past summer were simply grand, with their bright blue blossoms almost hiding the leaves of the plants.—Mrs. A. L. Sohn, Cortland Co., N. Y., Dec. 15, 1906. (See page 12.)

Boston Smilax.—Mr. Park:—I would like to tell you what a fine vine of Smilax I have from your seed. It was planted in a box and reset in a pot, for which I made a tall wire frame, and the vine has covered it. The leaves are a beautiful shade of green. I enjoy your Floral Magazine so much.—Mrs. E. D. Sloan, Cherokee Co., I. T., December 5, 1906. (See page 50.)

Canary Bird Flower.—Mr. Park:—Last summer I had great success with Canary Bird Flower. It climbed up a string until it reached a little Eryngium tree four feet high, then all over its top it waved its bright flowers, like tiny butterflies, coming from every stalk all along the vine. It climbs like a Nasturtium, but its leaf is cut into four or five scallops.—Mrs. W. Whitacre, Armstrong Co., Pa., Dec. 7, 1906. (See page 38.)

One of Many.—Mr. Park:—Enclosed find my seed order again. Your seeds are fine. I have dealt with you for over 20 years now; so you see you have one satisfied customer.—Mrs. Nella Floate, Van Buren Co., Mich., March 17, 1906.
A PAGE OF BULBS.

[Note.—This page is placed in the seed department to give it prominence. I offer a Special Bargain. Don’t miss it.]

31 Splendid Bulbs 25 Cts.

OFFER the following splendid Named bulbs, all in fine condition, for 25 cts., and include always an annual subscription to Park’s Floral Magazine. Five collections, 5 subscriptions and the two Royal Gloxinias, all for $1.00. Tell your friends.

**Allium** Moly, golden flowers in large clusters; makes a fine clump. 3

**Amaryllis** (Zephyranthes), a lovely, hardy, free-blooming bulb. 3

**Anemone** coronaria, single, Tulip-like flowers, pink, white, blue; showy 3

**Anemone** coronaria, double, showy flowers. stiff stems; white, blue, pink 3

**Anemone** coronaria, the scarlet Fresia; flowers showy and beautiful 3

**California Hyacinth** (Camassia), 1 foot; splendid spikes, blue bells. 3

**Gloxinias** French Hybrid; handsome spikes, large flowers, rich colors 3

**Montbretia** crocosmiaflora, 18 inches; flowers in big, graceful clusters 3

**Oxalis** rosea, what like O. rosea; a pretty plant. 3

**Oxalis** rosea, free-blooming; flowers in clusters; edging borders. 3

**Ranunculus** French; double, showy flowers in rich colors; beautiful 3

**Sparaxis** new, giant, 1 foot; brilliant, showy bloom; treat as a Gloxinia 3

**Tiger Lily** a beautiful, hardy Lily; a fine garden work. 10

Total retail value of above collection, $0.65.

**15 Cents**

pays for the above 15 bulbs and Park’s Floral Magazine for a year. Or, send 25 cts. and I will mail two collections and two copies of the Magazine for a year. Or, send 45 cts. and I will mail four collections and four copies of the Magazine for a year. Or, send 75 cts. and I will mail five of the above collections and five copies of the Magazine for a year; also the two new and exceedingly beautiful Gloxinias, Royal Scarlet and Royal Purple, both marvelously rich in color, both showing a broad, distinct, pure white border. These Gloxinias are large, fine bulbs, worth 50 cts. alone. Get up a club.

**25 Cents**

pays for 31 Choice Bulbs, including all of the above, also the following splendid named varieties of Dwarf Gladiolus, Ranunculus, Montbretias and Anemones; retail value, $0.65.

**Anemone** coronaria, large, blue, Poppy-like flowers. 3

**Anemone** coronaria, double, Blue Almable, blue, large; very showy 3

**Anemone** Reine des Pays Bas, double white; chaste and beautiful 3

**Anemone** scarlet; like A. the bride, but rich scarlet in color 3

**Anemone** the bride, pure white, large flowers; fine for pots or beds. 3

**Gloxinias** Nancs. Appolon, light salmon, flaked purple 3

**Gloxinias** Nancs. Fairy Queen, red with white edges 3

**Gloxinias** Nancs. Queen, dwarf flowers; lovely in pots. 3

**Montbretia** Bouquet parfait, lovely vermillion with yellow center. 3

**Montbretia** Etoile de Feu, rich scarlet, shading to orange. 3

**Montbretia** Gerbe d’or, very fine racemes of golden yellow flowers. 3

**Montbretia** Pottli grandiflora, golden orange, flushed with red. 3

**Montbretia sulphurea, sulphur yellow, shaded; a choice sort.** 3

**Ranunculus** Lord Macaulay, rich scarlet, very double. 3

**Ranunculus** Mathilda Christina, very double, pure white. 3

See engravings of all the above Choice Bulbs. Retail value, $0.65.

My Friends, I urge you to get these bulbs now. I secured them (1,500,000 bulbs) from a Holland grower, who sold his surplus at a bargain, hence the offer. I may never be able to duplicate it. See your neighbors and get up a club. I offer a fine gold-filled Elgin watch, guaranteed 20 years, for the largest club sent in before June 1st. Send for special cash terms to agents. You can make money canvassing for my Magazine. Address

GEO. W. PARK, La Park, Pa.
Everlastings and Grasses.

Mixtures of many kinds, large pkt. 10c, 3 pkts. 25c.

These are mostly Annuals with straw-like flowers that keep their form and color for years. With few exceptions they should be cut just as the buds begin to expand. Hang in the shade, stems upward, till dry. The grasses are fine for bouquets, either green or dry. All are easily started from seeds, and attractive in the garden as well as useful for bouquets.

Acroclinium, graceful and pretty, half-hardy annuals; flowers nodding, an inch across, mostly rose and white, and for drying should be cut before expanding. Plants slender, with linn-like foliage; 1 foot high; pretty either in beds or pots. Double rose and double white, each 5 cts. All varieties, single and double, mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

Ammolium, paniculatum, new large-flowered; two feet high; robust, with handsome, double, white flowers; useful either in the garden or for winter bouquets; cut before the buds open. 5c.

Gomphrena globosa, a very fine annual, very desirable as a bedding plant, making a gorgeous and continuous display. Colors, carmine, flesh-colored and vary-colored. The new dwarf varieties are fine for pots. Cut when fully developed. Gomphrena aurea bears orange flowers. The colors separate, each 5 cts. Special mixture, all colors, 4 pkts. 10 cts, 1 pkt. 3 cts.

Gypsophila paniculata, plants bearing beautiful panicles of miniature bloom, which are fine for bouquets. G. Muralis is a fothergill-edging plant, useful also for baskets or pots. G. paniculata is a hardly perennial with panicles of fairy-like white bloom, indispensable for cutting. Separate, each 5 cts. Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

Helipterum Sandfordii, grows a foot high, bearing clusters of golden bloom; fine for drying, 4 pkts. 15 cts, 1 pkt. 5 cts.

Rhodanthe, a lovely everlasting, either in the garden or for winter bouquets; flowers white, rose, crimson, each 5 cts. Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

Helichrysum, New Double, showy, easily grown annuals for the border; fine for winter bouquets; cut before the buds open. White, rose, crimson and seven other colors; separate, each 5 cts. Special mixture, all colors, 4 pkts. 10 cts, 1 pkt. 3 cts. Dwarf varieties mixed, 5 cts.

Astragulus alpinus, crimson, Minimum, mixed, each 5 cts.

Complete mixture, all varieties, 1 pkt. 10 cts, 1 pkt. 3 cts.

Statice, a pretty everlasting, the flowers blue, white and yellow; in clusters; excellent for drying. 4 pkts. 15c, 1 pkt. 5c.

Waitzia grandiflora, a foot high; with branches terminating in numerous small yellow flowers. 4 pkts. 10c, 1 pkt. 3c.

Xeranthemum annuum, a hardy annual, one foot high, bearing handsome, double flowers on long stems; colors mostly white, rose and purple; cut when fully developed. One of the best everlastings and easily grown; separate, each 5 cts. Special mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.
**Choice Ornamental Climbers.**

**Mixture of Many Kinds, Large Packet 10c, 3 Packets 25c.**

The following vines are easily raised from seeds, and bloom the first season. Some may be wintered, and will last for several years. They are useful for covering walls, trellises, summer houses, and also for beautifying unsightly fences or buildings. They are among the best of plants for beautifying a place, making it cozy and attractive. Do not omit a collection of vines when ordering.

---

**Cardiospermum in Variety.**—Rare but very graceful and interesting vines are those of Cardiospermum, known as Balloon Vines, because of their pretty, balloon-like capsules. The plants are easily started and grow rapidly, soon reaching the height of six or eight feet. These Balloon Vines are elegant for a trellis, for draping pillars, and for covering a wire screen. See engraving. *Halfaconaenum,* the common Balloon Vine; lovely foliage, clustered white blooms, and handsome green balloons. 4 pkts. 10c, 1 pkt. 5c.

**Hirsutum,** a beautiful species; large clusters of flowers and large balloons; very fine. 4 pkts. 10c, 1 pkt. 5c.

**Special Mixture, Both Sorts, 4 pkts. 10c, 1 pkt. 3c.**

Mr. Park:—A nice vine for a screen is Cardiospermum. We plant it with Cypress Vines, and both grow nicely together. It will climb up a string, or over a bush, or creep along over anything it comes to. It is easy to grow, and is not dense and cumbersome as some other tender vines.—Mrs. Christine Sturkey, Jefferson Co., Mo.

**Cobea Scandens.**—This is a beautiful vine, growing quickly to the height of from twenty to thirty feet. Both foliage and flowers are graceful and attractive. The leaves are extended into long, graceful tendrils, which attach themselves to a string or wire or branch, and the large, bell-shaped flowers are produced continuously throughout the season. If grown in a pot it will bloom in the house. In the South the vine is hardy and will bloom for several years. Easily started from seeds, which should be planted edgewise, and not too freely watered till growth begins. The original species has purple flowers, and is the handsomest of the lot. The plants thrive particularly on the south side of a wall or building. See engraving.

Macrostemma, new

| 5 | White, greenish white.......................... | 5 | Purple. 4 pkts. 10c, 1 pkt. .....
| 3 | Mixed, 4 pkts. 10c, 1 pkt. 3c. |

Mr. Park:—For three cents and a little time, well spent, I have enjoyed all summer a lovely vine, Cobea scandens, that has climbed above the windows, and has been completely covered with light green, dark green and beautiful purple bells. The foliage of this vine, the Cobea, is very pretty, but when in full bloom it is indeed a good sight.—Mrs. F. H. Gilbert, Windham Co., Conn., Dec. 6, 1906.

**Cypress Vine in Variety.**—An exceedingly handsome vine, growing from eight to ten feet high; valuable for a trellis or to ornament the pillars of the veranda. The foliage is a rich, dark green, feathery in appearance, and decorated throughout the season with a profusion of bright, delicate, star-like flowers, scarlet, white and rose in color, beautiful and attractive. The seeds should be sown in a seed box, and the soil kept rather dry after the first watering. Do not transplant until the weather becomes warm. See engraving.

**Complete Special Mixture, 4 pkts. 10c, 1 pkt. 3c.**

Mr. Park:—My Cypress Vines from your seeds were beautiful. What is more graceful than their delicate, fern-like foliage and bright, star-shaped flowers? If I could only have one vine in my garden I would choose Cypress.—Mrs. J. Hagerman, Sag. Co., Mich.
Gourds—Four Splendid Sorts.

Special Mixture, 4 pkts. 10 cents, 1 pkt. 3 cents.

I offer a special mixture of the beautiful Dish Cloth Gourd, the Hercules Club, the Spotted Bryonopsis and the exploding Cyclanthera. Only those who have grown these charming vines know how attractive and graceful they are in foliage, flower and fruit. The Dish Cloth Gourd grows twenty feet high, bearing large golden yellow flowers, succeeded by long fruits, the net-work of which makes a fine scouring utensil; seeds large, flat, black. Hercules Club grown on a trellis, bearing fruit much relished by some as an esculent; dried and excavated, they make nesting places for small birds; seeds Gourd-like, brown. Bryonopsis has very graceful, cut foliage and spotted fruits in clusters a fine pillar vine; grows twenty feet high; seeds small, round, oblong. Cyclanthera grows twenty feet high, bearing numerous horns, oblong fruits which explode when ripe, scattering the seeds. It has lovely foliage, and is a lovely trellis or porch vine; seeds flat with jagged edge.

*These Gourds separately, per pkt. 5 cts, or in special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.*

Mr. Park—Tell your patrons if they want a strange, beautiful vine to plant Bryonopsis laciniosa. It has pale green, luxuriant Ivy-like foliage, grows 10 to 12 feet high, and by mid-summer is full of round balls.—Dr. A.C. Williams, Douglas Co., Ill., Dec. 1906.

Gourds and Cucumbers in Variety.

Complete special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

The Gourds are ornamental in foliage, flowers and fruit, and can be used very effectively about the garden. The use of the Dipper, Dish, Bottle, Sugar Trough, Egg and Club Gourds is indicated by their name. The latter has fruits from two to three feet long, and is sometimes advertised as Japan Cucumber, but is generally called Hercules Club. An Italian florist says, “This Gourd furnishes quite an excellent dish; cut into pieces three inches long, take out the seeds, fill in a stuffing of meat, etc., boil, and serve with tomato sauce.” Will you have some? The small, fancy Gourds are showy on the vines, and excellent toys for children. The Dish Cloth Gourd has showy yellow flowers, and network of the Gourds is useful for fancy work. The Hundredweight Gourds make excellent pies. The various species of Cucumis are handsome vines. All are interesting and ornamental, and worthy of cultivation. Start the seeds in the window box and set out when the weather becomes warm. In the South, plant the seeds where the vines are to grow.

Mr. Park: Last spring I bought of you a package of Gourd Seeds and they all grew well. Last week I took the Gourds (fancy) to our Fair at LaSalle, and secured 2d prize and a medal on them—all of which goes to show that Park's seeds are all right. There were six competitors.—Wm. Shaw, LaSalle Co., Ill., Oct. 9, 1905.

Mr. Park: Last spring I planted a package of your mixed Gourds. I had Goose Egg climbing a tree, and the crooked Gourds for peas. I am the popular grandmother with the children of the little village as long as my Gourds last.—Mary E. Blake, Tolleson, Calif., Nov. 4, 1905.

Mr. Park: I planted your Hercules Club Gourds, and one measures 32 inches. No one believes that a Gourd will grow that length, unless they see it. Everyone says, “My! I never saw anything like it!”—Mrs. Merritt Abbey, Peoria Co., Ill., Oct. 11, 1905.

_Park's Special Mixtures._—These mixtures are not the odds and ends of some wholesale seed house, but are prepared at my establishment under my careful personal supervision, from the best named varieties in well-balanced proportion. You never make a mistake by buying Park's Special Mixtures. They cannot be surpassed.
Abobra viridiflora, a lovely perennial; flowers green, succeeded by albert-like fruits; roots tuberous. 4 pkts. 10c. 1 pkt. 3c.

Bryonopsis laciniosa, (see p. 37), 4 pkts. 15c, 1 pkt. 5c.

Bean, Scarlet Runner, showy climber, everblooming; flowers scarlet in clusters; beans edible. 1 oz. 6c. 4 pkts. 10c, 1 pkt. 3c.

Cardiospermum (see page 39), Balloon Vine. Mixed, 4 pkts. 10c, 1 pkt. 3c.

Cajophora (Loasa) lateritia, a showy annual vine, bearing bright orange flowers. 4 pkts. 15c, 1 pkt. 5c.

Calampeps scabra, a lovely perennial vine with fleshy roots. May be kept over winter; graceful clusters of orange bloom; fine for a background. 4 pkts. 10c, 1 pkt. 3c.

Canary Creeper (Tropaeolum peregrinum), the pretty canary-bird vine; easily grown, 12 feet high, beautiful in both foliage and flower. 4 pkts. 10c, 1 pkt. 3c.

Centrosema grandiflora, a pretty leguminous vine 3 feet high; flowers pea-like, large, pink, showy. 4 pkts. 10c, 1 pkt. 3c.

Clitoria ternatea, a handsome vine from India; flowers beautiful, blue, white, variegated. Mixed, 4 pkts. 10c, 1 pkt. 3c.

Cobea (see p. 30), purple. 4 pkts. 10 cts, 1 pkt. 3 cts.

Convolvulus (Morning Glory p. 29), 1 pkt. 10c, 1 pkt. 3c.

Dolichos (Hyacinth Bean), a splendid ornamental vine, as easily grown as a pole bean, blooms very freely in big clusters, and the flowers are followed by great masses of graceful beans of a hyacinth-red color, making the vine very attractive, even when the flowers are gone. This vine has become a great favorite with many for covering arbors, summer houses, etc. I supply the following fine sorts:

Lablab, purple .... 5 Giganteum, vigorous .... 6 Atiosanguineus, red 5 Lablab, white .... 1 Soudanensis, purple .... 1 Ricogynus, curious 5

Special mixture, all sorts, 4 pkts. 10 cts. 1 pkt. 3 cts.

Humulus variegatus (variegated Hop), a vine from Japan, rapid growing, with dense, graceful, splendidly marked foliage, and big panicles of white flowers. A fine annual climber, growing 20 to 30 feet. 4 pkts. 10 cts. 1 pkt. 3 cts.

Ipomoea Quamoclit (Cypress vine), see p. 36. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.

Ipomoea, in variety, much like Morning Glories in foliage, flowers and habit; vines grow rapidly, and are fine for covering fences, buildings, walls, etc.

Coccinea, scarlet, small flowers .... 3 Blue, white border, fine ......... 3

Lutea, yellowish, small-flowered .... 3

Ivy-leaved Morning Glory, mixed .... 3 Nil Grandiflora, splendid .... 3

Special mixture, all sorts, 4 pkts. 10 cts. 1 pkt. 3 cts.

Lathyrus (Everlasting Pea, p. 49), 4 pkts. 15c, 1 pkt. 5c.

Lophospermum scandens, a lovely, silvery-foliaged, branched, bell-shaped flowers, 4 pkts. 10 cts. 1 pkt. 3 cts.

Maurandya, dense, graceful vines, lovely in both foliage and flowers; 6 feet high. Beautiful late in autumn. Blue, white, rose, purple, each 6 cts. Mixture, all colors, 4 pkts. 10 cts. 1 pkt. 3 cts.

Mina lobata, climber, scarlet flowers, 4 pkts. 15c, 1 pkt. 3c.

Thunbergia alata, (p. 41), mixed, 4 pkts. 15c, 1 pkt. 5c.

Pea (Sweet, see p. 40) mixture, oz. 5c, 4 pkts. 10 cts. 1 pkt. 3c.

Moon Flower. Rapid climbers, long-tubed, showy flowers in clusters; Bona Nix is rosy, small-flowered, opening in evening. Grandiflora large, sweet, white. Each, 10 cts. 4 pkts. 10c, 1 pkt. 3c.

Schubertia (Physianthus) albescens, an Asclepiad, known as White Bladder Flower; large and showy; likes a warm, sheltered place. 4 pkts. 10 cts, 1 pkt. 3 cts.

Solanum Seaforthianum, a fine climber from the West Indies; flowers blue in panicles, red, globose fruit; start early; keep roots frost-proof in winter; a choice vine. 4 pkts. 15 cts. 5 pkt. 5 cts.

Scyphanthus elegans, a half-hardy annual from Chili; yellow flowers, curiously marked fruit. 4 pkts. 15 cts. 1 pkt. 3 cts.

Sida acrorrhiza, a hardy annual, a hardy native vine of the Gourd family; sow early; grows rapidly; height 30 feet. 4 pkts. 15 cts. 1 pkt. 5 cts.

Vicia, beautiful vines with racemes of violet and red small Pea-like bloom; fine trellis plant. Mixd. 4 pkts. 15 cts. 1 pkt. 5 cts.
Morning Glory, Giant Clustered.
Easily grown from seeds, and the most desirable and beautiful of all Morning Glories.

Special mixture, 4 pkts. 15 cts., 1 pkt. 5 cts.

The engraving represents a rare Morning Glory of surpassing beauty—one which excels the old-fashioned and Japanese varieties so far that a comparison with them would be an injustice to it. It is variously known as Ipomoea Rubro-cerulea and L. Violaces Vera, but the common name, Giant Clustered, seems appropriate, for it is a giant in vine, foliage, flowers and clusters. It will grow vigorously to the height of 30 or 40 feet, clothed with dense, rich foliage, and throughout the entire season is a glorious mass of white and sky-blue flowers, shading to white at the centre, often strikingly marked with distinct pinkish violet rays. These are borne in huge, long-stemmed clusters produced at the leaf axils, and stand out above the foliage, showing the magnificent, large flowers in the most attractive manner. The clusters show buds and flowers in various stages of development, and new flowers appear every morning in wonderful profusion all over the vine. No person who has once cultivated this grand vine will discard it. All other Morning Glories in common cultivation are insignificant beside this elegant sort. You may form some idea of its beauty from this description, but when you see the blooming vine in all its glory you will exclaim, "The half was never told." By all means add this grand vine to your seed order. Start the seeds in a window box and set out to cover a trellis or fence, or the pillars of the plaza. When in bloom you will thank me for urging you to try it, for it will probably afford you more pleasure than any other flower about the home. Special colors, 8 cents per packet; special mixture, 4 packets 15 cents, 1 packet 5 cents.

Note from a Foreign Journal.—This Ipomoea (or Morning Glory) is worth all the trouble and care that can be lavished upon it. It is a most glorious thing.—S. G. Reed, in English Garden, Oct. 14, 1885.

Morning Glory. Park’s Improved.
For a quick-growing, beautiful vine the improved old-fashioned Morning Glory still claims a prominent place. The large, fresh, silky flowers appear every morning in all the richest shades of red, white and blue, often variegated and striped, give an added charm to the early mornings of summer and autumn. Special mixture, all colors and varieties, 4 packets 10 cents, 1 packet 3 cents.

Carmine. 3 Lilac. 3 Royal purple. 3 White. 3 cents.
Dark blue. 3 Light blue. 3 Scarlet. 3 White striped violet. 3 cents.
Dark red. 3 Rose. 3 White striped rose. 3 cents.
All varieties, special mixture, 4 pts 10 cts, 1 pkt. 3 Morning Glory, double, in fine mixture, per pkt. 3 cents.

Morning Glory. Improved Giant Imperial.
The Japanese Morning Glory vines show big flowers in new colors, the result of special attention given to developing and improving this class of flowers. These vines grow rapidly, and in a warm, sunny situation bloom abundantly. Special mixture, all the fine sorts, 4 packets 10 cents, 1 packet 3 cents.

Adonis, bright purple, white throat. 5
Aglaja, crimson, white throat. 5
Antigon, blue flowers, rose throat. 5
Aphrodite, white, enormous flower’s. 5
Asteria, copper red, white throat. 5
Ceres, crimson, white border. 5
Cleopatra, carmine, white border. 5
Euphoosyne, white, rose throat. 5
Juno, beautiful sky blue. 5
Luna, dark, light blue, red. 5
Princess, white, crimson spikes. 5
The above varieties, mixed, 4 packets 10 cents, 1 packet. 5 cents.
Collata Varieties. Huge flowers, curled margins. 5
Alba, pure white. 5
Carminea, carmine red. 5
Diana, dark blue, white border. 5
Collata varieties, splendid mixture, 4 packets 10 cents, 1 packet. 5 cents.
Means Varieties. Smooth foliage, gorgeous flowers. 5
Four packets 10 cts, 1 packet. 5 cents.
Special mixture of the above improved sorts, 4 packets 10 cents, 1 packet. 5 cents.
Park's Improved Sweet Peas.

Complete mixture, per lb. 50c, one-fourth lb. 15c, one oz. 5c, 4 pkts. 10c, 1 pkt. 3c.

**The Sweet Pea** is a general favorite, and merits its popularity. It is of the easiest culture, growing almost anywhere, and blooming freely throughout the season. The flowers are in clusters, large, of a wonderful range of colors, and deliciously scented. They are fine for vases or personal adornment when cut, and last well. Sow early and furnish support promptly. The seeds I offer are German-grown. They surpass the ordinary American-grown Sweet Peas in size and quality, as the Germans give them special care, and the climate there is cool, and well adapted to their development. The seeds I offer, can, therefore, be depended upon for the finest flowers. They cost me more than the best American seeds. Notwithstanding my low prices they will be found very superior. Mixtures are specially prepared and well proportioned.

**Only 25c for 10 packets in 10 mixed shade envelopes:**

1. **Shades of White.** This packet includes all the new, chaste shades of white; pearless, white, cream, white, flesh white and porcelain white.

2. **Shades of Red,** includes bright red, carmine, scarlet and crimson, in many tints.

3. **Shades of Dark Blue,** includes black blue, dark blue, violet and purple in many tints.

4. **Shades of Light Blue,** includes azure blue, lavender blue and sky blue in many tints.

5. **Shades of Yellow,** pure yellow, orange yellow, salmon yellow, sulphur yellow. Includes the best yellow shades known.

6. **Shades of Bright Pink,** includes brilliant rose, deep pink, carmine pink and peach pink with various white shades.

7. **Shaded and Margined,** includes light colors of different shades, some flaked and marbled, with soft tints.

8. **Red Striped, Blotched and Variegated,** a great variety of tints, the red color predominating.

9. **Blue Striped, Blotched and Variegated,** a great variety of tints, the blue colors predominating.

10. **Cupid or Dwarf**, white, pink, yellow and variegated.

Each of above collection, 8 cts per ounce, 3 cts per pkt.

The above collection of mixed Sweet Peas, one ounce of each mixture, or ten ounces in all, only 75 cents. Or, one packet of each mixture, 10 packets in all, only 25 cents. The named sorts can also be furnished separately at prices quoted.

Sow in a trench as early as the ground can be worked, and cover only one-fourth inch deep; later, as the vines grow, draw soil in till the roots are well protected. As warm weather approaches mulch the ground with suitable litter. Give wire or brush support early. Cut the flowers freely to prevent seeding and to prolong blooming. Order and plant early. The dwarf sorts are not so desirable as the others, but are useful for contrast. White is preferred for pots. I supply Sweet Peas illustrated, as follows:

1. Oriental orange salmon
2. Apple Blossom, rose
3. Queen Victoria, soft yellow
4. Capt. of the Blues, purple blue
5. Rose wren, salmon
6. Juana, white, striped lavender
7. Elsa Eckford, white
8. Invincible Scarlet
9. Invincible Carmine (Cardinal)
10. Invincible Scarlet Striped
11. Spanish crimson
12. Mont Blanc, pure white
13. Emily Eckford, rosy mauve
14. Senator, chocolate, striped

Mr. Park— I had great success with your Sweet Peas. The seeds came up well, and the flowers were of superior size and beauty, produced in great abundance until late in fall. In fact, when snow came the foliage was as green as ever. — Mrs. Helen Reeve, Ashiabula Co., Ohio, Dec. 12, '06.

Mr. Park—Last summer your Large-flowered Sweet Peas gave me more satisfaction than any other flower. I planted double rows, with pointettes for support between. The flowers and clusters were large, and I had the finest and richest variety of colors I ever saw. I urge all my friends to plant Park's Sweet Peas. — M. W. Kelley, Glimer Co., Ca., Dec. 15, '06.
**Tropæolum, Giant Climbing.**

Complete mixture, lb. 75 cents, 1-4 lb. 20 cents, oz. 6 cents, 4 pkts. 10 cents, 1 pkt. 3 cents.

**Lobb’s Climbing Nasturtium.**—Lobb’s Climbing Nasturtiums are considered even handsomer than the most robust varieties. Easily grown from seeds, and fine either as pot plants or bed or border.

**Mr. Park:** Thunbergia Alata is a valuable vine that certainly merits general cultivation, as it commences to bloom quite early in the season and blooms constantly until frost. It makes a nice vine for a porch, with its myriads of pretty flowers and clean foliage.—Grace Owens, Joliet, Ill., October 10, 1905.

**Tropaeolum Peregrinum**, the beautiful Canary-bird Flower. This is a lovely vine of easy growth, reaching twenty feet in one season. In autumn it is covered with a profusion of yellow flowers bearing a fancied resemblance to a miniature canary bird. Four packets 10 cents, 1 packet 3 cents.

**Notes.**—The Canary Flower is without a rival in lightness and elegance; indeed, one might say it is peerless among yellow flowers. It is a valuable garden vine, thriving in sun or shade, and unsupplied for festooning. It rarely fails to succeed well.—English Flower Garden.
Part II—Biennials and Perennials.

Many Varieties Mixed, Large Packets, 3 pkts., 25 cts., 1 pkt. 10 cts.

These are sometimes denominated "The poor man's flowers," because when once established in the garden they will take care of themselves. The Biennials die after blooming, but are mostly reproduced by self-sowing. The hardy Perennials live for years, and often increase in beauty with age. These are choice flowers entirely too much neglected. As a rule the seeds are more hardy to germinate than seeds of Annuals, but if given sufficient time there will be little reason for complaint. I urge my patrons to start a large bed of Perennials, because I feel confident they will be pleased when the flowers bloom, and thank me for my importunity.

Aquilegia or Columbine.

Complete special mixture, 4 packets 10 cents, 1 packet 3 cents.

Hardy perennials. Flowers both single and double in form, and of all shades of red, white, blue and yellow. The sorts offered are mostly large-flowered. All bloom in the spring, and some continue to bloom all summer. My complete mixture will show a great variety, and will please all who sow it.

Aquilegia is a genus of free-blooming subjects of easy culture in ordinary garden soil. They are suitable for beds, borders and shrubbery, and thrive in a shady situation. They are also very beautiful when naturalized in grass; and the flowers are also prized for cutting—Book of Gardening.

Mr. Park: I found a prize, indeed, in your mixed varieties of Aquilegia—flowers of all conceivable shapes and colors, double and single, spurred and otherwise. They are perfectly dazzling. They needed so much room that they smothered out a bed of Pinks in short order, but hurrah for this grand acquisition to beds and borders!—Mrs. J. E. Wheeler, Lebanon Co., Pa.

Adlumia Cirrhosa.

Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

Charming vine with delicate fern-like foliage and waxy pink and purple flowers in clusters in great profusion. The vines will grow 20 feet high, a mass of foliage and bloom, and in dense shade—even where the sun never reaches. Furnish string support. A grand pillar plant for the north porch.

Armeria Giant.

Mixed colors, 4 packets 10 cents, 1 packet 3 cents.

A fine hardy perennial, two feet high, with large heads of rose-colored flowers. A choice garden perennial that deserves more attention.

Mr. Park: I bought a packet of Giant Arneria seeds of you last spring, and have several nice thrifty plants—Mrs. Mary Coleman, Lewis Co., Wash., November 10, 1903.

Aubrietia.

(Rock Cress). Dense, low plants literally covered in spring with charming violet bloom; does well in the crevices of walls or rocks, and is beautiful as a spring bedding plant; easily grown. Eyriel. Deltoideas and Purpurea, each 5 cents. Special mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Rethionoema Grandiflorum (Lebanon Candytuft).—A trailing plant from the Lebanon mountains. Of easy culture; spikes of rosy white flowers continually produced. 4 pkts 10c, 1 pkt 3c.
Aquilegia (see page 42). Mixed, 4 pkts. 10c, 1 pkt. 3c.
Adunia (see page 42). Mixed, 4 pkts. 10c, 1 pkt. 3c.
Achillea Parnica, 2 feet high; double white flowers in abundance; fine. 4 pkts. 15c, 1 pkt. 5c. Double Pearl white, also Filipendula, 3 feet high, with yellow bloom, same price.
Aconitum (Monkshood), showy, hardy, beautiful; blue, white, each 5c. Special mixture, 4 pkts. 15c, 1 pkt. 5c.
Adenophora Polani, showy racemes of light-blue drooping bells; very pretty. 4 pkts. 15c, 1 pkt. 5c.
Adonis vernalis, bright yellow, spring-blooming; attractive and handsome. 4 pkts. 15c, 1 pkt. 5c.
Agrostemma coronaria, hairy plants 2 feet high, with showy white, rose and red flowers; each 5c. Mixed, 4 pkts. 15c, 1 pkt. 5c. A. Flora Jovis, pink, same price.
Alyssum saxatile (Gold Dust), grows 10 inches high, a mass of rich, golden flowers; a splendid spring-blooming perennial. 4 pkts. 15c, 1 pkt. 5c.
Ajuga metallica crispa, dwarf, blue, 4 pkts. 15c, 1 pkt. 5c.
Anchusa Italica (azurea), 3 feet tall; flowers rich blue in solid racemes. 4 pkts. 15c, 1 pkt. 5c. (See eng. left corner.
Anemone Japonica, 3 feet high, branching; covered in autumn with showy red, rose and white flowers. A. Fulgens, scarlet, and A. sylvestris, white, are also fine. Each sort, 5c. Special mixture, 4 pkts. 15c, 1 pkt. 5c.
Arabis and Aubrietia (see preceding page). Each, 5c.
Abobra viridiflora, Acanthus lusitanicus, Anthemis (mixed), Androsace coronopifolia, Anthemis (cannon-mile), Asclepias atrosanguiene, A. perulata odorata, Astragale (mixed), Baptisia australis, Barbarea folis variegatis, Betonica grandiflora, Camassia esculenta, Catananche, fl. pl. Each sort, mixed, 5c per pkt.; 4 pkts. 10c, 1 pkt. 5c.
Aster, new, large-flowered; rival Chrysanthemums in lateness of bloom, and the flowers are rich-colored and exceedingly showy. I offer a first-class mixture of the finest-named, hardy kinds. Special mixture Perennial Asters, 4 pkts. 15c, 1 pkt. 5c.
Campanula (see p. 44). Spec. mixt., 4 pkts. 15c, 1 pkt. 3c.
Centurea Americana, large pink heads; C. Babylonica, yellow; C. Montana; Each, 5c, mixed. All sorts mixed, 4 pkts. 15c, 1 pkt. 5c.
Cerastium grandiflorum, silvery foliage and showy white daisy-like flowers; C. Biebersteinii, of similar habit; make a fine bed or edging. Both sorts, 4 pkts. 10c, 1 pkt. 5c.
Chelone barbata, a lovely, graceful, everblooming perennial, 3 feet high; branching and covered with rich carmine flowers. 4 pkts. 10c, 1 pkt. 5c. Also C. glabra, new French hybrids, wreaths of lovely bells in colors. Mixed, 4 pkts. 10c, 1 pkt. 5c.
Chrysanthemum, hardy. Mixed, 4 pkts. 10c, 1 pkt. 5c.
Coreopsis Eldorado, new large-flowered sort; golden color, very showy. 4 pkts. 10c, 1 pkt. 5c.
Crucianella stylosa, a beautiful, dense, low plant, elegant as an edging; rose, everblooming. 4 pkts. 15c, 1 pkt. 5c.
Delphinium see p. 45) Chinense, Elatum, Formosum, Nudicaule, each 5c. Special mixture, 4 pkts. 10c, 1 pkt. 5c.
Dianthus Gardnerianus, lovely Sweet-William-like Pink; D. deltoides, small, pretty sort; D. atrocoecineus, a splendid border Pink, and D. superbus, elegantly fringed; each sort, 5c. Special mixture of all sorts, 4 pkts. 10c, 1 pkt. 5c.
Dietamum fraxinella, the beautiful gas or flame plant; red, white, mixed, 4 pkts. 15c, 1 pkt. 5c.
Dodecanthem medeia. 4 pkts. 15c, 1 pkt. 5c.
Dracecephalum grandiflorum and Ryschianum, each 5c. Mixed, 4 pkts. 15c, 1 pkt. 5c.
Epilobium Alibum, French Willow. 4 pkts. 15c, 1 pkt. 5c.
Erigeron, new hybrids, elegant perennial deserving of wide popularity; daisy-like yellow, white and blue flowers. Mixed, 4 pkts. 15c, 1 pkt. 5c.
Erysimum pulchellum, Eryngium giganteum, Eupatorium altissimum, Ferula communis, each, 4 pkts. 15c, 1 pkt. 5c.
These are beautiful hardy perennials of easy culture. C. Medium is the Canterbury Bell, a grand garden flower. C. calycanthes is the cup and saucer shown in the engraving. C. carpatica and C. pyramidalis are fine for pots as well as garden beds. C. fragilis is fine for baskets.

**Campanulas or Bell Flowers.**

*Complete Mixture, 4 packets 10 cents, 1 packet 3 cents.*

**VARIETIES OF CAMpanula MEDIUM.**

**Single Varieties.**

- **Blue**
- **Lilac**
- **White**
- **Rose**
- **Striped,**
- **Lilac**
- **Rose**
- **Mixed**

**Double Varieties.**

- **White**
- **Blue**
- **Rose**
- **Striped,**
- **Mixed**

**CALYCANThERMA VARIETIES.**

- **Blue, striped,**
- **White, blue,**
- **Rose,**
- **Striped, beautiful,**
- **Calycanthes or Cup and Saucer Varieties in splendid mixture, 4 packets 10 cents, 1 packet 3 cents.**

**Special mixture of Single, Double and Calycanthema varieties, carefully proportioned, 4 pkts. 10c, 1 pkt. 3 c.**

**OTHER SPECIES OF CAMPANULA.**

- **Carpatica,** 1 ft. high, beautiful cup-shaped flowers during July and August, mixed.
- **Fragilis,** an elegant, free-blooming, drooping sort; fine for pots and baskets.
- **Grandis,** 2 feet high, flowers showy; in bloom June and July.
- **Macrantha,** 5 ft. high; broad leaves and large, open flowers; a splendid sort.
- **Mirabilis,** new; not unlike the old Canterbury Bell; very fine.
- **Pyramidalis,** handsome, per. species; blue and white, each 5 cts., mixed, 4 pkts 10 cts., 1 pkt.
- **Persicifolia,** large-flow’d, blue and white, each 5 c., double 5 c., mixed, 4 pkts 10 cts., 1 pkt.
- **Turbinata,** blue and white; of dwarf habit; very pretty, mixed.

Mr. Park: I got a 3-cent packet of your Campanulas or Bell Flowers last spring, and this spring I had such lovely flowers of all colors—pink, blue, purple and white, double and single, and so easily raised.—Mrs. W. A. Wood, Maquoketa P. O., Ia., Oct. 19, 1905.

Mr. Park: I would like to tell you about the beautiful Canterbury Bells I raised from your mixed seeds. The colors were beautiful, pink, white, blue and rose, some single and some double. The Cup and Saucer variety were especially handsome. I wish the floral sisters would try your seeds.—Mrs. M. Gibson, Los Angeles, Cal., Nov. 6, 1905.

Mr. Park: All who want something fine should plant Campanulas Calycanthema or Cup and Saucer. We had great clusters of blue, white and variegated ones from your seeds, and I do not think we ever had a flower before that was admired so much. They do not bloom the first year, but are little trouble, and are well worth waiting for. They bloom at the same time as Gysophila, and the two combine effectively.—J. A., Crawford Co., Ill., Nov. 8, 1905.

**Carnations, Garden.**

Finest special mixture, 4 packets 10 cts., 1 packet 5 cts.

Showy and deliciously fragrant garden perennials. Flowers very double and of many rich colors, often superbly variegated. The seeds I offer are of the best quality, and will yield the finest flowers. They cannot be surpassed.

Choice Garden Carnations in splendid mixture, 4 packets 10 cts., 1 packet 3 c.

Mr. Park: I raised Carnations from your seeds—the mixed varieties. They were the prettiest I have ever grown. One a double scarlet, so large it burst open; another a double pink, so pretty and sweet; another double, almost white, with some blotches of red, and several other pretty ones.—Mrs. N. Eugene Raskin, Guilford Co., N. C.

Mr. Park: I raised 14 nice Garden Carnations from a 3-cent packet of your seeds. The flowers are beautiful and very fragrant.—Mrs. M. Gibson, Los Angeles, Cal.

**Chelone Hybrida,** elegant perennials 2 feet high; numerous graceful drooping flowers of various shades of scarlet; hardy, tenacious. Blooming clumps attractive. Mixed, 4 pkts. 10 cts., 1 pkt. 3 c.

**Chrysanthemum Indicum,** superb flower popular at Autumn Flower Shows. Very double, many colors. Finest seeds, 4 pkts. 10 cts., 1 pkt. 3 c.

**Commelina Sellowiana,** low-growing plant bearing large blue flowers during summer; desiring of trial. Plants should be protected in winter. 4 pkts. 10 cts., 1 pkt. 3 c.

**Coreopsis Eldorado,** new large-flowered perennial sort; golden yellow; blooms throughout season; perfectly hardy. 4 pkts. 10 cts., 1 pkt. 3 c.
Delphiniums, Orchid-flowered.

The new hybrid Orchid-flowered Perennial Delphiniums, or Larkspurs, are of surpassing beauty in the perennial garden. They grow from four to six feet high, bearing long, thickly-set spikes of large, attractive flowers of the richest colors. A plant is fairly represented in the engraving here given. The seeds are not difficult to start, but mostly require from three to five weeks to germinate. A few of the plants will bloom the first season if started early. Remove the flowers as they fade to prevent seed formation, or cut the spikes freely. The plants will then bloom continuously. A group or bed of these flowers in bloom is gorgeous, and always calls forth the enthusiastic praise of all who see it.

Mr. Park: I have excellent success with Perennial Delphiniums. I have them in the richest soil, and in winter put litter around them, and the first thing almost in the spring they are bearing their flowers. Some varieties are six to twelve feet tall and have spikes of bloom from two to four feet long. The various shades of blue are especially fine, as blue flowers are so rare.—M. J. Howard, Washoe Co., Nev.

Digitalis—Foxglove.

Special mixture, 4 packets 10 cts., 1 packet 3 cts.

The Digitalis or Foxglove is a hardy perennial that deserves more attention. The plants grow two feet high and bear showy, drooping bell-shaped flowers during early summer. They vary in color through shades of white, yellow, purple, pink, etc. Always showy and admired when in bloom. My seeds are from the finest varieties, and my special mixture will yield a splendid collection of plants.

Gypsophila Paniculata.

Splendid mixture, 4 packets 10 cts., 1 packet 3 cts.

One of the most graceful plants, the sprays appearing as fairy white flowers upon hair-like stems. The plants grow two feet high and are covered with myriads of bloom, making a cloud of white; attractive in clumps, and when cut imparting to bouquets or designs a most harmonizing effect. Readily started from seeds.

Mr. Park: I would advise your patrons to get Gypsophila paniculata. Once started it is there to stay, standing all kinds of exposure and drought. I grow it in the garden, and no flowers will thrive in its place for decoration in paper flowers.—A. H. Fuchs, Fergus Co., Mont.

Ferdinandia Eminens, a magnificent sub-tropical plant. In a warm rich bed grows 12 feet, with suspending pairs of opposite leaves. Start early; winters well, 4 packets 10 cts., 1 packet 3 cts.

Freesia, Sown early seedlings bloom the following winter. Flowers clustered, tubular, white and orange, richly scented; easily grown, 4 packets 10 cts., 1 packet 3 cts.

Eupatorium Weimannianum, a grand new hardy perennial. Grows well in pots, of pyramidal form, with clusters of white, brush-like bloom. Grows 10 ft. high, 4 pkts. 10c, 1 pkt. 3c.

Ferula Communis, Giant Fennel, a hardy perennial, in spring like a bed of feathery Ferns. Elegant for lawn. Stalks 10 ft. high; radical, ornamental foliage. 4 pkts. 10c, 1 pkt. 3c.
Hollyhock, Park’s Superb Double.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

When well-grown from a fine strain there is no more handsome or attractive garden flower than the Double Hollyhock. Whether in a double row or a group the blooming plants are gorgeous, and are well shown by my artist in the accompanying fine wood engraving. 

Of a very superior strain, the plants of which grow from five to six feet high and become solid stems of foliage and rich double flowers of a wonderful variety of shades. They are certainly unequalled. When started early in pots and set out in May some of the plants will bloom in autumn. By all means start some of these fine Hollyhocks. They will delight you.

Pure white... 5 | Scarlet...... 5 | Sulphur yellow 5
Bright rose... 5 | Salmon rose... 5 | Golden yellow 5
Pale yellow... 5 | Crimson...... 5 | Dark crimson... 5
Light apricot 5 | Cherry red... 5 | Yellowish white
Peach....... 5 | Purpish lilac | on purg. gro’d 5
Special mixture, all sorts, 4 pts 10 cts, 1 pt 3 cts.

Mr. Park: Our Hollyhocks stood just back of the fence, with their majestic heads rising in view. I had other kinds of flowers, but the Hollyhocks were my favorites. They lasted longer and yielded more in return for their care than all the rest.

—Mrs. Emma Ridgway, Macoupin Co., Ill.

Park’s New Hybrids.

Mixed colors, 4 packets 10 cts, 1 packet 3 cts.

I offer another race of Hollyhocks, most of which will bloom the first season if started early. They show both single and double flowers, and in all the leading shades—white and cream, yellow and orange, rose and red, crimson and scarlet. The plants grow from six to ten feet high, and bloom for several months.

Mr. Park: I want to tell you about my Hollyhocks from your seeds. They did not bloom the first year, as they were planted late, but the next summer you should have seen them—great broad blossoms, and so delicate, in all shades from white to darkest red, single and double. One double one had stripes in the petals, the flowers being compound and very curious—unlike any other flower I ever saw. The single ones were simply immense. They looked like crushed silk.—Mrs. Mary F. Davidson, Clinton Co., Mich., Nov. 26, 1903.

Mr. Park: I have some of the finest Hollyhocks raised of seeds got of you. Some were seven and one-half feet high, and of all colors. Everybody would stop and want me to save them seeds. They were both double and single, and bloomed all summer.—Mrs. Laura Norman, Bosque Co., Texas, Nov. 8, 1903.

Linum Perenne.

Special mixture, 4 packets 10 cents, 1 packet 3 cents.

One of the most graceful, as well as most free and continuous-blooming of herbaceous perennials is Linum perenne, the hardy Perennial Flax. The plants grow a foot high, and from spring to fall are a waving mass of blue, white and rose flowers every morning if not allowed to bear seeds. They self-sow and a bed of the plants will not die out. The plants are hardy and will endure for several years.

Perenne, Blue 5 | Perenne, Rose 5
White 5 | Special mixture, 4 pts 10c, 1 pt 3

Mr. Park: I wish to speak of some lovely flowers raised of seeds bought from you. One is Linum perenne. I think it is so pretty. Mine bloomed the whole season, from June until frost. It was a mass of lovely blue flowers.—Nan Shinn, Jackson Co., W. Va.

OTHER SPECIES OF LINUM:

Linum flavum luteum, plants a foot high, symmetrical, and covered with golden flowers for two months...
Linum Lewisi, flowers blue, freely borne on bushy plants a foot high...
Linum narbonense, a beautiful Flax, bearing a profusion of large, light-blue, velvet-veined flowers; a bed of this sort is splendid, the plants growing 15 to 20 inches high, dense and graceful...
Linum Perennial Flax, special mixture of all species and varieties, 4 packets 10 cents, 1 packet 3.

Pinks. Parks Hardy Everblooming.—The old-fashioned hardy Clove-scented Pink has been a favorite for years. The new, everblooming variety, however, is a great improvement, the flowers being as large and showy, more varied in colors, and equally as fragrant, while the plants are perfectly hardy and bloom throughout the season. It should be in every garden. Mixed, 4 pts. 15 cts, 1 pt. 5 cts.

Mr. Park: I had a bed of your Pinks raised from seeds sown early in spring. They began to bloom in autumn, and were beautiful. I expect an abundance of bloom the coming season.

—Mrs. S. Cherry, Richland Co., Ohio, Dec. 13, 1905.
Gentiana, elegant blue-flowered, late blooming perennial, Acaulis and Przewalski, each 5c. Mxd 4 pts. 15c, 1 pt. 5c.

Gecum atrosanguineum fl. pl., a beautiful perennial for beds; flowers rich red, blooming long time. 4 pts. 15c, 1 pt. 5c.

Glaucium, a handsome silver-foliaged plant with showy yellow bloom. 4 pts. 15 cts, 1 pt. 5 cts.

Gunnera, giant-leaved perennials that like a boggy place; very effective where well grown. Scabra and Manicata, each 5 cts. Mxd, 4 pts. 15 cts, 1 pt. 5 cts.

Gerardia, new hybrids, Pentstemon-like plants making a fine garden clump. Mixed, 4 pts. 15 cts, 1 pt. 5 cts.

Gypsophila (see page 45), Paniculata, fairy-like flowers elegant for bouquets. 4 pts. 10 cts, 1 pt. 3 cts.

Galega officinalis, 3 feet high, with racemes of blue flowers. 4 pts. 15 cts, 1 pt. 5 cts.

Gaillardia grandiflora, showy plants for beds or cut flowers; Mostly bloom first season. Mxd, 4 Pkts. 10 cts, 1 pt. 5c.

Geranium sanguineum, pretty creeping perennial; carmine flowers. 4 pts. 15 cts, 1 pt. 5 cts.

Gnaphalium (Edelweiss), 4 pts. 15 cts, 1 pt. 5 cts.

Honesty (Lunaria), easily grown, showy biennial; purple, single flowers in panicles, succeeded by silvery seed-pods, of use for drying. 4 pts. 15 cts, 1 pt. 5 cts.

Hemerocallis, lily-like yellow and orange-scarlet flowers; make showy, hardy borders. Mixed, 4 pts. 10 cts, 1 pt. 5c.

Heuchera sanguinea, graceful spikes of bloom; fine for cutting; good pot plants. Rose, red, white. Mxd, 4 pt. 10c, 1 pt. 5c.

Heracleum, giant Cow Parsnip, a showy back-ground plant, 6 to 10 feet high; Giganteum and Mantegazzianum, each 5 cts. Mixed. 4 pts. 15 cts, 1 pt. 5 cts.

Helianthemum Autumnale, showy, yellow, 4 pt. 15c, 1 pt. 5c. Mxd. 4 pts. 15c, 1 pt. 5c. Autumnale mutabilis, yellow, 4 pts. 15c, 1 pt. 5c.

Hyacinthus candidans, summer Hyacinth, 4 pts. 15 cts, 1 pt. 5 cts.

Inula glandulosa, a tall, tree-like summer plant with golden flowers, very showy. 4 pts. 10 cts, 1 pt. 3 cts.

Iris (Garden Flag), Germanica mixed and Kaempferi mixed, each 5 cts; Special mixture of all, 4 pts. 15c, 1 pt. 5c.

Ipomopsis (Standing Cypress), elegant plants, showy cypress-like flowers, very pretty. Mixed, 4 pts. 15c, 1 pt. 5c.

Lupinus mutabilis, a perennial; 2 feet high, showy, daisy-like flowers, white with yellow disk. Mixed, 4 pts. 15 cts, 1 pt. 5 cts.

Lupinus, hardy perennials of great beauty; flowers in big spikes, blue, white, rose, etc. Mxd, 4 pts. 15c, 1 pt. 5c.

Lycoris viscaria splendidens, a fine, showy perennial, 4 pts. 15 cts, 1 pt. 5 cts.

Linaria, spikes of yellow, white and purple flowers, very pretty. Mixed, 4 pts. 15 cts, 1 pt. 5 cts.

Lythrum superbum, 4 pts. 15 cts, 1 pt. 5 cts.

Myosotis (Forget-me-not), everblooming. Mixed, 4 pts. 15 cts, 1 pt. 5 cts.

Meum athamanticum, an elegant umbelliferous plant; flowers white in large umbels; 1 foot. 4 pts. 15 cts, 1 pt. 5 cts.

Michauxia campanuloides, 3 feet high; flowers white and purple; handsome. 4 pts. 15 cts, 1 pt. 5 cts.

Meconopsis cambrica, a very showy perennial; flowers yellow, purple and blue. Mixed, 4 pts. 15 cts, 1 pt. 5 cts.

Monarda (Bergamot) scarlet. 4 pts. 15 cts, 1 pt. 5 cts.

Mourina longifolia, ornamental. 4 pts. 15 cts, 1 pt. 5 cts.

Mirabilis multiflora, perennial. 4 pts. 15 cts, 1 pt. 5 cts.

Oenothera Lamarckiana, yellow flowers; stalks 3 feet high; fine Evening Primrose. 4 pts. 15 cts, 1 pt. 5 cts.

Ostrowskia Magnifica, bell-flower. 4 pts. 15c, 1 pt. 5c.

Prunella grandiflora, self-heel. 4 pts. 15c, 1 pt. 5c.
Pinks, Carnations, Picotees.—No flower-garden is complete without a bed of Pinks, Carnations and Picotees. The newer varieties are a great improvement upon the old ones, the flowers being larger, of a greater range of colors, everblooming, free-blooming and delightfully fragrant. Plants started in the spring are hardy even in our Northern States, when given a protected bed, and planted a few weeks while their color perfumes the entire garden. The flowers may be cut with long stems, and last for several days in a table vase. The seeds I offer are unsurpassed.

Pinks, new everblooming, clove-scented, double and single varieties; splendid mixed colors, 4 pkts. 15c, 1 pkt. 5
Old-fashioned clove-scented, double and single, mixed colors
New Cyplops, early, everblooming, mixed colors
Carnations, ne plus ultra, finest double, for beds and borders, mixed
Selves, variegated, white, separate
Early-flowering Vienna, mixed
Finest perpetual, from stage plants, extra, mixed
From stage plants
Complete Special Mixture, all sorts, Pinks, Carnations and Picotees, 4 pkts. 15c, 1 pkt. 5

Platyodon.—This is a grand perennial, hardy everywhere, tenacious, showy and beautiful. The plants grow a foot or more high, are stiff, with big, attractive flowers, and keep in bloom a long time. Some are single, some double, and all desirable. The colors are blue and white, clear and distinct. They appear well in a garden bed or in clumps. Started early the plants will bloom the first season. Sometimes catalogued as Wahlenbergia.

Grandiflora alba, white
Coerulea, blue
Special Mixture of all sorts

Perennial Poppy.—One of the most gorgeous and attractive of perennials, and when once started will make a fine display annually for years. The plants grow three feet high, have very beautiful, graceful foliage, and bear flowers of enormous size and richest colors. The new hybrids vary more or less in colors, but the prevailing hue is scarlet, while the texture is silky and glittering. Do not fail to add Perennial Poppy to your collection. I offer the choicest named sorts:

Prince of Orange, orange scarlet
Royal Scarlet, very large, rich scarlet
Semi-pleno, vivid crimson, partly double
Parkman, new and handsome
Monarch, a fine, showy variety
Duke of Teck, brilliant, splendid
Brilliant, vivid scarlet
Bracteatum, crimson-scarlet

Complete Special Mixture of all the above varieties, 4 pkts. 10 cts, 1 pkt. 3 cts.

Papaver nudicaule, the beautiful Iceland Poppy, white, yellow, golden, striped, etc., double and single, 5 cents per packet. Mixed, 4 pkts. 10 cts, 1 pkt. 3 cts.
Phlox, Hardy Perennial.
Fine mixture, 4 pkts., 10 cts., 1 pkt., 3 cts.

Hardy Perennials bearing huge panicles of showy flowers of many fine colors. Seeds start tardily. Showy and beautiful. Finest mixture, 4 packets 10 cents, 1 packet 3 cents.

Mr. Park:—Why don't every flower cultivator have a bed of Perennial Phlox? No more useful or showy perennial grows. There are so many beautiful shades and colors, some eyed, while the clusters are as large as saucers and delicately fragrant.

—M. J. Ady, Fergus Co., Mont.

Primula, Hardy Perennial.
Special mixture of many sorts, 4 pkts., 10 cts., 1 pkt., 3 cts.

The Hardy Primroses are beautiful in foliage, beautiful in bloom and beautiful in fragrance, and a bed or border of them in the garden is always enthusiastically admired. Most of the species are readily started from seeds and most of them are hardy out doors without protection. Give them a trial. Special mixture, 4 pkts., 10 cts., 1 pkt., 3 cts.

Mr. Park:—I have a large bed of your hardy Garden Primroses. I think every seed grew, I expect lots of bloom in the spring. —Mrs. E. A. Gould, Chenango Co., N. Y., Dec. 12, '96

Wallflower, Ne Plus Ultra.
Wallflowers are prized for their fine habit, handsome flowers and delicious fragrance. The plants are hardy in poros, well-drained soil, and bloom early in spring. The seeds I offer are from a superb European collection, embracing various colors: Cream, canary, golden yellow, blue, brown, red, crimson and violet, all large-flowered and handsome. Single or double sorts mixed, 4 pkts., 10 cts., 1 pkt., 3 cts.

Mr. Park:—Of the packet of Wallflower nearly every seed germinated. The blossoms are fine, richly colored and very fragrant. They continue in bloom in spite of a frost unusually severe. —M. Gilchell, Los Angeles Co., Cal., Dec. 9, 1906.

Giant Sweet Williams.
The Giant Sweet Williams I offer are greatly improved, the flowers being very large, borne in large clusters, and the colors varied and beautiful. If kept from seeding the plants bloom for a long time. All are richly scented; make a fine bed.

Mr. Park:—The Sweet Williams from your seeds were beautiful, so large and rich and fragrant. My neighbor has a very large flower garden, but his Sweet Williams were indistinguishable compared with mine. I heartily recommend your seeds. —Mrs. J. B. Costello, Hampden Co., Mass., Dec. 10, 1906.

Mr. Park:—Of your Sweet Williams I think every seed came up. I never saw so many plants; I gave everyone who came some plants. I want everyone to try a packet next year.—Mrs. H. O. Cate, Orange Co., N. C., Dec. 7, 1906.
Pyrethrum (Perennial Cosmos), plants two feet high, with handsome cut foliage and Cosmos-like red, rose and white flowers; a splendid hardy perennial; large-flowered. Mixed, 4 pkts. 10c, 1 pkt. 3c. Double, mixed, 4 pts. 25c, 1 pkt. 10c. I can recommends Tchihatchewi, 5 cts. and P. Gold Gem, 5 cts.

Ranunculus Asiaticus, fl. pl., mixed, 4 pts. 15c, pkt. 5c.

Rheum, large-flowered, mixed, 4 pts. 15c, 1 pkt. 5c.

Rhexia elegans, 3 pts. 25 cts, 1 pkt. 10 cts.

Rocket, Sweet, a Phlox-like plant blooming in early summer; very fragrant. Dwarf White and Dwarf Violet, each 5c; Tall White and Tall Violet, each 5c. All sorts, special mixture, 4 pts. 10c, 1 pkt. 5c.

Romneya Coulter, a beautiful, large white flower from California. 4 pts. 10 cts, 1 pkt. 3 cts.

Rudbeckia, purpurea, grows 5 feet high, with large, showy purple bloom; a choice sort. 4 pts. 15c, 1 pkt. 5c. Also R. Speciosa and R. Superba, each 5 cts.

Saxifraga, mixed, 4 pts. 15 cts, 1 pkt. 5 cts.

Saponaria Ocymoides splendens, a fine creeping plant; a mass of lovely pink, June 1. 4 pts. 10c, 1 pkt. 3c.

Scabiosa Caucasia, mixed, a fine, showy, hardy perennial; makes a fine clump. 4 pts. 15 cts, 1 pkt. 5 cts.

Scilla Peruviana, mixed colors, 4 pts. 15c, 1 pkt. 5c.

Scutellaria, mixed, 4 pts. 15c, 1 pkt. 5c.

Sedum, hardy succulent plants, clusters of small flowers. Mixed colors, 4 pts. 15c, 1 pkt. 5c. Also Maximowiczii, yellow, 5c.

Sidalcea, showy and handsome perennial; flowers on tall stems; very pretty. Mixed, 4 pts. 15 cts, 1 pkt. 5 cts.

Stock, Brompton, spikes of lovely, fragrant double flowers. Mixed colors, 4 pts. 15 cts, 1 pkt. 5 cts.

Silene Orientalis compacta, very showy branching plants 18 inches high; flowers small, in big clusters, long-blooming, and very pretty.

Silphium laciniatum, Compass plant, 4 pts. 15c, pkt. 5c.

Solidago, the Golden Rod, mixed, 4 pts. 15c, 1 pkt. 5a.

Spirea Aruncus, Goat's Beard, 4 pts. 15c, 1 pkt. 5c.

Stenactis speciosa, blue, 4 pts. 15c, 1 pkt. 5c.

Thalictrum, has pretty foliage and graceful stalks of pretty flowers; likes a moist, shady place. 4 pts. 15c, 1 pkt. 5c.

Trachelium, grows a foot high, with small, pretty flowers in clusters; a good perennial. 4 pts. 10c, 1 pkt. 5c.

Thymophylla filifolia, 4 pts. 15c, 1 pkt. 5c.

Tradescantia Virginica, a spring-blooming plant; flowers mostly blue, pink and white. Mixed, 4 pts. 10c, 1 pkt. 3c.

Tritoma, a summer-blooming plant known as Red-hot poker; flame-colored, in dense spikes. 4 pts. 10 cts, 1 pkt. 3 cts.

Trifolium rubens, Red Clover, 4 pts. 15c, 1 pkt. 5c.

Trollius, Globe Flower, a beautiful golden yellow spring-blooming plant. Mixed, 4 pts. 15 cts, 1 pkt. 5 cts.

Tulip, mixed, Venidium fuzas, Verbena Venosa, Verastrum Nigum, each, 4 pts. 15 cts, 1 pkt. 5 cts.

Tunica Saxifraga, a thick-foliaged low hardy plant prized for an edging; bears pretty rosy flowers throughout the summer. 4 pts. 10 cts, 1 pkt. 3 cts.

Verbasum, the stately and attractive Mullein; big spikes of beautiful yellow flowers; Oriental and Pannosum, each 5 cts. Mixed, 4 pts. 10 cts, 1 pkt. 3 cts.

Veronica spicata, grows a foot high; showy flowers in spikes; mostly blue. Mixed, 4 pts. 15 cts, 1 pkt. 5 cts. V. Gentianoides mixed, same price.

Vittadenia, a hardy composite of spreading habit; useful as a border plant. 4 pts. 15 cts, 1 pkt. 5 cts.

Viola, sweet-scented Violet; blooms freely in the spring; flowers mostly blue and white. Choicest sorts mixed, 4 pts. 10 cts, 1 pkt. 5 cts.

Wahlenbergia (Hydrocotys), mixed, 4 pts. 10c, 1 pkt. 3c.
Part III—Seeds of Choice Window Plants.

Those who succeed with the common annuals will find such pot plants as Abutilons, Asparagus, Carnations, Cinerarias, Cyclamen, Geraniums, Lantanas, Heliotrope and Primroses of easy culture from seeds. Achimenes, Begonias, Gloxinias, Gesnerias and the like have much smaller seeds, and the plantlets require more skill in handling. I supply full cultural directions with the seeds, however, and any careful person may expect good success by following the instructions on sowing and after-culture.

Abutilon, New Hybrids.

Special Mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

The New Compact varieties of Hybrid Abutilon are superior pot plants at the North, and fine shrubs bedded out at the South. They bloom freely and almost continuously, the flowers being bell-shaped, drooping upon a long, slender stem. The plants are bushy and easily grown as a Geranium. I offer the following choice colors:

Pure White ... 5 | Bright Red .... 5 | Salmon Rose ... 5 | Deep Yellow ... 5

Special Mixture, all colors, 4 pkts. 10 cts, 1 pkt. 3 cts.

Mr. Parke—I raised six plants of Abutilon from the 3-cent packet of seeds. Two began blooming within two months old, one bearing orange-colored bells, and one lemon-colored, turning to white, having an odd appearance beside the bright yellow buds. Another has blossomed lately with dark orange flowers veined red, and very pretty. I have three more yet to bloom. None are over a foot high.—Mrs. Mabel Bentley, Redwillow Co., Neb., Dec. 15, 1896.

Acacia in Variety.

Special Mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

The Acacias are decorative trees or shrubs, beautiful in foliage as well as flowers, and of easy culture. In the South they are hardy. A. Lophantha (see page 5) is known as Fern tree, because of its elegant frond-like leaves. A. Dehnhutia is the Silver Wattle; A. Decurrens the Asparagus Tree. A. Cultriformis, A. Farnesiana and A. Armata are popular sorts. Separate, 3 cts. per pkt. Special mixture, all sorts, 4 pkts. 10 cts, 1 pkt. 3 cts.

Mr. Parke—I have two Acacias grown from your seeds, which are admired by all who see them. They are beautiful as pot plants, and increase in beauty as they grow in size.—Mrs. G. S. Shattuck, Yates Co., N. Y., Dec. 12, 1896.

Mr. Parke—One of my finest plants is an Acacia Lophantha raised from your seeds. It is a Fern-like tree.—Miss Pearl Barr, Hancock Co., IL.

Mr. Park—I think my Acacia Lophantha the most beautiful plant I ever saw.—Mrs. G. B. Warren, Co., O.

Achimenes, Superb New Hybrids.

Special Mixture, 4 pkts. 10 cts, 1 pkt. 3 cts.

Many persons prize the Achimenes for summer-blooming as highly as they do Gloxinias, and as they are even more easily raised from seeds than Gloxinias I take much pleasure in offering a superb strain of the new hybrid varieties, in all the rich colors. The plants are fine for pots and baskets, and become a mass of Gloxinia-like flowers from white to rich crimson and royal purple. Bloom profusely fill winter.

Mr. Park—Never did I grow a plant that gave me so much satisfaction as your Achimenes. They abundantly repay one for the little labor required in caring for them.—Mrs. G. B. Woolsey, Caldwell Co., Mo.

Mr. Parke—From a 3-cent packet of your Achimenes seeds I raised twenty of the finest plants you would wish to see.—Mrs. J. H. Denny, Hillsdale Co., Mich.

Begonias in Splendid Variety.

Special Mixture, all sorts, 4 pkts. 10 cts, 1 pkt. 3 cts.

Begonias are an important class of flowering plants for pots in windows or sheltered beds on the lawn. The plants bloom continuously for months, and while showy in flower they are equally attractive in foliage. They are easily cared for and are sure to bloom. The tuberous sorts bloom mostly in summer, and the fibrous-rooted ones in summer and winter.

Tuberous-rooted Begonias. Fibrous-rooted Begonias.

Bright red .... 5 | Bright pink .... 5 | Bijou ..... 10 | Semperflorens, white 10
Bright yellow ..... 5 | Pure white ..... 5 | Schmettig ..... 10 | Semperflorens, red ... 10
Bright scarlet ..... 5 | Bright carmine ..... 5 | Anna Regina 10 | Bedding Queen ... 10
Bright orange ..... 5 | Bright rose ..... 5 | Rex ..... 10 | Gruells, mixed ... 10
Double mixed, 25c. Single mixed, 4 pts | Erfordia ..... 10 | Mixd 4 pts. 10c 1 pkt 3
10 cts, 1 pkt .......................... 3 | All above are good for beds and pots.

Mr. Park—I raised sixty fine plants from a 3-cent packet of your Fibrous Rooted Begonia seeds. The flowers shaded from pure white to dark red, with variegated foliage. I have ten different shades in bloom now. They are greatly admired by all who see them.—Mrs. Cynthia Duncan, Scott Co. Ky., Dec. 9, 1903.

Mr. Parke—I raised so many plants from a 3-cent packet of your Begonia seeds, that I supplied all my neighbors and friends, and had more than I wanted.—Mrs. H. B. Hefner, Braxton Co., W. Va., Dec. 7, 1904.
Arabia, (see preceding page). Mxd, 4 pkts. 10c, 1 pkt. 3c
Achimenes, (see preceding p), Mxd, 4 pkts. 10c, 1 pkt. 3c
Agapanthus umbellatus, the African Lily; blue and white flowers in big clusters. Mixed, 4 pkts. 10cts., 1 pkt. 5cts.
Agatha, the blue Paris Daisy; a charming winter and summer-blooming pot plant, easily grown, sure to bloom. 4 pkts. 10cts., 1 pkt. 3cts.
Agave Americana, the Century Plant; plain and striped foliage. Mixed, 4 pkts. 15cts., 1 pkt. 5cts.
Angelonia, grows eight inches high; lovely, fragrant flowers in spikes; easily grown, blooms soon, and fine for pots. 4 pkts. 10cts., 1 pkt. 3cts.
Anomathoea Cruenta, the Scarlet Freesia; lovely scarlet flowers. 4 pkts. 10cts., 1 pkt. 3cts.
Anthericum Lilaeum, St. Bruno’s Lily; upright racemes of pure white, fragrant flowers. 4 pkts. 15c, 1 pkt. 5c.
Anthericum Liliago, St. Bernard’s Lily, free-blooming, similar to above, but smaller flowers. 4 pkts. 15c, 1 pkt. 5c.
Anthericum. Special Mixture, 4 pkts. 15cts., 1 pkt. 5cts.
Antigonon Leptopus, a lovely, easily-grown vine; big clusters of carmine flowers; winter in cellar at North; easily grown from seeds. 4 pkts. 10cts., 1 pkt. 5cts.
Arabis, white flowers in clusters. 4 pkts. 10cts., 1 pkt. 3c.
Ardisia crenulata, a fruit-bearing pot plant; scarlet fruit. 3 pkts. 25cts., 1 pkt. 10cts.
Asparagus, lovely climbing and basket plants, also pot plants; easily started from seeds; prized for their exquisite foliage. I supply the following: Plumosus Nanus, Sprengeri, Decumbens, Deflexus, Plumosus robustus, Acutifolius, Verticillatus, each sort, 5c, per pkt.; or all in mixture, 4 pkts. 10cts., 1 pkt. 3cts.
Asclepias atrosanguinea, red. 4 pkts. 10cts., 1 pkt. 3c.
Azalea Indica, mixed, 3 pkts. 25cts., 1 pkt. 10cts.
Begonia, Rex, mixed, 3 pkts. 25cts., 1 pkt. 10cts.
Bocconia, Plume Poppy, hardy, 4 pkts. 15cts., 1 pkt. 5c.
Browallia Speciosa, Giant, 4 pkts. 15cts., 1 pkt. 5cts.
Cactuses, easily raised from seeds. Give them a trial. I supply mixed seeds of Cereus, Echinocactus, Echinocereus, Echinoopsis, Epiphyllum, Mammillaria, Opuntia, Phyllocactus, each 10 cts. per pkt.; all sorts mixed, 3 pkts. 25cts., 1 pkt. 10cts.
Caladium. Fancy, mixed, per packet 25cts.
Campanula, fragilis, garganica, etc., mixed, pkt. 5cts.
Centaurea Diamond, the best, 4 pkts. 15c, 1 pkt. 5c.
Chrysanthemum frutescens, white, 4 pkts. 15c, 1 pkt. 5c.
Veitchi, finest autumn sorts mixed, 4 pkts. 15c, 1 pkt. 5c.
Cineraria Maritima, Dusty Miller, 4 pkts. 15c, 1 pkt. 5c.
Cineraria hybrida (page 53), mxd. 4 pkts. 10cts., 1 pkt. 5cts.
Cineraria fragrantissima, 3 pkts. 25c, 1 pkt. 10c.
Cianthus Dampieri, the Glory Pea, a lovely vine for dry, hot, sandy soil. 4 pkts. 15cts., 1 pkt. 5cts.
Funicens, Parrot’s Bill, scarlet, freely produced; half-hardy climber. 4 pkts. 15cts., 1 pkt. 5cts.
Hybrid Calceolaria.—These easily-grown but much neglected window plants are, in their improved form, as beautiful as Orchids, the varieties being of many superb colors, and often spotted, blotched and striped in the most pleasing and picturesque manner. The seeds are small, but as easily cared for as those of the Gloxinia, and the only insect likely to trouble them is Aphis, which can be effectually kept down by sprinkling tobacco dust upon the soil in the pots, and dusting it upon the leaves when infested. I offer seeds of the very best strain in cultivation. Started in early spring or early summer the plants will bloom the following winter and make an elegant, novel display in the window. (See engraving above.)

Large-flowered Tigred, Spotted. 5 | Painted and Margined 5 | New Dwarf, Mixed. 5
Self-colored, Mixed 5 | Fancy Striped 5 | Special mixture, 4 pkts. 10c, 1 pk. 3

Mr. Park.—I have six Calceolaria plants I raised from a 3-cent packet of your seeds. Some of them have bloomed, and are beautiful.—Mrs. Ida Geissel, Spokane Co., Wash., Dec., 1906.

Winter Carnations.—For winter-blooming I offer a strain of Carnations easily grown from seeds, and bearing large, double, richly-scented flowers of all the choice shades of white, rose, red and yellow, as well as variegated. The seeds are sown in the spring, and when large enough the young plants are bedded out in a sunny spot in the garden, kept well watered during dry weather, and the blooming shoots pinched out as they appear. In August or early September they are potted and removed to the window or conservatory, where they will bloom freely throughout the winter. Avoid the common garden Carnations for the window. (See engraving above.)

Finest Mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

Chrysanthemum, Japanese.—It is not commonly known that the popular Chrysanthemums exhibited at fall shows may be successfully raised from seeds. If started early in spring the plants will bloom in the autumn. The seeds germinate promptly and the plants should be given a shady place and plenty of water to promote their development during the summer. Keep them in pots, shifting as often as the roots begin to crowd. The flowers are very double and of many shades of white, yellow, red and rose. I offer first-class seeds. (See engraving above.)

Finest Mixed, 4 pkts. 10 cts., 1 pkt. 3 cts.

Mr. Park.—Last spring I got a 3-cent packet of your Autumn Chrysanthemum seeds and raised several plants in a box. In autumn I put the box in the window, and all bloomed. The flowers were very double, and each plant showed a different color. I never spent 3 cents before that yielded such good returns.—Mrs. F. A. Smith, Jasper Co., Ia., Dec. 11, 1906.

The Large-Flowered Cineraria Hybrids are among the most generous and beautiful of window plants. None are more attractive when in bloom, and few are more easily grown. Seeds start readily, and when sown in the spring the plants bloom the following winter. Put tobacco siftings about the plants to avoid green fly. Shift into larger pots as the plants grow and shade at mid-day. I offer seeds of the finest strains.

Pure White 5 | Rose-color 5 | Rich Crimson 5 | Striped 5 | Blood Red 5 | Stella, new 5

Special Mixture of above, 4 pkts. 10 cts., 1 pkt. 3 cts.

Large-flowered Dwarf, beautiful, free-blooming. I offer the finest quality. Mixed Chalceest mixed colors, 4 pkts. 15 cts., 1 pkt. 5 colors, 4 pkts. 15 cts., 1 pkt. 5

Polyantha Stellata, new.—The plants are tall, branching, and bear a mass of rich-colored, graceful bloom; very fine. 4 packets 10 cents, 1 packet 3 cents.
Coleus, New Fancy-Leaved.
Special Mixture, all sorts, 4 pkts. 10 cts., 1 pkt. 3 cts.

The new Coleus hybrids are grand foliage plants for either pots or beds. They are very easily raised from seeds, and the leaves are of many shapes and sizes, and all richly colored, blotched, veined and marbled. I can supply the choice kinds separately, or all in special mixture. My seeds are saved by skilful Coleus specialists in Germany, and imported. There are none better, and plants from them will be a revelation to those who know only the older Coleus. All mixed, 4 pkts. 10c., 1 pkt. 3c.

Cyclamen, New Giant-Flowered.
Special Mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

The Cyclamen is a very satisfactory plant for the window, blooming well in winter and showing exquisite, attractive flowers in rich and beautiful colors. No plant is easier to start from seeds, and bloom can be expected in eighteen months from sowing. The seeds require a month to start. I offer a superb strain of the finest large-flowered varieties in all the choice colors. My mixture contains all the colors well proportioned.

White with red eye .......... 8 James Prize, fragrant .......... 8
Dark red .................. 8 Pure white .................. 8
Fine rose .................. 8 Dark blood red .............. 8
Dark carmine ............. 8 Mixed, 4 pkts. 10 cts., 1 pkt. 3 cts.

Papilio, the New Butterfly or Fringed Cyclamen: white, rose, red, and white with red eye, each 10 cts., mixed, per pkt. 10 cts., 3 pkts. 25 cts.

Mr. Park:—I raised five Coleus plants from a 3-cent packet of your seeds, and all bloomed from 15 to 20 flowers on each. They were very satisfactory.—Mrs. M. M. Floyd, Bond Co., Ill., Dec. 10, 1896.

Cyperus—Umbrella Plant.
Finest Mixture, 4 pkts. 10 cts., 1 pkt. 3 cts.

One of the most desirable foliage plants for the window, growing several feet high, dense, attractive and even more graceful than a Palm. Water well while growing; avoid root-crowding. Alpinia, the old sort, see engraving 6; Papyrus, very handsome sort . . . . 6 Mr. Park:—Of the 3-cent packet of Umbrella Plant I think every seed grew. I had plants for myself and neighbors. One growing in a 6-inch pot is over four feet tall, and over a yard across. It is in very rich soil, fed with liquid sheep manure. The pot stands in a jardiniere half filled with water.—Mrs. Wallace Duff, Ont., Can., Jan. 31, 1906.

Francoa Ramosa.
4 pkts. 10c., 1 pkt. 3 cts.

A greenhouse perennial of easy culture, two feet high, fine lyrate foliage, pure white flowers freely produced on long, branching spikes. Sown in April plants will bloom freely the next season. Do well bedded out in summer, and can be wintered in any frost-proof room.

Francoa Ramosa is a very handsome hardy or half hardy perennial plant. It has white flowers borne freely in July and August.—Dictionary of Gardening.

Jerusalem Cherry.
4 pkts. 10 cts., 1 pkt. 3 cts.

A choice, easily-grown window plant. Cherries rich orange and scarlet, odd and beautiful.

Mr. Park:—Every flower lover ought to have the Jerusalem Cherry. Mine, 27 inches high, is covered with bloom and fruit. It is very showy and greatly admired. Fruit remains on till Christmas.—C. Ruth, Ont. Can.
Geranium, Finest Zonale.
Special Mixture, all colors, 4 pkts. 10 cts. 1 pkt. 3 cts.

Zonale or Fish Geraniums are as easily grown from seeds as Zinnias, and if the strain is good the flowers will be large, of the finest shades from white to crimson, and produced in large clusters. Seedlings are thrifty, and often novelties will be found among them. I offer seeds of a gilt-edge strain, and those who sow of them will be pleased with the result. Mixed, 4 pkts. 10 cts. 1 pkt. 3 cts.

Other Geraniums.
Fancy Pelargonium, mixed. 10
Orchid or Bletched. 10
Golden Tricolor. 10
Bronze-leafed. 10

Mr. Park: Last April I sowed a 3-cent packet of Zonale Geranium seeds and I raised twenty-five thrifty plants, no two alike, always a difference both in foliage and flowers. To-day, December 8, some measure twenty inches in height, and nearly as wide across. Leaves measure five and one-half inches across. The plants began blooming in July. Some were slow coming up, and are nice little plants now. Most of them were up in time to bloom out of doors.—Mrs. R. E. Dexter, Alexander Co., Ill., Dec. 8, 1906.

Gloxinias, New Large-flowered Hybrids.
Special Mixture, all varieties, 4 pkts. 10 cts. 1 pkt. 3 cts.

Gloxinias are easily grown from seeds, and bloom the first season if started early. Seedlings are thrifty in growth and bear splendid, large flowers, if the seeds are of a good strain. I take pleasure in offering seeds of the finest improved race, and my special mixture contains the seeds in fine proportion. They will delight those who grow them.

Defiance, rich scarlet. 5
Mont Blanc, pure white. 5
Cowlesias, blue. 5
Fire King, rich red. 5
Tigrina, fine spotted. 5
Glend Cyclops. 6

Mr. Park: I have fourteen lovely Gloxinia plants from a three-cent packet of your seeds.—Mrs. Ida Geisselman, Spokane Co., Wash., Dec. 4, 1906.

Grevillea Robusta Pyramidalis.
Special Mixture of all varieties, 4 pkts. 10 cts. 1 pkt. 3 cts.

Grevillea Robusta Pyramidalis, an easily-grown foliage plant sometimes called Silk Oak, because of its silvery foliage; leaves serrated and gracefully arching; plants of pyramidal form; grows rapidly, and is prized highly as a pot plant by many window gardeners. I offer the improved variety.

Mr. Park: My Grevillea Robusta from your seeds is perfect in shape. It is very striking with its beautiful, finely-cut, drooping leaves, and attracts the attention of everyone.—A. E. Story, Clay Co., La.

Heliotrope, New French Giant.
The New French Large-flowered Heliotropes have become very popular, and the older varieties, with small flowers in small clusters are being discarded. Plants are easily raised from seeds, and are healthy and free-blooming. They bloom well either in pots or beds; like partial shade.

White....5 | Violet....5 | Light Blue....5 | Deep Blue....5

Special Mixture, 4 pkts. 10 cts. 1 pkt. 3 cts.
Mr. Park: Your large-flowered Heliotropes are fine. I raised several beauties from a half packet of seeds. I am well pleased.—Mrs. W. S. Lowell, Macomb Co., Mich.

Lantana, New Dwarf.
Finest mixed, 4 pkts. 10 cts. 1 pkt. 3 cts.

Seedlings of Lantanas become strong plants and bloom as freely as plants grown from cuttings. The New Dwarf sorts are prized for pot culture, and will bloom in the window in winter. I offer fresh seeds of the best strains. Mixed, 4 pkts. 10 cts. 1 pkt. 3 cts. Mixed seeds of old tall sorts, same price.

Mr. Park: I bought a packet of Dwarf Lantana seeds from you and raised seven plants; four different colors. They bloomed on till after frost. Everyone that they were beautiful. I am going to try them again next year.—Mrs. R. O. Cate, Orange Co., N. C.

Mr. Park: No flower has given me so much satisfaction as Lantanas from your seeds. They bloom continuously, and sometimes show 10 or 20 clusters each.—May Preston, Douglas Co., Mo.
Lapageria Rosea, a beautiful greenhouse vine; flowers bell-shaped, of a fine rose color. 3 pkts. 25 ct., 1 pkt. 10 ct.

Laegerstroemia, Crape Myrtle, an elegant blooming shrub, hardy South, a pot plant North; 3 pkts. 25c, 1 pkt. 10c.

Lavatera Arborea, an easily-grown foliage plant; leaves silky-green with yellow blotches. 4 pkts. 15 ct., 1 pkt. 5 ct.

Libonia Floribunda, a winter-blooming plant; foliage rich green; flowers scarlet. 3 pkts. 25 cts. 1 pkt. 10 cts.

Lobelia, Barnard's Perpetual, a lovely basket plant, blooming well summer and winter; blooms profusely; blue with large white eye. 4 pkts. 10 ct., 1 pkt. 3 cts.

Mr. Park: I raised Barnard's Lobelia last year, and had a basketful of it suspended from the veranda, where it had plenty of sunshine. I never saw each deep rich blue flowers or such a mass of bloom. In autumn I removed the basket to a south window.—Ella Outhouse, Nova Scotia, Can., December 7, 1906.

Lophospermum Scandens, a robust vine, useful for a trellis; leaves soft green, flowers rosy. 4 pkts. 10 ct., 1 pkt. 3 c.

Malva Capensis, a showy plant bearing rosy lilac flowers in great abundance; good pot plants. 3 pkts. 25 cts., 1 pkt. 10 cts.

Mesembryanthemum, succulent plants with rich-colored flowers; like a sunny place. 4 pkts. 10 cts., 1 pkt. 3 cts.

Melianthus Major, an ornamental foliage plant 4 to 6 feet high, useful in sub-tropical gardening. 4 pkts. 15c, 1 pkt. 5c.

Mimoson a Spegazzini, a rare semi-tropical plant, highly praised; it has elegant foliage; deserves trial. 4 pkts. 15c, 1 pkt. 5c.

Musa Ensete, the big-leaved Banana; easily grown and an elegant decorative plant. 4 seeds 10 cts., 1 seed 3 cts.

Nerium, Oleander, a well-known pot shrub at the North, but hardy South. Mixed. 4 pkts. 10 cts., 1 pkt. 3 cts.

Nertera Depressa, Bead Plant; miniature, creeping; fruit the size of small peas, bright orange. 4 pkts. 15c, 1 pkt. 5c.

Nympheaea Cornuta, blue, easily grown, and one of the finest of Water Lilies. 4 pkts. 15 ct., 1 pkt. 5 ct.

Nicotiana Sanderi, the new Carmine Nicotiana; grows 18 inches tall, and is a lovely winter, as well as summer-blooming plant; of easy culture. 4 pkts. 10 cts., 1 pkt. 5 cts.

Passiflora, Passion Vine, start readily from seeds; flowers curious and handsome; Blue, Scarlet and White flowered, also red-fruiting. Each 5 cts. per pkt.; mixed, 4 pkts. 10 cts., 1 pkt. 3 c.

Pelargonium (Fancy Geranium), finest large-flowered varieties in superb mixture; easily grown, beautiful. Packet of 5 seeds, 10 cents; 3 packets 25 cents. (See Geranium.)

Phaseolus Caracalla, Climbing Snail Flower, from India; purplish, yellow tinged flowers. 4 pkts. 15 cts., 1 pkt. 5 cts.

Phormium, variegata, a stately foliage plant; striped sword-leaves. 4 pkts. 15 cts., 1 pkt. 5 cts.

Phygelius Capensis, a South African shrub; flowers scarlet on recurved stems; very pretty. 4 pkts. 15 cts., 1 pkt. 5 cts.

Puschkinia, Scilloides, a pretty bulbous plant; flowers white, striped rich blue; showy in spikes. 4 pkts. 15c, 1 pkt. 5c.

Polygonum Multiflorum, a handsome perennial; blooms early; hardy South. 3 pkts. 25 cts., 1 pkt. 10 cts.

Primula, Chinese Fringed, choice winter-bloomer, all colors. Mixed. 4 pkts. 10 cts., 1 pkt. 3 cts. (See preceding page.)

Physianthus Albens, a shrubby pot vine, bladder-like flowers; fine out-doors South. 4 pkts. 15 cts., 1 pkt. 5 cts.

Poinsettia Pulcherrima, a fine pot shrub; showy scarlet bracts in winter; hardy South. 3 pkts. 25 cts., 1 pkt. 10 cts.

Psidium or Guava (a fine fruit-bearing shrub). 4 pkts. 15 cts., 1 pkt. 5 cts.

Plumbago, Potentilla and Siebold's Primrose. Each, per packet 10 cents, 3 packets 25 cents.
The Magnificent New
FRENCH GIANT PRIMROSES.
Complete Mixture, 3 pkts 12 cts., 1 pkt 5 cts.

Giant Mallow-leaved Varieties.
Lady Randolph Churchill, pure white, the large flowers in splendid clusters; vigorous and free blooming; per packet .................. 5
Princess Louise, rosy white; an elegant, large-flowered kind, the plants showing a mass of attractive flowers; per packet .................. 5
Empress, blue; the flowers of large size, finely fringed plant symmetrical and profuse-blooming; pkt .... 5
Emperor, copper-color; very showy and handsome, in large compact trusses; plants of strong habit, bearing many trusses: per packet .................. 5
Marquis of Lorne, rose, very delicate and effective, plants covered with massive clusters; per packet 5
Soleil D'Empel, pure white, with dark brown stems and elegant foliage; one of the finest varieties; pkt 5
Defiance, rich bright red; one of the darkest and most striking of Primroses; showy, beautiful; pkt 5
Special mixture of the above mallow-leaved sorts, 3 packets 12 cents, 1 packet .................. 5
Complete mixture of Mallow and Fern-leaved sorts, 3 packets 12 cents, 1 packet .................. 5

Giant Fern-leaved Varieties.

Angelica, pure white, fringed flowers borne in showy trusses; foliage deeply lobed and feather-like; per packet .................. 5
Perfection, large and handsomely fringed flowers in fine trusses; pure white, very effective; packet 5
Cerules, a splendid variety; the flowers a well-defined blue, large and produce in superb trusses; per packet .................. 5
Cypreia, coppery rose flowers, odd in color and quite showy, a handsome, free-blooming sort; packet 5
Leopoldi, pure rose, elegantly fringed both in foliage and flower; one of the best; per packet .................. 5
LaRose, very pretty light rose-colored flowers in fine clusters; foliage fringed and feathery; per pkt .... 5
Special mixture of above Fern-leaved sorts, 3 packets 12 cents, 1 packet .................. 5

The new strain of the Chinese Primrose developed in France is conceded by lovers of Primroses to be superior in vigor and symmetry of growth, while the flowers, borne in huge clusters, are giants in size, attractively fringed, and freely and continuously produced; and show a range of the most distinct and beautiful colors. The French are very successful cultivators of this class of plants, and in past years many very beautiful popular varieties have been brought out by specialists. The race here offered, it is to be hoped, surpasses all previous introductions, and I heartily urge all my friends to give this new race of Primroses a trial, believing that they will be pleased with the results. I am glad to be able to offer the seeds at so low a price, being fortunate to secure a fine stock from a specialist, at a special price. Finest mixed, 3 packets, 12 cts., 1 packet 5 cts.

The seeds of French Giant Primrose I offer are imported direct from the Primrose specialists in France who developed this splendid race of large-flowered varieties. I offer them with confidence believing that they will prove entirely satisfactory to my patrons. They are at least worthy of a trial.
Primrose, Improved Chinese Fringed.—I offer a splendid strain of Chinese Fringed Primroses, the flowers of great size, exquisitely fringed and ruffled, and embracing the widest range of the most beautiful colors. The plants are of vigorous habit, bloom profusely throughout the winter from spring-started plants, and are always satisfactory. No window plant grows and blooms better in the window, and the display of foliage and bloom is magnificent. You make no mistake in sowing seeds of my Improved Chinese Fringed Primroses here offered. See engraving above. I supply either Fern-leaved or Mallow-leaved varieties as follows:

Mallow-leaved:—White, Blue, Copper-color, Bright Red, Marbled, Mont-blanc, Striped, Purity, Bright Rose, Velvety Red, Pure White, Umbellata, Urania. Each 5 cents per pkt. All mixed, 4 pkts 10c, 1 pkt 5 cts.

Fern-leaved:—Crimson, Marbled, Punctata Elegansissima, Pure White, Red, Striped, Matabilia, Alba Rosea. Any variety separate 5 cents per pkt. All varieties mixed, 4 pkts. 10 cents, 1 pkt. 5 cents.

Mr. Park:—I have received no greater pleasure from any flowers than from two three-cent packets of your Improved Chinese Primroses, Mallow-leaf and Fern-leaf varieties. Some of the Fern-leaved sort with their delicate blossoms, looked like flowers of a purer world. One of the Mallow-leaved was especially handsome, the large center a delicate green, then a line of purest white, around this a fringed ruffle of bright pink. I have no hesitancy in recommending Park’s Primroses to my flower-loving friends. The seeds germinate well, and the plants are sure to bloom when given the required care.—Mrs. O. J. Conery, Blackhaw Co., Iowa, Dec. 11, 1866.

Primula Obconica Grandiflora.—The flowers are almost as large as those of the Chinese Primrose, are both plain and fringed in form, and are more profusely borne. As window plants these Primroses rival the Chinese sorts, while they are as readily grown from seeds. The engraving above does not exaggerate their beauty. Plants started in spring will bloom throughout the following winter, and often far into the summer. My seeds are of the finest large-flowered strains, and the mixtures are of surpassing excellence.

Large-Flowered, Plain:—White, Carmine, Lilac, Rose, Violet, Deep Red. Each pkt. 5 cents; mixed, 4 pkts. 10 cents, 1 pkt. 3 cents.

Large-Flowered, Fringed:—White, Lavender, Lilac, Rose, Oculata, also Double. Each pkt. 5 cents.

Large-Flowered, Plain and Fringed:—Special mixture of all varieties; 4 pkts. 10 cents, 1 pkt. 3 cents.

Mr. Park:—Too much praise cannot be given my plants of Primula Obconica raised from your seeds. The flowers are so dainty and beautiful.—Mrs. E. J. Bailey, P. Q., Canada.

Primula Floribunda Grandiflora.—The new Himalayan Buttercup Primrose improved; flowers golden, in whorls in great profusion; easily grown, a sure and continuous winter-bloomer; seedling plants will bloom in five or six months after started. 4 pkts. 10 cents, 1 pkt. 3 cents. See engraving above.

From Floral Magazine:—“Buttercup Primrose is a pot plant of unusual merit. It forms a rosette of veined foliage, and its numerous stems bear whorls of showy, yellow, fragrant flowers; blooms continuously in winter.”

Primula in Forbei.—The Baby Primrose, very free-blooming pot plant, blooming three months after the seeds start; flowers in fine clusters, rosy lilac, delicate and pretty; a choice window plant much admired; of easy culture. 4 pkts. 10 cents, 1 pkt. 3 cents.

Mr. Park:—I planted a packet of your seeds of Primula in Forbei in April and saved six plants, and now they are beauties—such dainty sprays of delicate flowers and buds. They are easily raised and greatly admired.—Mrs. William Walker, Ogles Co., Ill.

I can also supply Double Chinese Primrose, mixed, at 3 cents per packet; and Primula Cashmeriana, P. Elatior mixed, P. Verticillata, Poissoni, Siklimensis, Villosa, Farinoa, Auricula, Japanica, Viscosa, Floribunda and Officinalis, at 3 cents per packet.
Rhodochiton Volubile, an elegant Mexican Vine, 10 feet high; showy, blood-red flowers. 4 pkts. 15c, 1 pkt. 5c.

Rhododendron Pontica, a beautiful, cluster-flowered shrub from Asia Minor. Mixed colors, 4 pkts. 15c, 1 pkt. 5c.

Richardia Ethiopica, the well-known white Calla; 4 pkts. 15c, 1 pkt. 5c. Spotted-leaved and Nana same price.

Rivina humilis, a showy, fruit-bearing plant; racemes of scarlet berries; easily grown. 4 pkts. 15c, 1 pkt. 5c.

Ruellia tuberosa, a showy Acanthad, 8 inches high, bearing an abundance of carmine flowers. 4 pkts. 15c, 1 pkt. 5c.

Saintpaulia ionantha, the Usambara Violet; charming, everblooming pot plant. Mixed, 4 pkts. 15c, 1 pkt. 5c.

Salvia, Alfred Raguncenu, a semi-dwarf sort of S. splendens; very free-blooming; showy. 4 pkts. 15c, 1 pkt. 5c.

Santolina. a sweet-smelling composite known as Lavender Cotton; grows 2 feet high; hardy. 4 pkts. 15c, 1 pkt. 5c.

Saxifraga Cymbalaria, a neat, little pot plant of succulent habit; flowers yellow. 4 pkts. 15c, 1 pkt. 5c.

Schinus Molle, the California Pepper Tree; fine foliage, showy fruit. 4 pkts. 15c, 1 pkt. 5c.

Schizanthus Wisetontensis, a charming new pot plant; showy flowers, continuous-blooming. 4 pkts. 15c, 1 pkt. 5c.

Sidalcea, lovely bulbus plants. Mixed, 4 pkts. 15c, 1 pkt. 5c.

Sinningia Regina hybrida, Gloxinia-like plants; rosy flowers, showy. 4 pkts. 15c, 1 pkt. 5c.

Skimmia Japonica, a fine Japan shrub; flowers very sweet-scented; fruit bright red, showy. 4 pkts. 15c, 1 pkt. 5c.

Smyrnium, a beautiful pot vine; elegant green sprays for cutting; rich-scented bloom. 4 pkts. 10c, 1 pkt. 5c.

Solanum Seaforthianum, an easily grown vine with big clusters of blue flowers; 10 feet high; will grow out-doors in summer. 4 pkts. 10c, 1 pkt. 5c.

Stevia serrata, a pot plant bearing small, white flowers profusely during winter. 4 pkts. 10c, 1 pkt. 5c.

Streptocarpus, a pot plant of great beauty, allied to Gloxinia. Blue, Red, Lavender and White, separate, 5c per pkt. Mixed, 4 pkts. 10c, 1 pkt. 5c.

Sutherlandia, a South African shrub, two feet high; flowers scarlet, in axillary racemes. 4 pkts. 15c, 1 pkt. 5c.

Swainsonia, lovely pot vines; flowers of various colors, in clusters; very pretty. 4 pkts. 15c, 1 pkt. 5c.

Tecoma, an excellent pot plant; flowers large, rich yellow, beautiful. 4 pkts. 15c, 1 pkt. 5c.

Tecsonia Volxemii, a handsome vine; showy flowers. 4 pkts. 15c, 1 pkt. 5c.

Thunbergia grandiflora, blue, large-flowered, very handsome. 3 pkts. 25c, 1 pkt. 10c.

Torenia Grandiflora, very beautiful, easily grown pot plants; grow a foot high, branching and blooming profusely. Blue, white, yellow, and white with pink, each 5c per pkt.; mixed, 4 pkts. 10c, 1 pkt. 5c.

Tropaeolum pentaphyllum, a fine pot Nasturtium with scarlet flowers. 4 pkts. 15c, 1 pkt. 5c.

Tydæa, Gesneraceous plants with pretty foliage and showy flowers. Mixed, 4 pkts. 15c, 1 pkt. 5c.

Umbilicus, succulent plants bearing clusters of small flowers. 4 pkts. 15c, 1 pkt. 5c.

Veronica, greenhouse varieties, finely blooming pot plants. 4 pkts. 15c, 1 pkt. 5c.

Vinca rosen, grows 1 ft. high; foliage, rich green; flowers, Philadelphica, very attractive; blooms freely summer or winter. White, Rose, Eyed, each, 5c per pkt. Mixed, 4 pkts. 10c, 1 pkt. 5c.

Wigandia caracasana, a pretty, sub-tropical foliage plant; grows four feet high. 4 pkts. 15c, 1 pkt. 5c.

Zauschneria grandiflora, the California Fuchsia; charming scarlet blooms. 4 pkts. 15c, 1 pkt. 5c.

Your Vegetable Garden for 15 cents.—For 15 cents I will send Park’s Floral Magazine a year and 10 packets of best Vegetable Seeds, enough for a small family garden. (See offer in Magazine.) Address GEO. W. PARK, La Park, Lancaster County, Pa.

At My Risk.—Remit at my risk by express, Order, Telegraph, or Registered Letter.
Splendid Summer-Blooming Bulbs.

The bulbs I offer are all first-class. All are of the larger sizes, and should not be classed with the small, inferior stock advertised by some firms at a low price. All are delivered small, guaranteed, at the prices quoted.

Amaryllis, Agelthra strain, the largest Amaryllis; flowers like A. Johnsoni, but larger, and showing many rich colors and variegations, fine white to crimson. Each, large bulbs, 40 cents, per dozen, $4.00.

Johnsoni, the well-known sort, 30 cents each, $3.00 per dozen.

Begonias, Giant Tuberous, White, Scarlet, Crimson, Yellow, Pink, Rose and Orange; large tubers, over 5 inches in diameter, $6.50 to $7.50 per 75 each, or the lot of seven tubers for 35 cents. Smaller tubers, about three times in circumference and smaller, give each, 25 cents, for the lot of five for 60 cents. Smaller tubers, 6 cents each; collection of 5 tubers, different colors, 25 cents.

I offer only the fine large, thoroughly-ripened tubers grown for me by Belgian specialists and importers, the finest of the fancy tubers. Let me add, none of the finest, largest flowers of all the new and choicest colors. There are none better. Give fibrous, sandy soil, protection from wind, and plenty of water from the time the plants start to shoot upward sparingly until growth begins, and avoid chills. They are splendid pot plants for the window, conservatory or porch. They are hardy. When grown in the open ground, give plenty of root room and protect from noon-day sun.

Caladium, fancy, finest varieties, named, 35 cents each.

These are among the richest of foliage plants. The tubers are naturally small, but each produces many elegantly shaped large leaves during summer. They bloom sparingly until growth begins, and avoid chills. They are splendid pot plants for the window, conservatory or porch. They are hardy. When grown in the open ground, give plenty of root room and protect from noon-day sun.

Caladium esculentum, large bulbs, 15 cents each, $1.50 per dozen. Twenty-five-cent sorts, in five fine varieties, proportioned for a circular border, six feet in diameter, with directions for planting and cultivating, only 25 cents.

Makes a showy bed when grouped in a sunny place. Water freely while growing. This is the secret of success. Canna flowers.

Diancera spectabilis, 15 cents each, $1.50 per dozen.

A handsome prairie plant, bearing long racemes of charming pink, heart-shaped flowers; sure to bloom. 20 cents each, $2.00 per dozen.

Canna, New Gladiolus-flowered, fine sorts, named, 10 cents each, $1.00 per dozen. Twenty-five-cent sorts, in five fine varieties, proportioned for a circular border, six feet in diameter, with directions for planting and cultivating, only 25 cents.

Makes a showy bed when grouped in a sunny place. Water freely while growing. This is the secret of success. Canna flowers.

Double Dahlia, fine named varieties, White, Rose, Scarlet, Crimson, Purple, Variegated, etc., 15 cents each, $1.50 per dozen.

Among the most showy and beautiful of summer flowers, of exquisite form and texture, and very durable.

Double Dahlia, Ernest, Glass; a grand Cactus Dahlia, immense, perfectly double flowers, rich velvety purple, very graceful, and continually and freely produced. Price, 15 cents each, $1.50 per dozen.

Eustoma punctata, a handsome bulbous plant bearing huge spikes of greenish-white, deliciously fragrant flowers during summer. Treat as Gladiolus.

Price, 35 cents each, $3.00 per dozen.

Galtonia (Hyoscyamus) candida, Rose, called Giant Cape Hyacinth, 5 cents each, 50 cents per doz.

A handsome bulbous flowering dwarf, with a huge flower scope, 3 feet high; in summer, bearing large heads of fragrant flowers. Plant in a raised bed of sandy soil.

Gladiolus, Giant hybrids, Super Beautiful mixed, the mixture contains all the choice colors and markings in fine proportion, and the bulbs are of first size. They will flower two or three times—the flowers and flowers often marvelous in size and beauty. I offer the larger mixture offered by anyone. Price, one bulb 3 cents, 5 cents each, 12 bulbs, 10 cents; 100 bulbs, $1.00, mailed. By express not paid, 10 cents per hundred, $1.00 per thousand. I can also supply the Giant Childsii in richest mixture at same price.

Gladiolus, Second size, but sure to bloom. I can supply the smaller bulbs of the above splendid mixtures as follows: 1 bulb 2 cents, 6 bulbs 10 cents, 12 bulbs 15 cents, or $1.00 per hundred, mailed. By express, not paid, 70 cents per 100, $6.50 per 1,000.

Gladiolus, Johnsoni hybrids, the very finest mixture of all Gladiolus. The flowers are of the largest size, the colors the most distinct and varied, and the markings the finest. I offer a fine mixture, embracing the latest creations of the hybridist as well as the best of the earlier sorts—shades of White, Red, Yellow, Pink, Blue, and Hybrid, (so-called) Blue, in the richest variations. Price, 5 cents each, 50 cents per dozen, $3.00 per hundred, mailed. By express, not paid, 35 cents per 100, $3.00 per 1,000.

Gladiolus, a fine mixture, 25 cents each, 50 cents per dozen.

These are imported from a celebrated Belgian grower, and are fine large tubers of the finest European strains. They are magnificent summer flowers of easy culture. Grow in pots, in partial shade, and in a place sheltered from wind.

Hemerocallis, Java, the Early-flowering Lemon Lily, and H. Thunbergii, the late-flowering Lemon Lily, both growing two feet high; also H. Sieboldii, the early-flowering sort, growing four feet high. Price, 10 cents each or $1.50 per dozen. All are hardy and beautiful.

Iris, Florivinas white, also purplish-blue, each 10 cents, $1.00 per dozen.

Very hardy, showy, richly-scented members of the Iris family. The white is especially desirable for cemetery planting. Both are elegant in the flower border.

Ilium, the Galb-Lily of Japan. Large bulbs, each, 20 cents, 50 cents per dozen.

Smaller bulbs, 15 cents each, $1.50 per dozen.

The finest of Lilies, easily grown and sure to bloom. Hardy, and much desired for lilies and borders.

Lilium, alborum, the Yellow or Lily Lilium, 5 cents each, 50 cents per dozen.

Lily of the Valley, 5 cents each, 50 cents per dozen.

Forth's New Giant, best for garden culture; 5 cents, 50 cents each.

Beautiful and forming racemes of bells. White, deliciously fragrant. Fine for cemetery. Hardy, will thrive in dense shade.

Malva, 5 cents each, 50 cents per dozen.

A beautiful, rapid-growing vine. Foliage massive, flowers white, sweet, and very abundant in fall.

Montbretia, crocosmioides, a Gladiolus-like plant, bearing spikes of bloom in summer and autumn. Same care as Gladiolus. 5 cents each, 50 cents per dozen.

Paeonia, or Chinese Pink, Red, and White and mixed, 15 cents each, $1.50 per dozen.

Splendid large flowers. The plants are hardy and increase in size each year from year to year.

Tigridias, 5 cents each, 50 cents per dozen. Colors Red, Yellow and White. Large, showy, shell-like flowers, the centre tinged or spotted. Grow a foot high, and a clump of them always shows flowers.

Trionum, Coralinus, a fine everblooming dwarf, hardy variety, 15 cents each, $1.50 per dozen.

Tuberoses, Double, Excelsior Pearl, large bulbs, 4 cents each, 40 cents per dozen; smaller, but blooming size, 3 cents each, 25 cents. Spikes of double, exceedingly fragrant flowers in autumn. A favorite flower for beauty and perfume.

Water Iris, Blue, White, and Pink. Each, 10 cents, $1.00 per dozen. Half hardy bulbs.

OTHER BULBS, also Hardy Bulbs, as Tulips, Hyacinths, etc., see my Bulb Catalogue, issued in Autumn. Free to patrons. Address

B. W. PARK, LaPark, Pa.
THE CHOICEST...ROSES...

PRICE—Fine, well-rooted plants, Mailed, 10c. each; $1.00 per dozen.

I will mail a plant of any variety for 10 cents, or 13 plants, your selection, for $1.00. The whole lot, 38 plants, with seven additional Roses in the hundred, if ordered mailed, prepaid, or expressed with soil or not prepaid, for only $3.00. They will be mailed latter part of April or early in May, guaranteed to reach you safely. Special: For $1.00 I will mail a garden Rose collection, my selection, 16 plants of the best varieties for bedding. I have a large variety of Roses and can supply many sorts not here described. My plants are strong, well-grown, and sure to please the purchaser.

THE BEST FOUR ROSES

Are White Maman Cochet, Pink Maman Cochet, Helen Gould (rich crimson), and Etoile de Lyon (rich yellow). Whatever Roses you get, these four should be first on your list. I will send the four, fine, well-rooted plants, for 25 cents. They are described as follows:

Maman Cochet, pink, rosy pink with silvery shading; very large pointed bud, immense open flower, exquisitely firm and fragrant; splendid for beds, and unsurpassed for pots; certainly the queen of pink Tea Roses.

Maman Cochet, white, a sport from pink, Maman Cochet, having all of its' good qualities, but with white petals, a rosy pink rose.

Helen Gould, intense carmine-crimson; buds long, flowers full double, borne in great abundance all the season; excellent for beds and fine for pots.

Etoile de Lyon, deep, golden yellow, buds and flowers of enormous size, freely and continuously produced. The best Yellow Rose for general cultivation.

You can make no mistake in buying these four Roses. Altogether they are unsurpassed in beauty of bud, flower, fragrance, free, continuous blooming, vigor, foliage and hardiness. Only 25 cents for the lot. If you have any of them select substitutes from the list below.

CHOICE HARDY EVERBLOOMING ROSES.

**Bessie Brown**, white, faintly flushed pink; deep and full, with large, broad petals, beautiful.

**Don Sleen**, rose crimson, delightfully fragrant, choice old rose.

**Bridesmaid**, clear, shining pink; fine buds on long, strong stems; blooms freely; one of the best.

**Clothilde Souperf**, white, with peach centre; very double, delicately fragrant; strong, healthy grower; continuous bloomer.

**Duchesse de Brabant**, soft rose, large, full and fragrant; plant vigorous, free-blooming and healthy.

**Grown au Teplitz**, rich, dazzling crimson, very sweet, produced in masses; plant strong, everblooming; flowers on long stems; fine.

**Hermosa**, exquisitely deep pink, of fine shape; profuse-blooming and beautiful; one of our finest Roses.

**Ivy, chaste**, ivory-white; deep buds and superb large flowers on long, stiff stems; an exquisite sort.

**Kaiserin Augusta Victoria**, pure white, without tint, immense buds, and full, double flowers of surpassing beauty; free bloomer.

**La Detroit**, shell-pink shading to soft rose-pink at centre; massive flowers of handsome form, with a charming tea fragrance; vigorous and free-blooming; splendid sort.

**Malmaison**, rich, salmon, flowers of great size, full, and freely produced; fine either for beds or pots; an old but choice Rose.

**Marechal Niel**, a climbing sort, with enormous golden-yellow buds and blooms of surpassing beauty and fragrance; does well South.

**Meteor**, velvety-crimson, large, full, double; beautiful in both bud and flower; stems robust, well set with rich foliage; splendid.

**Marie VanHoucke**, yellow shaded rose; extra large, double, of fine form and exquisite fragrant; excellent for beds; hardly equalled.

**Mme. D. Matrat**, sulphur-yellow; graceful buds and open flowers borne continuously throughout the season; a splendid new sort.

**Mme. Abel Chatenay**, pink, tinged salmon, petals gracefully recurved; a new, magnificent Rose.

**Papa Goutier**, dark carmine, fine large buds, lovely semi-double flower;(choice); constant bloomer.

**Pink La France**, very large, rich pink, superbly scented flowers; unrivalled for pots or beds.

**Souv. de Pierre Notting**, rich shades of cream, orange and peach with petals edged carmine, harmoniously blended; a choice sort.

**The Bride**, pure white, sometimes tinged delicate flesh; beautiful.

**Crimson Rambler**, vivid crimson flowers, double; blooms in huge clusters; plants of climbing habit.

**Belle Marie Henriette**, rich crimson, handsome, full double, a choice climber, showy, beautiful.

CHOICE HYBRID PERPETUAL ROSES.

**Anna de Diesbach**, clear brilliant rose; pointed buds; big f'wrs.

**Ball of Fire**, delicate blush, changing to snow-white; double.

**Clio**, delicate satiny-pink; immense flowers of perfect form; a new sort.

**Captain Christy**, delicate pink, deeper color toward the centre.

**Dinsmore**, glowing crimson; continuously blooming; double; dwarf.

**Gen. Jacqueminot**, rich velvety-crimson; semi-double; handsome.

**John Hopper**, bright, clear rose; large, fine form; on stiff stems.

**Mrs. Jno. Lying**, clear, bright shell-pink, exquisitely shaded.

**Magna Charta**, bright rose, superbly carmine; grand, popular sort.

**Paul Neyron**, bright, shining crimson, a double, vigorous plant; choice.

**Ulrich Brunner**, bright cherry-red; semi-double flowers; splendid.

**Jeck's Caprice**, the only hardy striped rose; soft, satiny-pink.

All of the above Roses are well-grown and in fine condition. All are hardy, and cultural directions will be sent on request for sets of plants in the spring. I hope my patrons will let me have their liberal Rose orders, and the orders of Rose-loving friends. I believe they will be more than pleased with the fine plants I will send them, and the liberal treatment accorded.
